

# Cullyhanna & Dorsey

## Village Renewal and Development Plan

### Addendum and Updated Action Plan: December 2017

The Village Renewal and Development Plan review was funded under Priority 6 (LEADER) of the Northern Ireland Rural Development Programme 2014-2020 by the Department of Agriculture, Environment and Rural Affairs and the European Union, and Newry, Mourne and Down District Council.

## 1. Introduction

The Village Renewal and Development Plan (Village Plan) was produced for Cullyhanna and Dorsey in 2012. This has now been reviewed and updated by the community in conjunction with Newry, Mourne and Down District Council. The review has taken the form of an addendum to the Village Plan and should be read in conjunction with it. The addendum includes an updated Action Plan (see Section 2), which identifies which projects and initiatives have been implemented since the original plan was published and highlights projects which could be focused on over the next phase of implementation.

Ove Arup and Partners (Arup) was appointed as the consultancy team to facilitate the review and update of the Action Plan. This update has been facilitated by a stakeholder workshop. The outcome of this is an updated Action Plan which includes a range of projects and initiatives that we believe will have a real impact on the area.

The review of the Village Plan was funded under Priority 6 (LEADER) of the Northern Ireland Rural Development Programme 2014-2020 by the Department of Agriculture, Environment and Rural Affairs and the European Union, and Newry, Mourne and Down District Council.

The Rural Development Programme uses the LEADER approach which adopts a community led model to assist rural communities to improve the quality of life and economic prosperity in their local area, through the allocation of funds based on local need. Village Renewal and Development is an important element of the Rural Development Programme.

The Village Plan is a working document that requires the support of the community, and in many cases the community working in partnership with other agencies and statutory bodies.

It is important to note that some projects and initiatives set out within the action plan may be subject to future feasibility studies and analysis, detailed design, landowner agreements, statutory approvals and available funding.

## 2. Implementation

This plan is designed to improve the social and economic fabric of the area.

The Updated Action Plan provides an indication of the key tasks which need to be undertaken to progress specific projects. This often includes detailed scheme design, preparation of the business case and funding application, and in some cases further feasibility and analysis. The source of funding will often dictate the order in which tasks need to be undertaken, for example the Rural Development Programme expects all statutory consents to be in place before the funding application is submitted. There are potential sources of funding available for the projects and initiatives set out within this Village Renewal Plan. It is important to note that reference to potential funding is for guidance only. Other funding opportunities may become available during the lifetime of this plan, and all projects will be subject to appropriate eligibility checks, application and assessment procedures as set by each funding body.

The Updated Action Plan also provides an indication of the priority level of each project based on discussions with key stakeholders during plan preparation. Alongside this, a lead delivery agent and key stakeholders have also been noted. There may also be other interested groups who should be engaged during project implementation or those whose agreement must be sought, such as a private landowners or statutory bodies. It is also important to recognise that priorities may change as funding opportunities become available.

It should be noted that the progressing of a 'Village Plan' under the Rural Development Programme does not mean that the settlement or area, to which the 'Village Plan' applies, is designated as a village in the settlement hierarchy as identified in the current development plans that apply to the district (i.e. the Banbridge/Newry and Mourne Area Plan 2015, and the Ards and Down Area Plan 2015) or the Council's new Local Development Plan for the District, which is currently under preparation.

3. Projects and Initiatives to benefit South Armagh - Review of 2012 Action Plan

	4.3	Encourage Renewable Energy Projects:  Development of a community wind turbine as a potential social / community enterprise	CCA, DAERA, Priv	M	M/L	BLF, RDP, NMDDC  Renewable energy projects developed as a community enterprise can be an excellent way to raise funding for future projects within the Community, especially those which may require considerable funding such as providing broadband to the area. Wind turbines can produce a considerable revenue from selling energy back to the national grid and also produce subsidised electricity for the local community and community facilities. It is important that this is a community led project with clear community benefits. Projects such as this can also have wide ranging social benefits as the community are becoming more self-sufficient and have joint ownership of a community enterprise. <b>Actions:</b> <ul style="list-style-type: none"> <li>• Consider the feasibility of a small to medium size wind turbine and establish the best location</li> <li>• Liaise with landowners regarding the project and possible lease of the land.</li> <li>• Gain all statutory approvals</li> </ul>	No progress.  Community is unsure if there is widespread support for a renewable energy project at this moment in time.	M	M/L	Further consultations between the community association, residents and landowners with the priority of establishing the level of support and feasibility of pursuing a renewable energy project (solar panels or wind turbines).

<b>1. Community Facilities</b>										
1.1	Provision of additional community facilities: <ul style="list-style-type: none"> <li>• Play area to accommodate all ages</li> <li>• Community garden / seating area</li> </ul>	NMDDC, DfC, Priv, DCA, VO	H	S	RDP Priv	<p><b>Issue:</b> Dorsey benefits from having a very good quality Community Centre which is well utilised and attracts residents from the wider area, however the Village lacks any recreational facilities. It was identified during the community consultation that the provision of leisure and recreational facilities is the number one priority for the Village. At present residents have to travel by car to surrounding areas to find a children's play park.</p> <p><b>Work done to date:</b> DCA has liaised with the landowner of the land adjacent to the community centre with regard to providing additional facilities for the community. The landowner has indicated that he would be willing to negotiate.</p> <p><b>Actions:</b></p> <ul style="list-style-type: none"> <li>• Agree acquisition of land adjacent to the community centre for community use</li> <li>• Commission design and gain any statutory approvals</li> <li>• Source funding for the community led provision of a children's play park and community garden</li> </ul>	<p>Noted that planning permission for the provision of a children's play park adjacent to Dorsey Community Centre was granted on 17<sup>th</sup> April 2013. Project collapsed due to the time issues associated with land transfer. Community still feel that the provision of recreational facilities is a high priority.</p> <p>The Play Strategy 2017-2022 does not highlight Dorsey as a priority site for a Council provided play area. Council can however provide advice for a community led play area initiative.</p>	H	S/M	<p>Consider provision of a community led play area initiative. Consult with relevant stakeholders on the potential demand for play, and subsequent design to meet target age ranges.</p> <p>Explore the potential for a community led leisure project, i.e. the provision of a community garden.</p>

<b>3. Infrastructure and Services</b>										
3.1	Traffic Calming and Gateways	NMDDC, TNI, DCA, Priv, Tourism NI	H	S	RDP, NMDDC, TNI	<ul style="list-style-type: none"> <li>Traffic calming measures, signage and gateways</li> <li>Pedestrian crossing point at Roxborough Road</li> </ul>	<p>Partially completed.</p> <p>DRD have completed certain actions – Signage and gateways. Community still regard the pedestrian crossing point at Roxborough Road as being an important action. Radar (electronic) speed signage is seen as a potential measure for traffic calming due to its effectiveness in other regions.</p>	H	S/M	<p>Consult with relevant stakeholders on the potential to complete remaining traffic calming measures and gateway features.</p> <p>Investigate the feasibility of implementing radar speed signage at strategic locations within the village.</p>
3.2	Provision of a pedestrian footpath from Dorsey Village to Rory Mc Gee Park (GAA) and possibly to the Primary School.	DCA, DfI, TNI, DEGFC, VO	H	S	TNI	<p><b>Issue:</b> Currently there is no pedestrian footpath linking Dorsey to the GAA Club which is very well used by everyone within the community, especially kids. The Primary School is also a significant distance from the settlement, however there is not bus provision to the school. The provision of a footpath / cycleway is essential to provide a safe access to both the GAA and Primary School.</p> <ul style="list-style-type: none"> <li>Ensure that the provision of footpath / cycleway is provided linking Dorsey to the GAA Club and Primary School.</li> </ul>	<p>No progress.</p> <p>The provision of a pedestrian footpath has not progressed even though the community regard it as a priority project.</p> <p>Key to progressing a project of this nature is a joint up collaborative approach between the various stakeholders.</p> <p>This would set the foundations for progressing the project towards consultation and implementation with funders.</p>	H	S	<p>Consult with PS, GAA club and community associations. Discussions and joint up approach between these stakeholders will be key in delivering this project.</p> <p>Explore potential detailed design and necessary approval for the scheme.</p>
