Report to:	Active and Healthy Communities
Date of Meeting:	20 August 2018
Subject:	District Electoral Area (DEA) Fora Update Report
Reporting Officer (Including Job Title):	Janine Hillen, Assistant Director Community Engagement
Contact Officer (Including Job Title):	Damien Brannigan, Head of Engagement Aisling Rennick, Engagement & Development Manager Shirley Keenan, DEA Coordinator (Crotlieve)

Confirm how this Report should be treated by placing an x in either:-

For decision	<input checked="" type="checkbox"/>	For noting only	<input type="checkbox"/>
---------------------	-------------------------------------	------------------------	--------------------------

1.0	Purpose and Background
1.1	<p>To provide the Committee with an update on the on-going work of the DEA Fora and to consider and agree the actions outlined in the attached action sheets from the DEA Forum Private Meetings as listed in 3.1 below.</p> <p>DEA Coordinators continue to implement actions detailed in their respective local action plans as follows:</p> <p>Level of Civic Participation:</p> <ul style="list-style-type: none"> > Downpatrick, Rowallane and Slieve Croob DEAs hosted an Information Evening for Bulgarian residents in the Down Arts Centre on 27 July. Those who attended received advice on Universal Tax Credits, Housing Issues, Recycling and registering with Doctors. This information was provided by Citizens Advice Newry Mourne & Down, NIHE, PCSP, and the Council. > In Slieve Gullion DEA, Cultural Awareness and Language Support Sessions were organised for the Bulgarian Roma community for 6 weeks. Sessions included basic English language support, as well as information about living in Northern Ireland. > The Newry DEA has been working closely with Council’s Enterprise, Regeneration and Tourism Department to enhance the 2018 Merchant’s City Festival by the inclusion of additional cultural elements. <p>Level of Health Status:</p> <ul style="list-style-type: none"> > All DEAs participated in a district wide Men’s Shed Event in Rostrevor Men’s Shed on Saturday 23 June. Men’s groups from all over the district were in attendance at the study visit which was held as part of Men’s Health Week. Over 100 men participated. > Downpatrick, Rowallane and Slieve Croob DEAs hosted a World Cup Men’s Penalty Shoot in partnership with CDRCN on 14 June as part of Men’s Health Week. Over 50 men participated in the event and accessed a range of information on keeping healthy and were able to avail of blood pressure checks. > Slieve Gullion DEA worked in partnership with Lislea Men’s Shed to mark Men’s Health Week with an awareness event for older men on 13 June in Lislea Community Centre. The event featured a number of activities including free health checks, home safety information, crime safety tools from the PSNI, healthy eating demonstrations, and Get Active support from the Council’s Macmillan Move More Coordinator. The event also included a talk on mental health from PIPS.

	<p>> Slieve Gullion DEA worked in partnership with a number of health and children support agencies to deliver a cross-community International Children's Day Event on 8 June. Over 150 people attended the event in Newtownhamilton Community Centre. The event focused on healthy living advice for children and parents and included a range of fun activities. Also available on the day was healthy food tasting, free health checks by Farm Families for parents, health and well-being information stalls, and free dental packs for children to promote oral health. The event was enhanced by music and dance performances from Bulgarian, Traveller, Ulster Scots, and Irish artists.</p> <p>Level of Personal Safety and Crime:</p> <p>> Crotlieve DEA held a Crime Prevention Public Engagement Event on Tuesday 12 June at 7.00pm in Carrick Primary School. The PSNI Crime Prevention Officer and Neighbourhood Policing Team were in attendance along with Home Secure. Attendees were provided with useful information about safeguarding their homes and avoiding scams.</p> <p>> Slieve Gullion DEA organised a Crime Prevention Event with the PSNI for local businesses in the Crossmaglen area on 11 May. The event was an excellent opportunity for local shops and businesses to engage with the PSNI and get valuable advice and information about protecting their businesses from various types of crime.</p>
2.0	Key issues
2.1	None.
3.0	Recommendations
3.1	<p>That the Committee:-</p> <ul style="list-style-type: none"> • Note the report. • Agree to approve the action sheets from the following DEA Forum Private Meetings: <ul style="list-style-type: none"> ➤ Newry DEA Forum Private Meeting held on 6 June 2018. ➤ Slieve Gullion DEA Forum Private Meeting held on 12 June 2018. ➤ Crotlieve DEA Forum Private Meeting held on 26 June 2018. ➤ Rowallane DEA Forum Private Meeting held on 3 July 2018. ➤ Slieve Croob DEA Forum Private Meeting held on 24 July 2018.
4.0	Resource implications
4.1	Support and assistance from partners to deliver actions in the DEA action plans.
5.0	Equality and good relations implications
5.1	The actions detailed have been developed to meet Council's statutory duty to promote Equality and Good Relations and therefore it is not anticipated that the actions will have an adverse impact on Equality of Opportunity or Good Relations.
6.0	Rural Proofing implications
6.1	The actions detailed have been developed to meet Council's statutory duty to have due regard to rural needs.

DEA SG/76/2018	White Goods Recycling	T. McDonald to raise issue of number restriction on white goods at Crossmaglen Recycling centre.	

Moneydarragh Community Report

Moneydarragh Community Hub was established in 2018 as a sub group of Longstone Community Association. It was established as a response to the proposed closure and sale of the local primary school. The aim of the Hub is to develop the Moneydarragh Primary School site into a cross - community hub for the people of that part of the Mournes.

The school has been an established facility in the community for 200+ years and served as a daily meeting point throughout that time. In the aftermath of the closure, and proposed sale of the school in July 2018 there is a drive from within the community to retain it as an educational facility/social enterprise.

In order to garner support from all communities and political representatives the Community will endeavor to host a series of meetings which will include Church representatives, Elected Members for the Mournes DEA and Council Officials

Given the urgency of the proposed sale some of the meetings have already taken place. On Monday 9th July a brief meeting took place with the DEA Co-ordinator and immediately following that on the 10 July a meeting with the group and David Gantley Property Administrator for the Diocese of Down and Connor took place. It proved a very positive consultation and it was agreed that the sale will be delayed to allow the group time to make applications for funding to at least cover the cost required as claw back from the Education Authority. It was also encouraging to note that in principle the church would be in support of the group taking ownership of the school.

The next step is for the group to email David Gantley with their proposals and request a meeting of all Elected Representatives, the MLA for the area and all relevant Council Officials.

(Next meeting is scheduled for Monday 23rd July at 11am in Moneydarragha P.S.)

Report to:	Active Healthy Communities
Date of Meeting:	20 th August 2018
Subject:	Provision of Wi-Fi at 7 Council owned Community Centres
Reporting Officer (Including Job Title):	Janine Hillen Assistant Director of Community Engagement
Contact Officer (Including Job Title):	Julie Mc Cann Head of Community Services, Facilities and Events

For decision	<input checked="" type="checkbox"/>	For noting only	<input type="checkbox"/>
Committee to provide approval to proceed with:			
Committee approval for Council Officials to complete a business case for the provision of Wi-Fi at 7 Council owned Community Centres and to proceed to work with the IT Department to procure, appoint and implement the Wi-Fi project.			
1.0	Purpose and Background		
1.1	<p>As part of the Community Centre Effectiveness Review, a recommendation was approved for the provision of Wi-Fi at 7 Council owned Community Centres</p> <p>The project aims to establish Wi-Fi connectivity at the following centres:</p> <ol style="list-style-type: none"> 1. Bessbrook Community Centre 2. Crossmaglen Community Centre 3. Cloughreagh Community Centre 4. Dan Rice Hall 5. Market House Centre 6. Ballynahinch Centre 7. The Bridge Centre, Killyleagh <p>On completion of the project, all Centre user groups would benefit from this connectivity. Wi-Fi can effectively empower communities and encourage the development of more effective local services, provide free access to a wide range of public services and assist in personal development (e.g. learning a new language).</p> <p>Community Services staff have met with the IT Section regarding the installation of comms cabinets at each of the centres to facilitate the Wider Area Network (WAN) Connection.</p>		
2.0	Key issues		
2.1	<ul style="list-style-type: none"> • No Wi-Fi access exists within the above buildings. • Demand for public / guest Wi-Fi at each of the centres. 		
3.0	Recommendations		
3.1	Committee approval for Council Officials to complete a business case for the provision of Wi-Fi at 7 Council owned Community Centres and to proceed to work with the IT Department to procure, appoint and implement the Wi-Fi project.		

4.0	Resource implications
4.1	£70,000 (approximate figures following initial costings exercise with IT) Already ring-fenced with Council Capital Budget.
5.0	Equality and good relations implications
5.1	Project implementation will have a positive impact on Good Relations between Council and the local community.
6.0	Rural Proofing implications
6.1	A number of these Centres are located in some of the Districts more rural areas. Officers confirm due regard to rural needs has been considered and this report has not been subject to a rural needs impact assessment.

Report to:	Active Healthy Communities
Date of Meeting:	20 th August 2018
Subject:	Update on the Community Centre Effectiveness Review & Development of Community Centre Strategy
Reporting Officer (Including Job Title):	Janine Hillen Assistant Director of Community Engagement
Contact Officer (Including Job Title):	Julie Mc Cann Head of Community Services, Facilities and Events

For decision	<input checked="" type="checkbox"/>	For noting only	<input type="checkbox"/>
--------------	-------------------------------------	-----------------	--------------------------

Committee to provide approval to proceed with:

The appointment of a consultant using the NEBRO framework to develop a Community Centre Strategy to identify gaps in provision and make recommendations on how we address current and future needs.

1.0	Purpose and Background
1.1	Newry, Mourne and Down District Council acknowledged the need to conduct a comprehensive review on how they currently support community centres/facilities across the entire District. County Down Rural Community Network (supported by Confederation of Community Groups) was appointed to undertake this review on behalf of the Council. The report was presented to Council in December 2017.
2.0	Key issues
2.1	<p>One of the key findings from the review was the location of Centres.</p> <p>A total of 50 community centres were involved in the review, which were categorised under the following Phases depending on their funding model:</p> <ul style="list-style-type: none"> ○ Phase 1 Centres – Council owned centres, which are managed by a voluntary management committee -16 centre in total. ○ Phase 2 Centres – Community owned and community managed centres who receive a Service Level Agreement (SLA). 14 Centres in total ○ Phase 3 Centres – Community owned and community managed centres which do not receive any financial support for running cost from Council ○ Phase 4 Centres – Council owned centres with 100% Council financing and resourcing. 7 Centres in total <p>A mapping exercise was carried out to identify the location of each of the centres. The table below (Table 1) shows the number of centres that receive financial support from Council which are located within each DEA. Phase 3 Centres are not included in this table as a random sample of these types of centres. To accurately assess the number of such centres a full audit exercise would be required which was beyond the scope of the review.</p>

Table 1- Council Supported Facilities by DEA

DEA	Phase 1	Phase 2	Phase 4	Total for each DEA
Crotlieve	3	2	0	5
Downpatrick	0	6	0	6
Mournes	3	2	0	5
Newry	5	0	0	5
Rowallane	0	1	3	4
Slieve Croob	0	1	1	2
Slieve Gullion	5	2	3	10
Total by Phase	16	14	7	

Table 1 above identifies the spread of centres throughout the council area. There is a higher concentration of Council supported centres within the Slieve Gullion DEA (10), with Slieve Croob DEA showing the lowest number of supported centres at just 2. This table clearly identifies current gaps within provision across the district.

The review indicates that the Council needs to review the following:

- All facilities regardless of their funding model, are important assets to the communities they serve. It is therefore important that Council continue to support community facility provision in a fair and equitable manner in the long term.
- Council needs to consider areas throughout the District where there are currently gaps in provision and consider ways this can be rectified, to give consideration to areas where there is no or low provision.

A review of how FMA and SLAs are provided by the Council is currently being reviewed by CDRCN on behalf of the Council.

3.0	Recommendations
3.1	The appointment of a consultant using the NEBRO framework to develop a Community Centre Strategy to identify gaps in provision and make recommendations on how we address current and future needs.
4.0	Resource implications
4.1	Officer time. Consultant fees approx. £7,000 (already included in AHC budget for 18/19)
5.0	Equality and good relations implications
5.1	The audit will highlight any inequalities within service.
6.0	Rural Proofing implications
6.1	The audit will highlight any rural proofing issues.

1.0	Purpose and Background
1.1	<p>The purpose of this report is to consider the awarding of additional funding of £135,925.94 from the Department for Communities (DfC) to Citizens Advice Newry, Mourne and Down.</p> <p>The Council's Chief Executive, Mr Liam Hannaway, has received a letter from DfC (see Appendix I) advising that through its Voluntary and Community Division (VCD) it is providing additional funding totalling £135,925.94 to the Council (through DfC's Council's Community Support Programme) for the funding to be directed to 'Citizens Advice Newry, Mourne and Down' for the following purposes:</p> <p><u>Advice Grant £143,871.30 (£127,804.00 annual advice grant plus £16,067.30)</u></p> <ul style="list-style-type: none"> • £16,067.30 of this annual Advice Grant of £143,871.30 is additional funding for 2018/2019 to support Training and Service Delivery in Citizens Advice Newry, Mourne and Down's frontline offices. <p><u>Advice Sector Support for Welfare Reform</u> Salaries £72,458.64 (broken down as follows):</p> <ul style="list-style-type: none"> • 4 (2 WTE) Frontline Advisers based in Citizens Advice Newry - £48,305.75. • 1 Frontline Adviser based in Citizens Advice Downpatrick - £24,152.89. <p>Additional Support £12,000.00 (broken down as follows):</p> <ul style="list-style-type: none"> • 4 (2 WTE) Frontline Advisers based in Citizens Advice Newry - £8,000.00. • 1 Frontline Adviser based in Citizens Advice Downpatrick - £4,000.00. <p>DfC has advised that it will be responsible for the monitoring and vouching of this £84,458.64 additional funding.</p> <p><u>Advice Sector Support for Universal Credit implementation</u> Universal Credit Training Package £20,400.00 for:</p> <ul style="list-style-type: none"> • 19 Front Line Advisers in Newry Office. • 15 Front Line Advisers in Downpatrick Office. <p>Digital Support package £15,000.00:</p> <ul style="list-style-type: none"> • Total Digital Support Funding of £15,000.00 for Citizens Advice Offices in Newry and Downpatrick. <p>DfC has advised that it will be responsible for the monitoring and vouching of this £35,400.00 additional funding.</p>

	<p>The total additional funding of £135,925.94 is in year and must be spent by the 31 March 2019.</p> <p>The Council is not required to match this additional funding of £135,925.94.</p> <p>The Council is the primary funder of Citizens Advice Newry, Mourne and Down, with the Council currently providing £292,539.00 in this financial year for Generalist Advice Services, which is awarded through a Service Level Agreement (SLA). <u>£127,804.00</u> of this £292,539.00 comes from DfC (under DfC's District Councils' Community Support Programme) and the Council contributes the remainder of £164,735.00 from its own resources.</p>
2.0	Key issues
2.1	None that we are aware of.
3.0	Recommendations
3.1	<p>That the Committee:</p> <ul style="list-style-type: none"> Agree to award the additional funding of £135,925.94 from the Department for Communities (DfC) to Citizens Advice Newry, Mourne and Down.
4.0	Resource implications
4.1	There are no resource implications as the Council is not required to match fund the additional funding from DfC.
5.0	Equality and Good Relations implications
5.1	In reaching the recommendation in 3.1 above due regard has been given to Equality of Opportunity and Good Relations and it is not anticipated that there will be any adverse impact upon Equality of Opportunity or Good Relations.
6.0	Rural Proofing implications
6.1	Due regard to rural needs has been considered in the context of this report and the recommendation in 3.1 above and it is not anticipated that there will be any adverse impact on rural needs.

OFFICIAL GRANT ACCEPTANCE

I _____ have authority **on behalf of**
(Name of Chief Executive in Block Capitals)

(Name of Council in Block Capitals)

accept the revised offer of Grant set out in the Letter of Variance dated 22 June 2018 and agree to deliver the above programme on the terms and conditions contained in the Letter of Offer and the Memorandum of Understanding dated **30th March 2018**.

Date

Signed Chief Executive

Report to:	Active Healthy Communities
Date of Meeting:	20 th August 2018
Subject:	Review of lease arrangements with The Card Shop, Margaret Street Newry and Kidszone, Cloughreagh
Reporting Officer (Including Job Title):	Janine Hillen Assistant Director of Community Engagement
Contact Officer (Including Job Title):	Julie Mc Cann Head of Community Services, Facilities and Events

For decision	<input checked="" type="checkbox"/>	For noting only	<input type="checkbox"/>
--------------	-------------------------------------	-----------------	--------------------------

Committee to provide approval to proceed with:

- **Issuing a Deed of Surrender for the current lease with the Card Shop, Margaret Street Newry. A new lease will commence immediately upon the termination of the existing lease for a period of 9 years.**
- **Increasing the rent based in line with RPI guidance to Kidszone at Cloughreagh Community Centre from £943 per year excluding rates, taxes, assessments and building insurance - to £966 per annum excluding rates etc. beginning 01/07/2018.**

1.0	Purpose and Background
1.1	<p>The Card Shop, has leased the unit at McGrath House, Margaret Street Newry from 26th November 2009. The contract is due to expire on 13th October 2018 but the tenant wishes to continue to operate from this unit.</p> <p>Kidszone have entered into a 25-year lease with N&MDC on 7th June 1999 for a 25-year period. A condition of the lease is that the rent be reviewed every five years and this is due on the 1/7/18.</p>
2.0	Key issues
2.1	<p>Review of the rent in respect of both properties is a legal obligation and is required to be undertaken by the Council in accordance with the requirements of Section 96(5) of the Local Government Act (NI) 1972. Section 96(5) places a requirement on Councils when disposing of property (including by way of a Lease) to obtain the best price or best rent attainable in respect of the property. LPS will carry out the necessary evaluations.</p>
3.0	Recommendations
3.1	<p>NM&DDC issues a Deed of Surrender for the current lease with the Card Shop. A new lease will commence immediately upon the termination of the existing lease for a period of 9 years.</p> <p>In line with RPI - currently 2.4% - that NM&DDC would increase the rent to</p>

	Kidszone at Cloughreagh Community Centre from £943 per year excluding rates, taxes, assessments and building insurance - to £966 per annum excluding rates etc. beginning 01/07/2018.
4.0	Resource implications
4.1	Officer time and LPS costs.
5.0	Equality and good relations implications
5.1	None
6.0	Rural Proofing implications
6.1	Officers confirm due regard to rural needs has been considered and this report has not been subject to a rural needs impact assessment.

PEACE IV Partnership Meeting**Board Room, Council offices, Monaghan Row, Newry.****Thursday 16th May 2018****In attendance:**

Cllr Michael Ruane, Newry Mourne and Down District Council

Cllr Terry Hearty, Newry Mourne and Down District Council

Cllr William Walker, Newry Mourne and Down District Council

Mr Morgan Brannigan, SHSCT

Mrs Helen Honeyman, Social Partner

Marie Conway, Education Authority

Seamus Campilison, Social Partner

Breige Jennings, Social Partner

Officials in Attendance:

Mrs Justyna McCabe Programmes Manager

Mrs Claire Loughran, PEACE III Officer

Mrs Ciara Burns, Project Support Officer

1. Welcome and Apologies

Councillor Michael Ruane welcomed members of the Peace IV Partnership.

Apologies were noted from:

Councillor Terry Hearty, Newry Mourne and Down District Council
Mr Declan Murphy, Social Partner
Mr Own McDonnell, Housign Executive
Mrs Janine Hillen, Assistance Director Active Health Communities

2. Conflict of Interest

Conflicts of interest were noted from Breige Jennings.

It was noted that County Down Rural Community Network have applies for Tenders under Shared Spaces and Services.

3. Minutes from previous meeting 22nd February 2018

The minutes from the previous meeting were approved,

Proposed by Cllr Terry Hearty

Seconded by Briega Jennings

4. Management Report

Justyna McCabe presented the Management Report for approval.

Approval to transfer the delivery arrangements and budget from Education Authority to NMDDC

SEUPB have informed us that they are content with the proposal that will see NMDDC delivering the 4 Children and Young People programmes (that were previously planned to be delivered by EA), with no impact to NMDDC staff levels and no impact on the NMDDC budget allocation.

The budget and delivery details will need to be updated on eMS and this will be done at a later point. SEUPB also acknowledged

EA's interest in remaining in an advisory role within the NMDDC PEACE IV Partnership.

Children and Young People target

Our agreed 2018 Interim Target for Children and Young People (0-24 year olds) is 491 and it has to be met by the end of 2018. Helen Honeyman asked for clarification in relation to the timeframe for publicly advertising Tenders, Jutyna informed Helen that once SEUPB had approved Tenders they would be advertised.

Partner Delivery Agent Report

• Building Positive Relations Report

Claire Loughran presented the Building Positive Relations Report for April 2018.

Claire updated the Partnership that Sector 3 will be appointed to deliver THE Capacity Building Programme and will be recruiting groups from June 2018. Sector 3 will be delivering by DEA and will begin with Crotlieve. Anyone interested should let Claire know.

Delegated authority was requested for the following actions:

- Procure and appoint a facilitator to put in place a joint strategy with the youth organisations in the Newcastle area
Estimated cost: £5,000
 - Procure and appoint a facilitator to carry out initial engagement/mediation with the communities in the Newtownhamilton area.
Estimated cost: £5,000
 - Procure and appoint relevant suppliers to create a Peace Garden in Newry City Centre
Estimated cost: £5,000
- Delegated authority requested to deliver the following:

- Killyleagh remembers the Great War, procure and appoint suppliers to carry out a programme of events from July 2018 – November 2018
Estimated cost: £3,000
- Procure and appoint a consultant to carry out elements of the NMD Intercultural strategy
Estimated cost: £5,000
- Procure and appoint relevant suppliers who will deliver specific actions as part of the Merchants Festival 2018 in Newry (Good relations actions as part of Peace IV programme)
Estimated cost: £26,400
- Procure and appoint relevant suppliers who will deliver specific actions as part of the SOMA Festival 2018 in Castlewellan Slieve Croob area (Good relations actions as part of Peace IV programme)
Estimated cost: £26,400

The total spend to date on the Building Positive Relationships is £110,108

Briege Jennings asked if under the cross community and intercultural events if the funding would be additional to existing funding. It was clarified that this would be separate and there would be additional workshop built into the events focusing on Building Positive Relations.

Cllr Michael Ruane explained that each DEA area would have an opportunity to support a festival in their local area.

Cllr Terry Hearty commented that smaller scale festivals may be supported, however Claire Loughran explained that when SEUPB were approached to deliver smaller festivals they did not approve.

Terry Hearty stated that we must ensure all PEACE IV expenditure is separate to existing provision in relation to the delivery of the festivals. Justyna McCabe stated that each festival would have an additional 26 hour workshops built into the festival.

Helen Honeyman asked for further information in relation to expressing an interest under point 3.6, Claire agreed to forward Space contacts details to Helen and they can be contacted in relation to this matter.

The Building Positive Relations recommendations were proposed by Cllr Terry Hearty and Seconded by Cllr Michael Ruane.

- **NMDDC Children and Young People report**

Claire Loughran presented the NMDDC Children and Young People report.

No Delegated authority was requested for actions.

The total spend to Date is £2,475.00.

- **NMDDC Shared Spaces and Services Report**

Claire Loughran presented the Shared Spaces and Services Report.

No Delegated authority was requested for actions:

The total Spend to date is £2,455.

Briege Jennings informed the Partnership that a stakeholder event will take place on 27th June and invitations will be issued. Helen Honeyman asked who was involved in the Ballyhorgan project and who proposed it, Justyna McCabe confirmed that all

programmes where based on consultation with local groups.

- **PCSP Report CYP and SSS**

Justyna McCabe presented the PCSP Report for April 2018.

No Delegated authority was requested for actions.

Clarification was sought in relation to accessing the projects, Justyna McCabe outlined the steps in relation to participating in the Programmes, the first step is to advise groups to contact the PEACE III Officer or DEA Officer.

Agreed:

The NMDC Management Report and Partner Delivery Agent reports recommendations for CYP, SSS and BPR and PCSP were proposed by Cllr Terry Hearty and seconded by Cllr.

5. Date of the next meetings

The dates for the next meeting were agreed as follows:

Thursday 21st June 2018 – Boardroom Monaghan Row Newry

Thursday 6th September 2018- Council Chambers Downpatrick.

Councillor Michael Ruane closed the meeting at 7pm

Report to:	Active and Healthy Communities
Date of Meeting:	20 th August 2018
Subject:	Derryleckagh Complex Upgrade
Reporting Officer (Including Job Title):	Conor Haughey, Head of Outdoor Leisure
Contact Officer (Including Job Title):	Declan Crilly, Outdoor Leisure Officer

Confirm how this Report should be treated by placing an x in either:-

For decision	X	For noting only
1.0		Purpose and Background
1.1		<p>Council approved in May 2018 to bring forward capital spend of £36,000 from the overall £150,000 capital included in the 2020/21 rates in order to carry out urgent works at Derryleckagh, Willy Davis Park to bring the pitch up to Intermediate IFA standard.</p> <p>As a result of a recent ground inspection with the IFA, team dugouts and new goal posts are required at a cost of additional £13,500. Therefore, bringing the total expenditure to £49,500 from the capital budget of £150,000.</p>
2.0		Key issues
2.1		<ul style="list-style-type: none"> • Timeframe to have upgrading works carried out at this facility for the start of September for both the Cambane League and Intermediate Leagues. • This facility will be used as a shared pitch with the local league, private bookings and Windmill Stars FC on alternative match programmes.
3.0		Recommendations
3.1		That the Committee agree:- To the new £49,500 of the overall budget of £150k agreed for 2020/21 being brought forward to the 2018/19 financial year.
4.0		Resource implications
4.1		<ul style="list-style-type: none"> • Budget cost of £49,500 from the Derryleckagh Complex upgrade within the 2020/21 rates.
5.0		Equality and good relations implications
5.1		No equality or good relations adverse impact is anticipated.
6.0		Rural Proofing implications

Consultation Process – Play Area Upgrade

Report to:	Active and Healthy Communities
Date of Meeting:	20 th August 2018
Subject:	Play Value Categorisation
Reporting Officer (Including Job Title):	Conor Haughey, Head of Outdoor Leisure
Contact Officer (Including Job Title):	Declan Crilly, Outdoor Leisure Officer

<table border="1"> <tr> <td>For decision</td> <td>X</td> <td>For noting only</td> <td></td> </tr> </table>		For decision	X	For noting only	
For decision	X	For noting only			
1.0	Purpose and Background				
1.1	<p>In 2017, NMDDC agreed its Play Strategy 2017-22. The strategy has been produced by Play Board NI, as part of the development for the strategy Council appointed another independent consultant, Play Services Ireland, to carry out a play value scoring of all of its existing 127 play parks.</p> <p>On completion of The Strategy, there were a number of parks requiring upgrading due to need and low play value rating.</p> <p>Villages within the district, which require new built parks due to no fixed play areas and there being a population need.</p> <p>Existing Play parks that did not meet demographic need have been recommended for a transformation redesigning.</p> <p>Finally play parks within urban areas that needed to be consolidated due to low play values and there being a cross over of fixed play zones as per field in Trust areas/guidelines.</p> <p>The current Play Strategy does not give any recommendations for the remaining play parks not identified for upgrading within the consolidation process. Play Board NI have been tasked to look at the play value categorisation and come up with recommendations to support the 2017-22 Play Strategy.</p> <p>Playboard NI findings are those Play parks within the Play Strategy consolidation recommendation that have not been identified as the preferred upgrade and have a play value scoring of less than 89 should be revisited by Council as a surplus asset.</p>				
2.0	Key issues				
2.1	<ul style="list-style-type: none"> • Possible reduction in maintenance and upkeep for play parks with low play value. • Potential sites for asset disposal. • Possible Reduction in public liability risk for non-required fixed play parks 				

3.0	Recommendations
3.1	Council agree to PlayBoard NI fixed play value categorisation and those parks with low play value of less than 89 not identified as part of community consolidations to be listed as a Council site within the surplus assets register.
4.0	Resource implications
4.1	<ul style="list-style-type: none"> • Officers time • Play board NI cost for community consultations
5.0	Equality and good relations implications
5.1	No equality or good relations adverse impact is anticipated.
6.0	Rural Proofing implications
6.1	The Play Strategy itself was subject to rural proofing.

APPENDIX 1

**Fixed Play Areas**
Play Value Categorisation**1.0 Introduction and Background**

- 1.1 In 2017 Newry, Mourne and Down District Council agreed its Play Strategy for the period 2017 to 2022. As part of the strategy development process play value ratings were identified for all fixed play areas. These ratings provided the basis for a programme of 23 play area renewals and upgrades in areas of identified ongoing demand for play, 10 consolidations and 10 transformations.
- 1.2 Following a tender process which resulted in the appointment of a design and development contractor a programme of play area renewals and upgrades is being rolled out across the district. This will address underlying issues relating to low play value and will establish a core base of high play value sites across the area.
- 1.3 As roll-out has now commenced and council play sites are being improved in terms of play value, it is timely for council to consider a categorisation to allow for the ongoing monitoring of play value and to identify key points at which a play area ceases to offer a sufficient level of play value.

2.0 Play Value Assessment

- 2.1 Play value assessment takes into account a number of key factors including location, accessibility, wider site environment and physical, creative, inclusive and social play.

- 2.2 The initial play value assessment of all sites was undertaken in 2017 and it is recommended that further assessment should take place at the three year point in the strategy (2020) and every three years thereafter.
- 2.3 In line with the recommendations of the play strategy, a further individual detailed play value assessment should be undertaken for each site once it reaches 15 years from its last substantial renewal.
- 2.3 In assessing the ongoing play value of fixed play areas it is recommended that council adopt the categorisation detailed overleaf. The categorisation aims to provide a basis for the assessment of play value and identifies key actions based on the play value score. It should be noted that as the play strategy rolls-out the number of play areas falling within the lowest two categories (1 and 2) will reduce significantly.

Category 1: Play Areas offering Low Play Value (PV score of 89 or under = <49.9% of total PV possible)

Typically defined by a lack of variety in the range of fixed play equipment available; poor underlying condition of equipment; signs of vandalism; restrictive access; lack of inclusive play. Such sites offer little in the way of attracting repeat usage by children and young people.

Recommendation: Providing that there is a demographic need and no other Play park is within the same field in trust catchment area, then such sites will require renewal or upgrade in order to increase play value.

Category 2: Play Areas offering Lower Mid Play Value (PV score of 90 to 107 - 50 to 59.9% of total PV possible)

Play areas offer a limited level of play value and are likely to require some immediate remedial action above regular maintenance in order to address underlying issues that reduce their play value.

Recommendation: Site should be reviewed to assess potential for enhancing play value through introduction of additional play opportunities/play equipment. Wholesale renewal unlikely to be required, however site should continue to be reviewed for further degradation of play value.

Category 3: Play Areas offering Upper Mid Play Value (PV score of 107 to 135 - 60-75% of total PV possible)

Play areas with an adequate level of play value for present.

Recommendation: No immediate action is required however such sites will require monitoring to ensure that there is no degradation or reduction in play value.

Category 4: Play Areas offering High Level of Play Value (136+) 76 to 100%

Play areas deemed to have a high play value and as such do not require any immediate action beyond ongoing maintenance.

Recommendation: Maintain in line with agreed maintenance protocol.

APPENDIX 2

CONSOLIDATION PARKS WITH PLAY VALUE LESS THAN 89

Report to:	Active and Healthy Communities
Date of Meeting:	20 th August 2018
Subject:	Play Strategy Upgrade/Transformation Schemes
Reporting Officer (Including Job Title):	Conor Haughey, Head of Outdoor Leisure
Contact Officer (Including Job Title):	Declan Crilly, Outdoor Leisure Officer

For decision	<input checked="" type="checkbox"/>	For noting only	<input type="checkbox"/>
1.0	Purpose and Background		
1.1	<p>Council accepted in December 2017 approved the 3-stage consultation process with regard to the procedure for delivery of upgraded & transformed play parks. Stage 3 only has been completed with regards to the design and input from Playboard NI with regard to 10 no. rural development funded upgrades and 1 no. transformation.</p> <p>Council are still required to approve the final stage 3(b) of the process which allows Playboard to present to the local community groups the designs and allow the manufacturer to proceed with the build and installation works.</p> <p>A budget of £45k per upgrade has been allocated within the Play Strategy overall capital programme. Council has secured £500k match funding from the Rural Development Programme (RDP) for 16 no. play parks.</p> <p>A budget of £7,500 has been set transformation programmes within the Play Strategy overall capital programme.</p> <p>Oliver Plunkett, Camlough – Upgrade - £50,960.00 Bridge Centre, Killyleagh – Upgrade - £67,679.00 Lislane, Saintfield – Upgrade - £58,995.00 Jonesborough, Newry – Upgrade - £61,452.00 Burren Village, Warrenpoint – Upgrade - £60,040.00 Drumaness, Ballynahinch – Upgrade - £66,260.00 Westlands, Crossgar – Upgrade - £65,050.00 Lurganare, Newry – Upgrade - £72,198.00 Cullyhanna- upgrade-£65,000.00 Drumintee- upgrade - £63,000.00 Ballymaderphy, Killeel – Transformation - £6,856.00</p>		
2.0	Key issues		
2.1	<ul style="list-style-type: none"> Playboard Ni accepted that the best and safest creation for these play parks were as per detail within all the drawings attached from Wicksteed designs. The upgraded parks will take on board all recommendations from Playboard NI guidance, and they in turn will present to local 		

	<p>communities the park upgrade designs as per the final stage of the Consultation process.</p> <ul style="list-style-type: none"> • These capital works must be completed before March 2019 as per RDP letter of offer.
3.0	Recommendations
3.1	<p>That the Committee agree:-</p> <ul style="list-style-type: none"> • To approve findings of the consultation process, • To agree the capital spend budget, • To commence work to the 10 no. upgrades and 1 no. transformation play parks listed at 1.1 above.
4.0	Resource implications
4.1	<ul style="list-style-type: none"> • Officer's time, • £630,034.00 overall spend for upgrade works at 10 no. play parks, • £450,000.00 from Play Strategy capital budget and £180,034.00 from RDP fund. • £6,856.00 transformation works at 1 no. play park.
5.0	Equality and good relations implications
5.1	This proposal should have a positive impact on Equality and Good Relations.
6.0	Rural Proofing implications
6.1	The Play Strategy itself was subject to rural proofing.

Report to:	Active and Healthy Communities
Date of Meeting:	20 th August 2018
Subject:	Forkhill Play Parks – Consolidation Report
Reporting Officer:	Conor Haughey, Head of Outdoor Leisure
Contact Officer:	Conor Haughey, Head of Outdoor Leisure

Decisions required:	
For decision	<input checked="" type="checkbox"/> For noting only
To consider and agree:	
The consolidation report from Playboard NI in regard to investigating option for Siting one play area on the former military site to serve the village of Forkhill.	
1.0	Purpose and Background:
1.1	<p>Background - in 2016/17 Newry, Mourne and Down District Council carried out a review of the play value of its fixed play areas as part of the Play Strategy 2017 - 2022. As a result it was recommended that future investment within Forkhill Village should focus on an upgrade to the existing Fair View and Bog Road Play Areas .</p> <p>Since then, there has followed the completion of the Forkhill Greenspace Project on the site of the former Army Base in the centre of the village. This pathway has been well used and received by the local community and there is now a strong desire on the part of the Forkhill Site Steering Committee, to see remaining elements of the site Masterplan completed, one of which is a new Play Area for the whole village.</p> <p>In order to guide future play investment, Council have asked PlayBoard to undertake a further survey to identify that the community would prefer investment to focus on the former Military site in the centre of the village as opposed to upgrading the 2 existing Play Areas. Outline Planning permission was previously granted for Play Provision on this site in the proposed location.</p>
2.0	Key issues:
2.1	<ul style="list-style-type: none"> • With a view to ensuring that future play investment meets the needs of the village, Council have approval from the Rural Development Programme, subject to consultation to utilise the upgrade monies planned for the 2 existing playareas, to provide a larger single site play area at the former Forkhill Army barracks site, now known as the Forkhill Greenspace Project. • Playboard NI will highlight as part of the overall presentation and report a subsequent development.
	Recommendations:
3.1	<p>That the committee agree:-</p> <ul style="list-style-type: none"> • To approve the findings of the consultation process.

4.0	Resource implications:
------------	-------------------------------

4.1	Officer's time. Capital costs set against consultation upgrades.
	Equality and good relations implications:
5.1	The process undertaken meets the Council's equality scheme commitment to undertake appropriate and relevant consultation with consultees affected by the proposals.
6.0	Rural proofing implications
6.1	Officers confirm due regard to rural needs has been considered and this report has not been subject to a rural needs impact assessment.
7.0	Appendices
	Presentation from Playboard NI.

Report to:	Active and Healthy Communities
Date of Meeting:	20 August 2018
Subject:	Upgrading a Section of Land at Saintfield Hockey Pitch
Reporting Officer (Including Job Title):	Conor Haughey – Head of Outdoor Leisure
Contact Officer (Including Job Title):	Pat Power - Sports Development Manager

Confirm how this Report should be treated by placing an x in either:-

For decision	<input checked="" type="checkbox"/>	For noting only	<input type="checkbox"/>
---------------------	-------------------------------------	------------------------	--------------------------

1.0	Purpose and Background
1.1	<p>Saintfield Sports Club have requested to carry out some upgrades to a small strip of land on the east side of Council's new 2G hockey pitch at 40 Comber Street, Lisdalgan, Saintfield, BT24 7AZ.</p> <p>The Club are seeking permission from Council to upgrade this small strip of land to a bitmac surface, including a request to install and provide flood lighting for the same area, in order to utilise it as part of a running trail and training area for the expanding Saintfield Striders Running Club.</p>
2.0	Key issues
2.1	<ul style="list-style-type: none"> • The development of the new 2G synthetic surface in Saintfield has already generated concerns from some of the local residents due to the loss of space for dog walkers. • There will be no financial input from Council and the Saintfield Sports Club will be responsible for any running costs and maintenance to the surface and floodlights once installed. • Saintfield Sports Club will be required to investigate and submit any planning applications on their own behalf. • The upgrading of our facility will complement the current site, maximize the space and provide an additional area for people to exercise.
3.0	Recommendations
3.1	<p><i>That the Committee agree to:</i></p> <ul style="list-style-type: none"> • Grant Saintfield Sports Club permission to carry out the upgrade works to strip of land as outlined in yellow on appended map.
4.0	Resource implications

APPENDIX 1

Report to:	Active and Healthy Communities
Date of Meeting:	20 th August 2018
Subject:	New Down Leisure Centre Opening Sales Promotions
Reporting Officer (Including Job Title):	Kieran Gordon, Head of Indoor Leisure
Contact Officer (Including Job Title):	Kieran Gordon, Head of Indoor Leisure

For decision	X	For noting only	
1.0			Purpose and Background
1.1			The new Down Leisure Centre construction project is nearing its conclusion. This will also see the existing Down Leisure Centre close once the construction project has completed and has been handed over to the Council. Previously in June 2018, Council approved a 21 day transitional period directly after the existing Down Leisure Centre closure to allow for key training, familiarisation and independent consultant health and safety procedural sign off. In addition as part of this approval, it included the development of marketing launch plan to include a "soft launch" to test procedures.
1.2			In September 2016, approval was given to adopt the recommendations contained within the Indoor Leisure Business Plan 2016-2020 which specifically focuses upon a number of actions to ultimately aim to achieve participation growth and also to reduce net cost of operating its centres. With specific reference to Downpatrick, this equates to an increase in yearly customer participation from 167,668 visits per year in 2015/16 to 432,000 visits per year by the end of 2020/21 and this should assist with the aim to reduce net cost of operating its Indoor Leisure centres from £3.14m in 2015/16 to £2.53m per annum by 2021.
1.3			Officers believe there is a key opportunity to maximise commercial opportunities during this forthcoming period of excitement and intrigue with the new facility and therefore request approval for the implementation of a select number of commercial sales promotions.
2.0			Key issues
2.1			Officers would recommend the following four categories for commercial sales promotions: (1) Direct debit (2) Annual paid in advance memberships (3) Member referrals (4) Existing customer loyalty scheme
2.2			Sales promotions therefore would focus on allowing a select number of memberships to be sold with a discounted initial fee, ie. Join for a £1 and rest of the month for free for direct debit customers and option to add an extra free month to annual paid in advance memberships. A select number of free guest passes would also be made available to new and existing customers so they can bring a friend/family member for free. During the proposed 21 day closure of gym and halls facilities, current customers would be given the opportunity to avail of their chosen non-booked activities at

	other Indoor Leisure facilities free of charge and officers would also propose to review options for existing customer loyalty offers upon transfer to the new Down Leisure Centre.
3.0	Recommendations
3.1	To allow officers to proceed to refine and implement commercial sales options as per section 2.1. These offers would be made available for a specific period of time to help maximise potential commercial income opportunities during this forthcoming period of excitement and intrigue with the new facility.
4.0	Resource implications
4.1	Officer time – to make staff aware of pricing and to update and configure literature and computerised till systems
5.0	Equality and good relations implications
5.1	The proposal sets out specific action to be undertaken regards to implementing recommendations from the Indoor Leisure Business Plan. It is therefore not anticipated the recommended actions will have an adverse impact upon the promotion of equality and opportunity and good relations, but will generate opportunity to take positive action.
6.0	Rural Proofing implications
6.1	Officers confirm due regard to rural needs has been considered, and this report has not been subject to a rural needs impact assessment.
7.0	Appendices
	N/A
8.0	Background Documents Indoor Leisure Business Plan 2016-2021 (Approved September 2016)

Report to:	Active and Healthy Communities
Date of Meeting:	20 th August 2018
Subject:	New Down Leisure Centre Pricing and Programming Arrangements
Reporting Officer (Including Job Title):	Kieran Gordon, Head of Indoor Leisure
Contact Officer (Including Job Title):	Kieran Gordon, Head of Indoor Leisure

For decision	X	For noting only	
1.0			Purpose and Background
1.1			<p>In September 2016, approval was given to adopt the recommendations contained within the Indoor Leisure Business Plan 2016-2020. The key recommendations contained within the plan relevant to this report are:</p> <ul style="list-style-type: none"> • Alignment of indoor leisure facility services, procedures and governance • Consistency of activities needed along with general targeted programming and enhancement of sports development that will assist in increased participation and income levels • Group exercise classes (ie. Follow Newry model) • Review of coached activities in terms of in house provision versus outsource
1.2			<p>Previously, in December 2016, Officers were given approval to appoint a leisure fitness equipment partner for Indoor Leisure facilities which would see the Council procure its own fitness equipment and strive to modernise centres over the period of the business plan by striving to offer eventual continuity and availability of services and programming across the District with the associated technology being identified as a key customer retention tool.</p> <p>With the new Down Leisure Centre construction project nearing conclusion, soon the Council will have two multi-million pound flagship leisure centres in operation (following the opening of the 2nd phase of the new Newry Leisure Centre in Nov 17).</p> <p>Therefore to achieve business plan targets and due to the different models that exist currently, Council should now consider the new Down Leisure Centre membership offerings, pricing and programming arrangements to ensure a consistent approach is adopted for the Districts two new leisure centres.</p>
2.0			Key issues
2.1			<p>Currently as per the Indoor Leisure Scale of Charges 2018/19, membership for unlimited use of gym, swim, health suite and group exercises classes is £29.95 per month. Concessionary rates are also available and these packages allow customers to use all of the Districts 5 Indoor Leisure facilities at their own discretion however due to the group exercise coaching model, customers can only avail of unlimited group exercise classes at the Kilkeel and Newry Leisure Centres.</p> <p>The current Down Leisure Centre membership for unlimited use of gym, swim and health suite is £24.75 per month but only permits customers' access to Down</p>

	Leisure Centre, Ballymote and Newcastle with no entitlement to any coached group exercise classes.
2.2	Currently in Down Leisure Centre, there are a selection of group exercise classes on offer via outsourced private coaches who pay room hire to the centre but charge and collect their own fees from customers wishing to avail of their classes. On average, each class is approx. £5 per class and in some cases, current customers who wish to also avail of the centres fitness and swimming membership offerings are paying these additional fees on top of their monthly payments of £18.55-£24.75.
2.3	Therefore, in order to meet the Indoor Leisure Business Plan recommendations, it is proposed to permit officers to: <ul style="list-style-type: none"> • Work closely with the Council's learning and development team to source and deliver training to enable Council staff to upskill to deliver in house group exercise classes in the new Down Leisure Centre to strive to match the offerings currently in the Kilkeel and Newry Leisure Centres, ie. Spin, circuits, Bodypump, aqua aerobics,etc • Engage with current Down Leisure Centre outsourced private coaches to determine implications and seek to promote future recruitment opportunities • To introduced revised membership category for the new Down Leisure Centre that aligns with the Newry and Kilkeel Leisure Centres price point of £29.95 and associated concessionary discount and that should also include future in house coached group exercise class timetable for Down Leisure Centre customers use as part of one consolidated fee • To maintain the existing £24.75 per month membership category for unlimited use of Ballymote and Newcastle fitness suites pending any future review of its fitness equipment and in house coached exercise classes.
3.0	Recommendations
3.1	To allow officers to proceed to refine and implement pricing and programming options as per section 2.3. These changes would therefore take another step to ensuring eventual continuity and availability of services and programming across the District's Indoor Leisure facilities.
4.0	Resource implications
4.1	Officer time – to develop training plans, to engage with staff and user groups, to market and communicate pricing, to update and configure literature and computerised till systems Financial – it is anticipated that this will have a positive outcome for income opportunities in the new Down Leisure Centre by aiming to increase monthly membership yield and income per station which currently is approx. £500 per station and aiming to increase to the levels currently achieved by Newry and Kilkeel of approx. £3k-£4k per station. Officers will also need to allow an approx. £25k per annum budget for the 2019/2020 year to off-set coaching costs but it is expected additional income achieved for these offerings will ensure this is at least cost neutral.
5.0	Equality and good relations implications
5.1	The proposal sets out specific action to be undertaken regards to implementing recommendations from the Indoor Leisure Business Plan. It is therefore not anticipated the recommended actions will have an adverse impact upon the promotion of equality and opportunity and good relations, but will generate opportunity to take positive action. Details listed in section 2.3 has potential to

	provide consistent application of membership and pricing operating arrangements.
6.0	Rural Proofing implications
6.1	Officers confirm due regard to rural needs has been considered, and this report has not been subject to a rural needs impact assessment.
7.0	Appendices

8.0	Background Documents Indoor Leisure Business Plan 2016-2021 (Approved September 2016)

Report to:	Active and Healthy Communities
Date of Meeting:	20 th August 2018
Subject:	Indoor Leisure Capital Budget
Reporting Officer (Including Job Title):	Kieran Gordon, Head of Indoor Leisure
Contact Officer (Including Job Title):	Kieran Gordon, Head of Indoor Leisure

For decision	X	For noting only
1.0		Purpose and Background
1.1		As part of the Councils five year programme of capital works, a number of projects have already been included to improve Indoor Leisure facilities. A combined sum of £190k has been allocated for various maintenance works associated with the Newcastle area to include Tropicana and Rock Pool.
2.0		Key issues
2.1		Officers have identified maintenance efficiencies therefore resulting in a potential significant underspend in the capital budget for 2018/19 in the areas identified in section 1.1.
2.2		Officers have since had to undertake an analysis of required works, projects and requirements within the Indoor Leisure Section to include fleet (vans) replacement and the provision of future public wi-fi within the Council's indoor leisure facilities, which is currently not included in the Councils managed solution. Currently, there is no budget allowed for these required areas therefore officers would propose that the underspend for the areas identified in section 1.1 is re-allocated to meet the needs of these required areas.
3.0		Recommendations
3.1		Noting that the identified budget is already part of the Councils capital programme for 2018/19, to allow officers to re-allocate the anticipated capital underspend for the areas identified in section 1.1 to meet the needs of these required areas to include those identified in section 2.2.
4.0		Resource implications
4.1		Officer time – to devise and develop proposals and coordinate works Financial – previous inclusion of £190k within the Councils approved capital programme for 2018/19.
5.0		Equality and good relations implications
5.1		It is not anticipated the recommendation will have an adverse impact upon equality of opportunity and good relations.
6.0		Rural Proofing implications
6.1		Officers confirm due regard to rural needs has been considered, and this report has not been subject to a rural needs impact assessment.

Report to:	Active and Healthy Communities Committee
Date of Meeting:	20 August 2018
Subject:	ORNI – Community Trails
Reporting Officer (Including Job Title):	Conor Haughey, Head of Outdoor Leisure
Contact Officer (Including Job Title):	Conor Haughey, Head of Outdoor Leisure

<table border="1"> <tr> <td>For decision</td> <td>x</td> <td>For noting only</td> <td></td> </tr> </table>		For decision	x	For noting only	
For decision	x	For noting only			
1.0	Purpose and Background				
1.1	ORNI has currently a SLA in place with the Council for £72,600 for the year 2018-2019. The work delivered to date on the SLA is detailed below.				
2.0	Key issues				
2.1	<p>1. COMMUNITY TRAILS</p> <p>Community Trail Plan</p> <ul style="list-style-type: none"> o A Community Trail Plan was completed for Slieve Gullion and Newry DEA resulting in the Council being the first in Northern Ireland to prepare a Community Trail Plan for the entire Council area. <p>Community Trail Management</p> <ul style="list-style-type: none"> o Work is on-going to compile a Community Trail Management Plan for all trails, including considering roles for volunteers. o Work is on-going with insurance company (Locktons) which currently provides cover for Outdoor Recreation NI Quality Walks scheme to identify a suitable insurance policy for Community Trails, including costs. <p>Community Trail Planning Process</p> <ul style="list-style-type: none"> o Trail design completed for Hollymount Forest, Downpatrick. Agreement in place (in principle) with forest landowner (Forest Service NI). Discussions on going with adjoining land owners to obtain agreement for access (in principle) to forest from road (including investigating alternative access options). o Assessment to identify priority trails and/or hubs within Croclieve DEA currently on going. Priority assessments for Downpatrick and Rowallane DEAs scheduled to commence. o Meeting arranged for middle of August with Saul GAC and ORNI to assess feasibility of developing Community Trails around club owned land and identify likelihood of obtaining agreement in principle for formal access. o Community engagement completed for Slieve Croob DEA. 				

	<ul style="list-style-type: none"> o Landowner engagement complete for Slieve Croob DEA - Agreement in place (in principle) with forest landowners (including Forest Service NI and Forde Estate) for access to Million Tree Wood and Drumkeeragh and Tievenadarragh Forests. o Evidence forms for alleged Rights of Ways circulated within Slieve Croob DEA. <p>Community Trail Design</p> <ul style="list-style-type: none"> o Trail design completed for 7 Community Trail Hubs in Slieve Croob DEA, of which 3 (Million Tree Wood and Drumkeeragh and Tievenadarragh Forests) will be 'shovel ready' within a few weeks (excluding car park planning for Tievenadarragh) <p>Community Trail Funding</p> <ul style="list-style-type: none"> o ORNI has secured funding in principle of £120,000 towards the delivery of Drumkeeragh/Tievenadarragh/Million Tree Wood. Meetings have been arranged with potential partnership funders for the Community Trails including RDP and TRPSI. ORNI is working towards securing a funding package to enable several Community Trails to be procured at the same time to allow for economies of scale. A capital contribution from the Council will be required. This figure is currently unknown until each of the 7 Community Trail Hubs have been accurately costed and designed. o Funding is required from Council to allow ORNI to procure a consultant to prepare the detailed drawings, including topographical survey, for a small car park at Tievenadarragh Forest. This may involve employing environmental consultants. The consultant will also take the scheme through planning. Estimated cost based on recent work at Darkley Forest, South Armagh for a similar project was less than £8,000. <p>2. NEWCASTLE GENERATOR HOUSE</p> <ul style="list-style-type: none"> o Feasibility Study looking at the potential of developing the former generator building at Newcastle Harbour nearing completion.
<p>3.0</p>	<p>Recommendations</p>
<p>3.1</p>	<p>That the Committee approve:</p> <ul style="list-style-type: none"> • funding to complete survey work, detailed drawings and planning for new car park at Tievenadarragh Forest - approx. £8,000 • Council to approve in principle to contribute capital funding of up to £30,000 for the development of only trails which ORNI can secure funding for through TRPSI and RDP etc.
<p>4.0</p>	<p>Resource implications</p>
<p>4.1</p>	<p>£30,000 to match fund the capital cost of the Community Trails £8,000 for detailed drawings and reports for the development of the Community Trails which is additional to the current SLA. These items can be covered from the Council's existing budgets.</p>

5.0	Equality and good relations implications
5.1	It is not anticipated that the actions will have an adverse impact on Equality of Opportunity or Good Relations.
6.0	Rural Proofing implications
6.1	Officers confirm due regard to rural needs has been considered and this report has not been subject to a rural needs impact assessment.

	SLA

Report to:	Active and Healthy Communities
Date of Meeting:	20/08/2018
Subject:	Proposal for the introduction of the Breastfeeding Welcome Here Scheme to Newry, Mourne and Down District Council Public Buildings (phase 1)
Reporting Officer (Including Job Title):	Eoin Devlin Assistant Director Health and Wellbeing
Contact Officer (Including Job Title):	Sinead Trainor Senior Environmental Health Officer - Health Improvement

For decision	x	For noting only	
1.0			Purpose and Background
1.1			<p>The Breastfeeding Welcome Here Scheme is an initiative which is supported by the Public Health Agency. The aim of the scheme is to make it easier for mums to recognise places where they can breastfeed their baby when out and about.</p> <p>It has been identified that there are a low number of organisations and businesses within the Newry, Mourne and Down District Council area supporting the scheme. There are currently only 43 organisations and businesses supporting the scheme none of which are Council owned.</p>
2.0			Key issues
2.1			<p>Northern Ireland has the lowest breastfeeding rates in Europe, with 28% of women breastfeeding at 6 weeks and 14% at 6 months (Child Health System 2015).</p> <p>The Department of Health (DoH) has adopted the World Health Organisation (WHO) recommendation that a baby should be exclusively breastfed for the first 6 months of its life. The longer a baby is breastfed the increased benefits to health will be experienced.</p> <p>Breastfeeding - A great start, a strategy for Northern Ireland 2013-2023 has been developed by the Department of Health, Social Services and Public Safety. The strategy sets out that all premises which are open to the public including the public sector, local businesses and other organisations should be encouraged to promote the Breastfeeding Welcome Here Scheme to support mothers' breastfeeding their babies when out and about. Supporting the scheme will allow the proposed Council buildings (phase 1, please see in point 3 of the report) to be supportive environments that will facilitate mothers to breastfeed their children in surroundings conducive to breastfeeding, with confidence and without intrusion which is an outcome of the strategy.</p>

	<p>The Health Inequalities Officer for the Council has conducted research within the Newry, Mourne and Down District area to establish if there is a need for the Council to support such a scheme. From the various meetings attended with breastfeeding mothers, the resounding answer was that there is a definite need for more businesses and organisations in the Newry, Mourne and Down District to support the Breastfeeding Welcome Here scheme.</p> <p>Adopting the scheme in the proposed Council buildings (phase 1) will ensure that breastfeeding mothers in the District have more options on where to breastfeed and it also enables the Council to promote the uptake of the scheme to businesses within the District.</p>																	
3.0	Recommendations																	
3.1	<p>The recommendation is that the committee approve the introduction of the Breastfeeding Welcome Here scheme to Newry, Mourne and Down District Council Public Buildings (phase 1).</p> <p>Proposed phase 1 buildings:</p> <table border="1" data-bbox="352 931 1031 1610"> <tr><td>1. Monaghan Row</td></tr> <tr><td>2. Downshire Civic Centre</td></tr> <tr><td>3. Newry Leisure Centre</td></tr> <tr><td>4. Down Leisure Centre</td></tr> <tr><td>5. Kilkeel Leisure Centre</td></tr> <tr><td>6. Newcastle Centre</td></tr> <tr><td>7. Newry Town Hall</td></tr> <tr><td>8. Bagenals Castle Newry</td></tr> <tr><td>9. 	Breastfeeding - A great start, a strategy for Northern Ireland 2013-2023

Appendix 1

FAQ's Public Health Agency (PHA) Breastfeeding Welcome Here Scheme

1. What is the PHA Breastfeeding Welcome Here Scheme?

The Breastfeeding Welcome Here Scheme is an initiative which makes it easier for mums to recognise places where they can breastfeed when they are out and about with their baby. In NI over 660 businesses and council facilities are members of the scheme.

2. Why is breastfeeding an issue and is it important?

NI has one of the lowest breastfeeding rates in the world, 64% of women start breastfeeding at the time their baby is born, but by 6 months only 16% of babies here are breastfed. The longer a baby is breastfed the better the benefits to health. The World Health Organisation suggests that babies should have breast milk alone until around 6 months and then after other food is introduced breastfeeding should continue into the 2nd year of life. One of the reasons women stop breastfeeding is lack of support and poor social acceptability of breastfeeding.

Breastfeeding has many important benefits and it helps to protect babies and young children from many serious illnesses including;

- ♥ diarrhoea, tummy upsets and gastroenteritis
- ♥ coughs and colds
- ♥ ear and chest infections
- ♥ urine infections
- ♥ allergies, asthma and eczema
- ♥ childhood diabetes

Mums who breastfeed also benefit from less risk of:

- ♥ breast cancer
- ♥ ovarian cancer
- ♥ osteoporosis (bone thinning)

3. What do the staff need to do to support the scheme?

When your council decides to become members of the Breastfeeding Welcome Here scheme you will be asked to support breastfeeding by playing your part in fulfilling the following 4 criteria.

- Breastfeeding is acceptable in all areas of the designated council facility that is open to the general public
- A mother who is breastfeeding in an area open to the general public will not be asked to move to another area or to stop breastfeeding
- The public will be made aware that your facility is a member of the scheme through display of the scheme window/door sticker and the scheme certificate in the council premises
- All staff working in council facilities who are members of the scheme will be aware of membership criteria and are supportive of the needs of breastfeeding mothers and babies

4. Do I need to find a private room for a mother to breastfeed in?

No you do not have to provide a feeding room to be a member of the Breastfeeding Welcome Scheme. This is because the aim of the Welcome Here Scheme is to help make breastfeeding part of everyday life by making mothers feel they can breastfeed wherever and whenever they and their baby need to.

5. What if another member of the public complains about a mother breastfeeding?

It is not very likely that a member of the public complains to you about a mother breastfeeding. If it does happen it will be necessary to explain that your facility is a member of the PHA Breastfeeding Welcome Here Scheme and therefore you are supportive of the needs of breastfeeding mothers and babies. You might want to consider saying something like this:

'I'm very sorry you feel offended by this mother breastfeeding her baby, we support breastfeeding as we recognise how important breastfeeding is to health of mothers and babies. Newry Mourne and Down District Council is a member of the Public Health Agency Breastfeeding Welcome Here Scheme, therefore I'm

afraid I will not ask this mother to move or stop breastfeeding, however I would be very happy to find another seating area for you.'

Breastfeeding mothers need our support and you can play a part in improving the health and wellbeing by being supportive and welcoming of breastfeeding families. If you would like to find out more about breastfeeding and the PHA Breastfeeding Welcome Here Scheme visit www.breastfedbabies.org or contact Alison McCusker on alison.mccusker@hscni.net

Report to:	Active and Healthy Communities
Date of Meeting:	August 2018
Subject:	Proposal for the introduction of the Dementia Friendly Initiative to Newry, Mourne and Down District Council public buildings and staff (phase 1)
Reporting Officer (Including Job Title):	Eoin Devlin – Assistant Director Health and Wellbeing
Contact Officer (Including Job Title):	Lorraine O’Reilly – Age Friendly Co-ordinator

<table border="1"> <tr> <td>For decision</td> <td><input checked="" type="checkbox"/></td> <td>For noting only</td> <td><input type="checkbox"/></td> </tr> </table>		For decision	<input checked="" type="checkbox"/>	For noting only	<input type="checkbox"/>
For decision	<input checked="" type="checkbox"/>	For noting only	<input type="checkbox"/>		
1.0	Purpose and Background				
1.1	<p>Dementia is a condition which is increasingly common; it can have a profound impact on an individual and their family and friends. There are approximately 17,000 people with dementia in the province and it is estimated that 1,000 of those are in the Newry, Mourne and Down areas. With the projected number of people with dementia set to increase to 1 million by 2021 and 2 million by 2051 in the UK, it is clear that a sustainable response to meet the needs of people living with dementia is required.</p>				
2.0	Key issues				
2.1	<p>The Equality Act 2010 defines disability as a physical or mental impairment that has a ‘substantial’ and ‘long-term’ negative effect on a person’s ability to do normal daily activities. Under this definition many people with dementia fall within its scope and are protected under the Act against all forms of discrimination, in both employment and the provision of goods and services.</p> <p>Recently, there has been a shift in focus, to how we can enable people, who have been diagnosed with dementia, to live as full a life as possible and encourage communities to work together, to help people stay healthier for longer. Councils have a key role in developing inclusive, dementia-friendly communities.</p> <p>Simple changes to existing services and awareness-raising, for those who come into contact on a day to day basis with people suffering from dementia, such as staff working in council front line services, for example, leisure, arts, customer services, recreation, culture etc., will help people with dementia feel more confident and welcome when using council services.</p> <p>As the workforce ages and with increasing numbers retiring at a later age, the number of people living with dementia while they are in work is set to rise. This has implications for employers, who are beginning to realise that</p>				

dementia is becoming an increasing concern for their organisation and their staff.

Alzheimer's Society's Dementia Friendly Communities programme focuses on improving inclusion and quality of life, for people with dementia. In partnership with the Alzheimer's Society, the NMDDC Age Friendly initiative is working to make the district 'Dementia Friendly'.

AIM

The aim of the pilot is to make a difference for people with dementia, enabling them to feel supported in their local community, encouraging independence, choice and control over their lives.

The Role of a NMDDC 'Dementia Champion'

Two 'Dementia Champions' are required to cover each department. The selected persons will complete a two day 'Dementia Champion' training programme, delivered by the Alzheimer's Society.

The 'Dementia Champion' will be at the forefront of the dementia service within their directorate. The role includes encouraging and supporting others (primarily front line and officer staff), to make a positive difference to people living with dementia, who using council facilities and services.

The 'Dementia Champion' will:

- Train departmental staff to become Dementia Friends, ensuring a continued level of support for our customers living with dementia
- Build a relationship with other relevant stakeholders, in order to create partnerships to help residents living with dementia sustain their independency and continue living at home, through using council services;
- Be the 'local expert' regarding dementia related issues and best practice. The Dementia Champion will help the operational staff who advise customers daily and disseminate information where relevant;
- Identify gaps in the dementia service, where appropriate.

However, it should be noted that the 'Champion' will not replace the need for all members of staff to keep themselves apprised of all policies and procedures, related to tenancy sustainment for this group.

The Role of a NMDDC 'Dementia Friend'

Two staff within each Directorate will be invited to take part in a 'Dementia Friendly Communities' interactive workshop. The workshop will last approximately 2 hours and will be delivered to staff at their local offices. This workshop will be a bespoke programme related specifically to Council issues. The aim of the workshop is to help staff:

- Develop a knowledge of dementia;
- Increase their confidence and skills to help them relate, communicate and support someone living with dementia, entering council facilities and requiring services.

Following completion of the Dementia Friendly Communities' workshop, it is anticipated that staff will have developed their knowledge of dementia,

	<p>increasing their confidence and skills, helping them relate to, communicate with and support someone living with dementia. Being a 'Dementia friend' will enable staff to provide a more tailored service to meet the needs of our customers living with this condition. The roles of various local office staff are summarised below.</p> <p>Front line staff – Receptions - communicate clearly and allow the person to take their time and offer understanding and reassurance, applying the knowledge and skills developed during training, to offer assistance and utilise their relevant expertise.</p> <p>Officers - offer advice and support in order to assist our customers regarding complaints, and other services supplied.</p> <p>Age Friendly - work alongside the champions as and when required, to provide a Dementia Friendly response, maintenance options in buildings, which meet the needs of the residents living with dementia, who are using the buildings.</p> <p>For tips on effective communication techniques refer to: https://www.alzheimers.org.uk/get-involved/dementia-friendly-communities/organisations/tips-customer-service</p>
<p>3.0</p>	<p>Recommendations</p>
<p>3.1</p>	<p>The recommendation is for committee approval of the Proposal for introduction of the Dementia Friendly Initiative to Newry, Mourne and Down District Council public buildings and staff (phase 1)</p> <p>Proposal – Phase 1</p> <p>To recruit 2 volunteers from each department to become a Dementia Friend. In turn, these volunteers will deliver training to front line and officer staff, within their directorate.</p> <p>Proposal – Phase 2</p> <p>Short assessment of each council facility carried out by the Age Friendly Co ordinator, ensuring the building is adequate:</p> <ul style="list-style-type: none"> • Objects that are shiny, patterned or reflective can cause people with dementia to misinterpret what they are seeing. • Features such as lighting, mirrors, shadows, steps and patterned walls and floors may cause problems for some dementia sufferers.
<p>4.0</p>	<p>Resource implications</p>
<p>4.1</p>	<p>Phase 1 – will have no financial cost. Training provided free from the Alzheimer’s society.</p> <p>Volunteers and staff to attend training and workshops during the working day.</p>

	Phase 2 – will have a low financial cost. Estimated cost upon approval of phase 2 and short assessment of each council property carried out.

1.0	Purpose and Background				
1.1	<p>Integrated Care Partnerships (ICPs) are collaborative networks of care providers, bringing together healthcare professionals (including doctors, nurses, pharmacists, social workers, and hospital specialists); the voluntary and community sectors; local council representatives; and service users and carers, to design and coordinate local health and social care services.</p> <p>ICPs are a key element of Transforming Your Care (TYC) and a new way of working for the health service in Northern Ireland to transform how care is delivered. The development of ICPs was one of the proposals put forward by the Review of Health and Social Care in Northern Ireland in December 2011 and a proposal to establish 17 ICPs was consulted on during the TYC Vision to Action Consultation between October 2012 and Jan 2013. In March 2013, the Health Minister endorsed the establishment of 17 ICPs across Northern Ireland.</p> <p>There is a will for Councils to become more involved particularly as the focus moves to Social prescribing with services such as exercise opportunities weight loss programmes etc</p> <p>We will have representation on both the Down and Newry and Mourne ICPs</p>

Integrated Care Partnership - Memorandum of Understanding

This Memorandum of Understanding (MOU) sets out the framework for a working relationship between the Integrated Care Partnership (ICP) committee members in order to achieve their joint and separate objectives. This document should be read in conjunction with the DHSSPS ICP Policy Implementation Framework and any subsequent guidance issued via DHSSPS or HSCB.

- This memorandum is not legally binding nor is it intended to be comprehensive in detail. It sets out the principles which all ICP Partnership committee members agree to follow in the course of day to day working relationships.
- This memorandum will be in force from April 2013 until **31st March 2019**. Where an ICP member steps down from an ICP but re-joins at a later stage, they will be required to re-sign the MoU.
- An ICP is a collaborative network rather than organisation and, as such, it does not have any statutory existence. The establishment of an ICP does not remove or dilute the statutory governance requirements placed on member organisations.
- Individual members of an ICP partnership committee will retain any legal or professional obligations they are responsible for, e.g. human rights and data protection, however, the statutory obligations falling to a public authority, e.g. equality will default to the HSCB where ICP members do not hold relevant responsibility.
- Decisions about care remain the clinical or social care responsibility of the practitioner involved, and final decisions rest with individual practitioners. Any decisions emerging from an ICP will be based on best practice guidance and will have guidance rather than requirement status.
- The establishment of ICPs does not, in any way, affect the statutory responsibilities described in the HSC Framework Document.
- An individual professional participating within the ICP partnership committee acts as a representative of the organisation s/he represents and is therefore covered by the governance, standards and indemnity arrangements of that organisation, providing s/he acts within their professional competence and standards of their professional body.
- Where the individual is an independent practitioner, they are responsible for their own professional conduct, clinical decision making and indemnity arrangements.
- All representatives must seek to ensure that their participating organisations are fully committed to working with the products and outcomes of ICPs – as endorsed by the Commissioner.

- If concerns emerge about the practice of a member of an ICP then members should raise this with the relevant ICP support team lead. All members of the ICP have a duty to report their concerns and should expect that these concerns will be taken seriously.
- Where a participating organisation has a particular interest in a specific aspect of the commissioning/provision of services, they must make a formal declaration of such interest.
- The ICP partnership committee is the decision making vehicle for the ICP. All members should be familiar with the Partnerships Committee Terms of Reference and the meeting schedule for the committee.

Signature of agreement to the MoU

To note the report and SIF Capital Project Board minutes (April 2018)

1.0	Purpose and Background
1.1	<p>The Council is covered by two Social Investment Zones – Southern (legacy Newry and Mourne) and South Eastern (legacy Down). The Council is delivering the 'Work It' programme in the Southern Zone and a number of capital projects in the South Eastern Zone.</p> <p>Update on projects: <u>'Work It'</u> Project completed. A draft evaluation report has been completed and sent to the Executive Office.</p> <p><u>Castlewellan Community Centre:</u> The contractors have commenced works on the site. The Executive Office will issue a revised Letter of Offer to reflect the updated budget and timeframe.</p> <p><u>Community Operated Sports Facilities:</u> Ulster Wildlife has confirmed that the grant of £154,114 has been withdrawn as a result of the significant delays and cost over-runs experienced with the project. The funds have been re-pooled and reallocated to an alternative project in the District. The Executive Office are currently considering a revised business case to cover the anticipated additional funding required.</p>
2.0	Key issues
2.1	<ul style="list-style-type: none"> The Executive Office is considering options and associated additional costs in respect of the Community Operated Sports Facilities.
3.0	Recommendations
3.1	To note the report.
4.0	Resource implications
4.1	Current Council contribution as agreed at December meeting: Downpatrick £95K, Ballyhornan £125K
5.0	Equality and good relations implications
5.1	The Economic Appraisals include a commitment to balanced interventions, equal opportunities and Section 75
6.0	Rural Proofing implications

6.1	Officers confirm due regard to rural needs has been considered and this report has not been subject to a rural needs impact assessment.

NEWRY, MOURNE & DOWN DISTRICT COUNCIL

MINUTES OF SIF CAPITAL PROJECT BOARD MEETING
Monday 5th June 2018 @ 10am, Meeting Room 1, Downpatrick Civic Centre

CHAIRPERSON: Conor Mallon

IN ATTENDANCE:

Conor Mallon
Debbie Murphy
Justyna McCabe
Paul Brannigan
Raphael Crummy
Tom McClean
Kytrina Mullan

APOLOGIES:

Sarah McClory
Ciara Burn
Stephen Addy
Francesca Dowler
Nicky Lowry
Janine Hillen
Kenny Knox
Michael Lipsett
Anita White

1. INTRODUCTIONS:

Conor welcomed all the members of the project board. Apologies were noted as above.

2. CONFLICT OF INTEREST:

No conflicts of interest were raised.

3. MINUTES:

The minutes of the previous meeting were approved.

4. ACTION SHEET:

Castlewellan Community Centre – Ciara Burns e-mailed Nicola Burns to confirm that a hardwood floor is not a feasible option.

Community Operated Sports facilities, Downpatrick. – Paul Brannigan contacted Ulster Wildlife to discuss if there is a possibility to reallocate the Ulster Wildlife fund.

Community Operated Sports facilities, Kilcooley. Debbie Murphy arranged a meeting with Ards and North Down Council for Monday 11th June 2018.

Debbie Murphy confirmed to the project board that it is not possible to commence the ITT process before planning approval is awarded and funding is approved.

Finance –Sarah McClory has resubmitted revised financial profiles to Debbie Murphy.

5. **Castlewellan: Community Centre**

The ITT is currently live with a submission date of 6th June 2018.

The tender report with the preferred bidder will be forwarded to RQS. The report will be sent to Debbie Murphy and Conor Mallon for approval

CPD will probably require a 5 or 10 day stand still. Kenny Knox will confirm if it is 5 or 10 days?

It is expected that contractors will be on site the 1st week of July.

In advance of contractors arriving on site the nursery staff will have vacated the site.

The process for selecting a successful Tender is outlined below for the project boards information.

- The contract is awarded on the MEAT.
- The optimum bias is included within the funding approval.
- The tender report will be issued with the 10% optimum bias included.
- When Tender approved a Purchase order will be raised.

It is highly probable the contractor will be off for part or all of the 12th fortnight. The Finances submitted by Sarah McClory are based on the contractor not been on site during this period.

At the 1st September, kids and community Groups will move to mobiles.

Kenny Knox proposed that Nicola Scullion should be the point of contact for this project for future correspondence.

Kenny Knox will update the risk register and the log.

6. Community Operated Sports Facilities

Ballyhornan:

The planning consultation process for the Ballyhornan project is finished on the 05th June 2018.

Paul Brannigan and Ciara Burns will be meeting with the Ballyhornan Community Groups on the 5th June 2018.

The current land value is based on LPS value. The LPS value is due to expire. A new LPS value will be required. Paul Brannigan to follow up with the LPS Agency.

Downpatrick

The additional information for car parking and drainage has been submitted in the planning application.

The consultation closes

14th June 2018

20th June 2018

Debbie Murphy has confirmed that the Programme Board meeting is on the 5th June 2018. Kenny Knox will be in attendance and will raise the Downpatrick project.

Ulster Wildlife had allocated a sum of £150,000 to the Downpatrick project. To date the Downpatrick project has not received the appropriate approvals that would allow the expenditure of the Ulster Wildlife funding. It has been agreed that

the money will be transferred in to another council project outside of SIF. SIF will reapply for the funding in the next financial year.

The PPQ stage for Downpatrick is at the final stages. One contractor has gone in to administration. Therefore there will be adjustments to PPQ. The PPQ update will be provided and passed to the ITT design team before the July Holidays.

Kilcooley

Debbie Murphy provided confirmation that she will be meeting Ards and North Down Council on Monday 11th June 2018. The meeting will clarify the role of lead partner.

If Ards and North Down Council do not take over the responsibility for the project, Conor Mallon confirmed that Newry Mourne and Down District Council are able to continue with the lead partnership role however Ards and North Down Council would have no contractual authority.

Ards and North Down Council have not signed up to managing the asset once the project is completed.

Debbie Murphy provided confirmation that she will be meeting with the Executive office about Kilcooley on Monday 18th June 2018.

A consultation event was held on the 17th May 2018. The event was generally positive.

PAP expires 8th August. If we submit planning application, this will be followed by a 12 week consultation period.

7. Update from The Executive Office and Department for Communities

No further update from previous meetings.

8. Finance

Sarah McClory had provided updated financial profiles.

9. OBA NISRA report cards

No update on the Report card.

8.0	Background Documents
	N/A

APPENDIX 1

Drinking Water Quality Report for Northern Ireland 2017

Newry, Mourne and Down District Council

Water Quality by Northern Ireland Local Council Area

This local council report is designed to demonstrate water quality by individual council area based on the % Compliance at Customer Tap (including Supply Points) over the water supply zones associated with that council area, as shown on the enclosed map.

For monitoring purposes NI Water's supply area is divided into water supply zones. These are areas serving not more than 100,000 people, each of which are normally supplied from a single water supply source or combination of sources. There are areas where owing to topography and dispersal of population, it is not practicable to provide a mains water supply. Currently over 99.9% of Northern Ireland's population receive public water supplies.

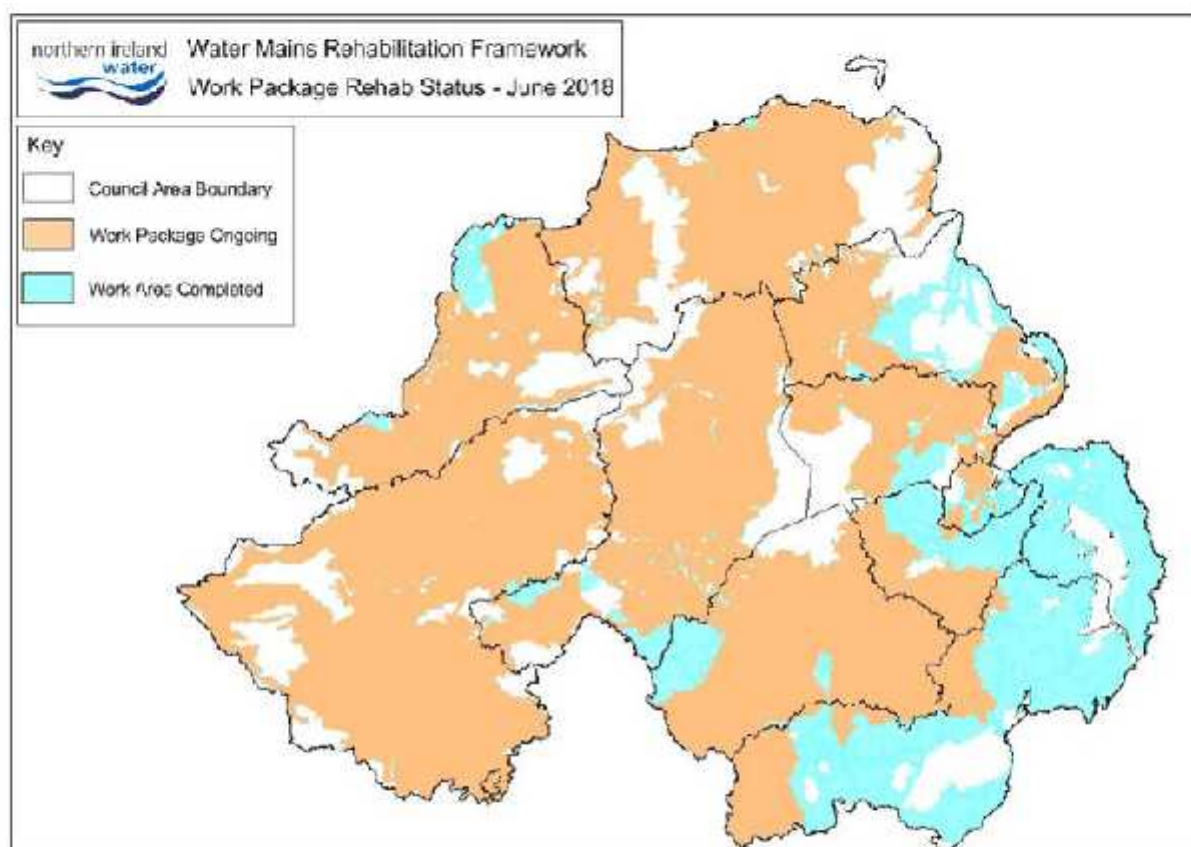

In a number of cases water supply zones overlap council boundaries. The council reports indicate which water supply zones are wholly or partially contained within the council areas, including those zones which may have a relatively small area within the council area. Separation of data within these water supply zones across council boundaries is not practicable, therefore the information used in calculating the zonal compliance relates to the whole zone and not merely the part included within a council boundary. Following discussions with the Drinking Water Inspectorate, water supply zones with fewer than 40 properties within the council area have not been used to calculate the individual council compliance. The information is based on samples taken randomly from customer taps in each water supply zone and from planned samples at authorised supply points. Due to the nature of random sampling, there may be fluctuations in water quality across the water supply zones.

The report also details Capital Work Programmes affecting the council area which directly related to water quality during the reporting period.

Small variations in water quality compliance performance occur across Northern Ireland. This reflects the need to continue to invest in and to maintain water treatment works, and to improve the water mains network.

NI Water has identified the need to deliver a significant volume of watermains rehabilitation and other works across its ageing network. The works are necessary to ensure the efficient and cost effective operation of its water supply system in the immediate future and longer term as well as ensuring adequate levels of water quality and customer supply. To achieve this goal, NI Water has implemented a Watermains Rehabilitation Framework, within which it undertakes work on a Northern Ireland wide basis as identified by the zonal study programme of work.

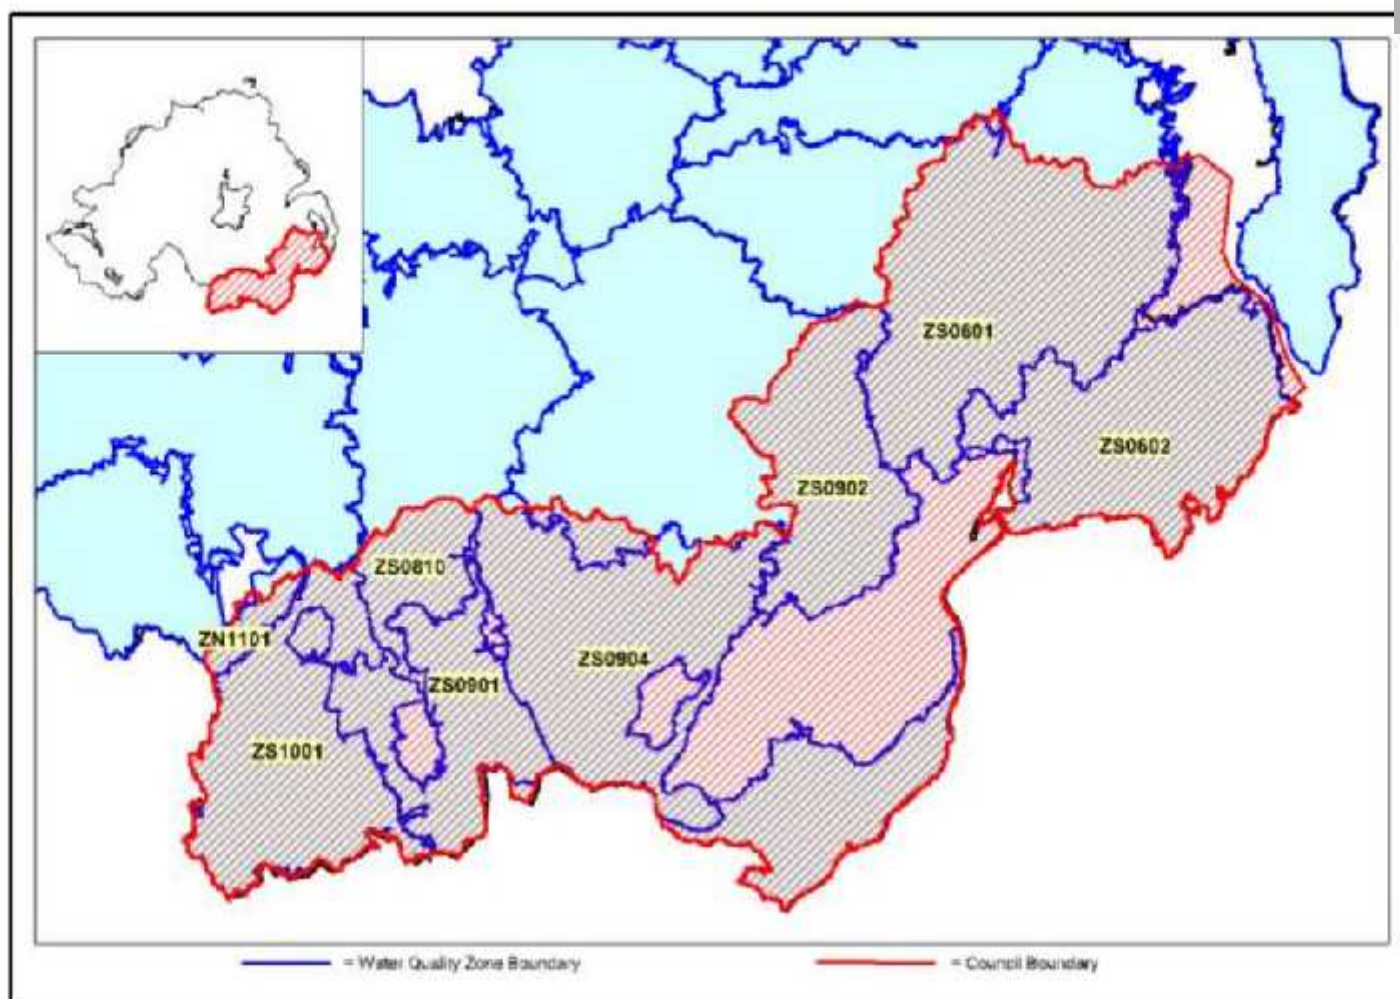

Water Mains Rehabilitation Framework Current Work Package Status

The map above shows the extent of the current Water Mains Rehabilitation Framework covering most of Northern Ireland. To assist clarity, whilst the council boundaries are shown, the individual councils are not named. Regions in white on the map are largely watercourses or upland areas which do not receive public water supply.

Newry, Mourne and Down District Council

130

**% Compliance at Customer Tap (including Supply Points)**

	Target	2013	2014	2015	2016	2017
Overall Northern Ireland Compliance	99.7%	99.7%	99.8%	99.7%	99.8%	99.9%
Newry, Mourne & Down Compliance	99.7%	99.8%	99.8%	99.7%	99.8%	99.9%

2017 Water Supply Zones wholly or partially within the council area:

Water Quality Events

132

Serious Drinking Water Quality Events in 2017

Date of Serious Event	Area and Estimate of Population/ Properties Potentially Affected	Nature and Cause of Serious Event	Associated Council Area(s)
22/08/17	North-western area of Northern Ireland (51,470 population)	Extremely heavy rainfall caused a series of flooding events in the North West. Carmoney WTW was off supply for 5 days, following flood damage to the raw water pumping station and there were eight burst mains. Water supply was maintained to customers through implementation of the WTW contingency Plan.	Derry City & Strabane District

Significant Drinking Water Quality Events in 2017

Date of Significant Event	Area and Estimate of Population/ Properties Potentially Affected	Nature and Cause of Significant Event	Associated Council Area(s)
16/01/17 - 01/02/17	Killylane WTW (51,120 population)	Treatment difficulties led to aluminium and iron contraventions in the Killylane WTW final water.	Mid & East Antrim Borough
26/01/17 - 01/02/17	Aird Close, Antrim (29 properties)	Mains disturbance caused by mains replacement in this area led to one coliform bacteria, four odour and two turbidity contraventions.	Antrim & Newtownabbey Borough
28/01/17 - 30/01/17	Dorisland WTW (41,660 population)	Contraventions of the turbidity standard in the works final water were not representative of the water going into supply. DWI dealt with this matter by issuing a Regulation 27(5) Notice.	Antrim & Newtownabbey Borough; and Mid & East Antrim Borough
01/03/17 - 08/09/17	Castle Hill, Rathfriland (272 population)	Contraventions of the iron standard were caused by the age and condition of the supplying cast iron main.	Newry, Mourne & Down District
30/03/17 - 20/04/17	Glenhordial WTW (10,616 population)	Contraventions of the turbidity standard in the works final water were probably caused by disturbance in the clear water tanks and/or in the sample line.	Fermanagh & Omagh District
12/04/17 - 12/05/17	Stormont Castle (170 population)	This Event was not related to the quality of water supplied by NI Water. After the installation of a new chiller unit by an external contractor, backflow occurred which introduced ethylene glycol into the drinking water system. This event occurred due to non-compliance with the Water Fittings Regulations. There was local media interest.	Belfast City

Date of Significant Event	Area and Estimate of Population/ Properties Potentially Affected	Nature and Cause of Significant Event	Associated Council Area(s)
17/04/17 - 10/08/17	Ballinrees WTW (168,204 population)	Contraventions of the individual pesticide standard for MCPA occurred in the works final water due to insufficient treatment. A Consideration of Provisional Enforcement Order (CPEO) has been issued by the Inspectorate.	Causeway Coast & Glens Borough; and Derry City & Strabane District
06/06/17 - 07/06/17	Dungonnell WTW (30,512 population)	A contravention of the turbidity standard was caused by disturbance in a Clear Water Tank (CWT) as it was being drained down for cleaning.	Mid & East Antrim Borough
06/06/17 - 07/09/17	Derg WTW (38,989 population)	Contraventions of the individual pesticide standard for MCPA occurred in the works final water due to insufficient treatment to effectively remove levels of MCPA in the raw water supply to the treatment works. MCPA use in the catchment area, to control weeds and rushes, caused elevated levels of MCPA in the raw water supply. A Consideration of Provisional Enforcement Order (CPEO) has been issued by the Inspectorate.	Derry City & Strabane District; and Fermanagh & Omagh District
26/06/17 - 30/06/17	Castor Bay WTW (364,673 population)	Contraventions of the taste & odour parameters occurred in the works final water due to insufficient treatment.	Armagh City, Banbridge & Craigavon Borough; Belfast City; Lisburn & Castlereagh City; Mid-Ulster District; and Newry, Mourne & Down District
03/07/17 - 07/07/17	Strand Road, Portstewart (Approximately 80,000 population)	This event was not related to the NI Water public supply Contamination of the temporary drinking water supply within the site led to coliform bacteria contraventions.	Causeway Coast & Glens Borough
05/17/17 - 12/07/17	Drumagarner Road, Kilrea (471 properties)	Coliform bacteria contraventions occurred after a new mains was connected in Drumagarner Road. A "Boil Water Before Use" notice was issued to a single property.	Causeway Coast & Glens Borough
24/07/17 - 01/02/18	Glenhordial WTW (10,694 population)	Contraventions of the individual pesticide standard for MCPA occurred in the works final water due to insufficient treatment to effectively remove levels of MCPA in the raw water supply to the treatment works MCPA use in the catchment area, to control weeds and rushes, caused elevated levels of MCPA in the raw water supply. The Pesticides – Total Substances standard was also contravened. A Consideration of Provisional Enforcement Order (CPEO) has been issued by the Inspectorate.	Fermanagh & Omagh District

Date of Significant Event	Area and Estimate of Population/ Properties Potentially Affected	Nature and Cause of Significant Event	Associated Council Area(s)
25/07/17 - 30/11/17	Dungonnell WTW (33,446 population)	A contravention of the trihalomethanes (THMs) standard occurred in the Dungonnell WTW supply area. Four THM samples taken in August 2017 were in the "likely to fail" category. The elevated results are probably due to a combination of poor organics removal during the treatment process combined with increasing levels in the distribution system.	Mid & East Antrim Borough
14/08/17 - 11/09/17	Ballylagan Road, Garvagh (22 properties)	Operational work in this area led to short term disturbance and appearance issues with iron, manganese and odour contraventions in properties on the Ballylagan Road.	Causeway Coast & Glens Borough
24/08/17 - 31/08/17	Carmoney WTW (51,470 population)	Aluminium, iron, manganese and turbidity contraventions were reported in the Carmoney WTWs final water. Our assessment is that the contraventions were related to disturbance caused by the operational activities regarding the re-zoning of Ballinrees and Caugh Hill WTWs to maintain supplies and not due to the quality of water leaving the water treatment works. This event was related to the "Serious" flooding event reported previously.	Derry City & Strabane District
30/08/17 - 03/09/17	Drumagarner Road, Kilrea (471 properties)	Coliform bacteria contraventions occurred after a new mains was connected in Drumagarner Road. A "Boil Water Before Use" notice was issued to two properties.	Causeway Coast & Glens Borough
04/09/17 - 16/10/17	Upper Malone Road, Belfast (286,407 population)	A contravention of the trihalomethanes (THMs) standard occurred in the Dunore Point WTW supply area. It is probable that the THM contravention was mainly caused by Disinfection By-Product precursors being present in the works final water, the condition of the distribution system and the long residence time (estimated at 4 days).	Antrim & Newtownabbey Borough; Belfast City; Causeway Coast & Glens; Lisburn & Castlereagh City; and Mid & East Antrim Borough
05/09/17 - 15/09/17	Cargagh Road, Downpatrick (25 properties)	Coliform bacteria contraventions were reported after contamination of the mains occurred during a burst main repair on the Cargagh Road. A "Boil Water Before Use" notice was issued to the 25 affected properties.	Newry, Mourne & Down District
05/09/17 - 20/09/17	Altnahinch WTW (31,486 population)	Contraventions of the trihalomethanes (THMs) standard occurred in the Altnahinch WTW final water and in the related supply area. The contraventions were due to inadequate organic removal within the treatment process therefore increasing the risk for THM formation.	Causeway Coast & Glens Borough
06/09/17 - Present	Gransha Road, Dromara (10 properties)	Contraventions of the iron and turbidity standards were caused by the age and condition of the supplying cast iron main.	Armagh City, Banbridge & Craigavon Borough

Date of Significant Event	Area and Estimate of Population/ Properties Potentially Affected	Nature and Cause of Significant Event	Associated Council Area(s)
18/09/17 – 03/10/17	Ballinrees WTW (168,204 population)	A contravention of the trihalomethanes (THMs) standard occurred in the Ballinrees WTW supply area. This contravention occurred following a period when there was not full treatment in operation.	Causeway Coast & Glens Borough; and Derry City & Strabane District
06/10/17 - Present	Gorticross Road, Drumahoe (17 properties)	Aluminium, iron, manganese and turbidity contraventions occurred in Ardmore, Gosheden and Kildoag roads. These contraventions occurred after re-zoning work carried out following the flooding event which caused damage to a main on Gorticross Road. This event was related to the “Serious” flooding event reported previously.	Derry City & Strabane District
16/10/17 - 02/03/18	Rathlin Island - (10 properties)	A value greater than the World Health Organization Index for trihalomethanes was reported due to naturally occurring bromide in the source water, and low flows to the west of the island in the autumn. A Consideration of Provisional Enforcement Order (CPEO) has been issued by the Inspectorate.	Causeway Coast & Glens Borough
13/11/17 - 14/11/17	Dorisland WTW (127,451 population)	Aluminium, manganese and turbidity contraventions were reported in the Dorisland WTW final water due to unrepresentative sampling.	Antrim & Newtownabbey Borough; Belfast City; and Mid & East Antrim Borough
29/11/17 - 04/12/17	Dungonnell WTW (30,512 population)	Contraventions of the pH standard occurred in Dungonnell WTW supply area. This was due to overdosing of orthophosphoric acid (used for plumbosolvency control) at Dungonnell WTW.	Mid & East Antrim Borough
14/12/17 - 15/12/17	Castor Bay WTW (364,673 population)	A contravention of the aluminium standard was caused by a problem with the pH monitoring regime which led to sub-optimal treatment.	Armagh City, Banbridge & Craigavon Borough; Belfast City; Lisburn & Castlereagh City; Mid-Ulster District; and Newry, Mourne & Down District

After investigations during the reporting period, there were also 7 events categorised by DWI as “Minor”, and 14 events categorised as “Not Significant”.

UNDERSTANDING YOUR WATER QUALITY RESULTS

Where the water quality standards come from

The water we supply for domestic use or food production must comply with the standards in The Water Supply (Water Quality) Regulations (NI) 2007 (as amended), which incorporate European Union standards and more stringent UK national standards. These Regulations detail the acceptable levels of certain characteristics, elements and substances allowed in drinking water. Usually, this is a maximum level; but, occasionally, a minimum is also set (e.g. pH). This permissible level is known as the Prescribed Concentration or Value (PCV). Some of the regulatory levels are set for aesthetic reasons and not for health (e.g. Colour).

Where we sample

Samples are taken from our service reservoirs, water treatment works and taps in customers' homes. Every year, our accredited state-of-the-art laboratories carry out over 100,000 sophisticated tests to ensure quality standards are met. The Drinking Water Inspectorate (DWI) within the Northern Ireland Department of Agriculture, Environment and Rural Affairs (DAERA) also independently audits these tests and issues a report each year on its findings. DWI ensures that NI Water meets more than 50 legal standards for drinking water quality to match water companies across the rest of the UK. The standards are strict and generally include wide safety margins. They cover: bacteria; chemicals, such as nitrates and pesticides; metals, such as lead; and how water looks and tastes.

What happens if a test fails?

If a sample fails a test, this does not necessarily mean the water is unsafe to drink. Sometimes, the water in our mains or pipes and in the neighbouring properties is good, but the failure is caused by the householder's own plumbing system. However, we take all failures of these standards very seriously and these are dealt with by a team of specialists. All failures are recorded, investigated and action is taken to resolve the problem. If the contamination is found to be due to the tap or internal plumbing, NI Water will inform the customer in writing of the reason for the failure so

that they can take appropriate action. A copy of the letter is also provided to the Public Health Agency, the local Environmental Health Officer and the DWI.

All PCV failures are also reported externally to the DWI, respective health boards, Environmental Health departments, the Consumer Council for Northern Ireland (CCNI), DRD Water Policy Unit and the Utility Regulator (NAIUR).

Units of measurement

The units of measurement used in this factsheet are as follows:

- 1 milligram per litre (mg/l) is one part per million (ppm)
- 1 microgram per litre ($\mu\text{g/l}$) is 1 part per billion (or thousand million)
- NTU – Nephelometric turbidity units (for turbidity measurement)
- Pt/Co – Platinum-cobalt units Standard (for colour measurement)
- $\mu\text{S/cm}$ – micro siemens per centimetre (for conductivity measurement)

Concentration or value

Shown in three ways:

- **Min**(imum), the lowest result during the period
- **Mean**, the average of the results
- **Max**(imum), the highest result during the period.
- A '<' symbol means a result was less than the value at which a parameter can be detected.
- A '>' symbol means a result was greater than the range within which a parameter is normally detected.

Number of samples

- Total taken – the number of samples tested for each parameter
- Contravening – shows the number of samples that exceeded the PCV
- % of samples contravening PCV – the number of samples that contravened the PCV compared to the total number of samples taken expressed as a percentage.

INDIVIDUAL PARAMETERS/SUBSTANCES

Hardness

Total Hardness is normally caused by dissolved calcium and, to a lesser extent, magnesium in rocks through which the water has passed. In Northern Ireland, our water is predominantly soft to moderately soft or slightly to moderately hard. Hardness means you may have to use more soap when washing as hard water lathers less than soft water. It has not been proven to have adverse effects on health and is safe to drink. There is no standard specified in the current regulations.

Dependent upon the origin and manufacturer of your dishwasher, you may require a specific parameter, such as Clarke degrees (a.k.a. English degrees) or French or German degrees.

GH is general hardness, while KH is Carbonate, or temporary hardness.

pH (listed under 'Hydrogen Ion')

This is a scientific term used to describe the acidity or alkalinity of a fluid. We need to control the pH of water because:

- if water is too acidic, it may corrode metal pipes in the distribution system
- if water is too alkaline, it may cause deposits to form in the pipes

The standard is to keep water pH levels in the 6.5-9.5 range.

Colour

The colour of drinking water is usually dependent on the presence of naturally-occurring dissolved organic matter. For example, the higher the peat content of a catchment, (e.g. the Mourne Catchment), the higher the level of colour in the raw water. However, colour may also be due to the presence of iron contributed by old cast-iron mains.

- PCV for colour is 20 mg/l Pt/Co.

Sometimes, the water coming out of the tap has a milky or cloudy appearance, which is usually caused by excess air dissolved in the water as micro bubbles. This is not harmful and, if the water is left to stand for a few minutes, it will clear from the bottom upwards (i.e. the bubbles of air rise to the top of the glass and escape).

Turbidity

Turbidity is caused by very fine insoluble materials that may be present in water. Levels are closely monitored during the treatment processes.

- PCV at the customer's tap is 4 NTU

Odour and taste

Customer complaints quite often relate to taste and odour. Quality control tests are carried out to measure the level of taste and odour and are performed by a specialist testing panel.

- PCV for each = Dilution Number >0

Conductivity

Conductivity is proportional to the dissolved solids content of the water and is often used as an indication of the presence of dissolved minerals, such as calcium, magnesium and sodium.

- PCV is 2500 $\mu\text{S}/\text{cm}$ at 20°C

Chlorine (Cl - listed under Free-Residual disinfectant)

Chlorine is added to water to ensure water is free from bacteria. When chlorine is added, not all of it is used up in the process. Some remains as 'free chlorine' to make sure the water remains safe as it passes through the distribution system.

No PCV is prescribed for chlorine in the regulations and these levels are set to ensure that a small concentration remains at the end of the distribution system to maintain customer safety.

E. coli and enterococci

If present, these indicate a possible breach in the integrity of the water supply system. An effective treatment process will kill any organisms present.

PCV standards are:

- 0 /100ml for *E. Coli*
- 0 /100ml for Enterococci

Coliforms

These are naturally present in the environment. Their presence may indicate a possible breach in the integrity of the supply system or contamination from the kitchen sink or taps.

Nitrite and nitrate (NO₂ and NO₃)

Normally only trace amounts of these compounds are found in water.

- PCV for nitrite = 0.5 mg NO₂/l
- PCV for nitrate = 50 mg NO₃/l

Chloride (Cl)

Chloride in water originates from natural sources such as mineral deposits. It can contribute to taste which may be unacceptable to customers if the standard is exceeded.

- PCV = 250 mg Cl/l

Fluoride (F)

NI Water does not add fluoride to any water supply in Northern Ireland. Fluoride can occur naturally in some raw water supplies at low levels.

- PCV = 1.5 mg F/l

Sulphate (SO₄)

Sulphate occurs naturally in water and originates from mineral deposits. High concentrations may give rise to taste problems and, in the long-term, damage pipe work.

- PCV = 250 mg SO₄/l

Copper (Cu)

Copper can occur naturally in some water sources and is normally found in low concentrations in drinking water.

- PCV = 2 mg Cu/l

Iron (Fe)

This is one of the most abundant metals found naturally in surface and ground waters. After treatment, it is normally reduced to trace concentrations in drinking water. Increased levels can occur due to the corrosion of old cast-iron water mains. There is no known health risk associated with high iron concentrations, but staining of clothing in washing machines can occur.

- PCV = 200 µg Fe/l

Manganese (Mn)

Manganese occurs naturally in water. High concentrations of manganese in tap water may cause discolouration and possible staining of clothing in washing machines.

- PCV = 50 µg Mn/l

Aluminium (Al)

Aluminium can occur naturally in water within certain catchments. However, aluminium compounds are used in the treatment process to help remove impurities. Any aluminium compounds added during the treatment process are removed before the final treated water leaves the treatment works.

- PCV = 200 µg Al/l

Sodium (Na)

Sodium occurs naturally in trace amounts in water. High concentrations may impart a level of taste that is unacceptable to customers.

- PCV = 200 mg Na/l

Lead (Pb)

Lead is not normally present in water sources, but significant concentrations may be present at customers' taps if lead or copper pipes with lead joints have been used in the plumbing system. More information is available [here](#).

- PCV = 10 µg Pb/l

Trihalomethanes (THMs)

THMs occur in drinking water as by-products of the reaction of chlorine with naturally-occurring dissolved organic materials. In drinking water, only four compounds out of the group of THMs have health significance, the most common of which is chloroform. The PCV is based on the sum of the concentrations of all four constituents.

- PCV = 100 µg/l

Other substances

In addition to those listed and explained above, we also test for substances such as hydrocarbons, pesticides and herbicides, phenols and organic carbon. We also carry out extensive monitoring of our supplies for cryptosporidium through sampling of raw and final treated water.

Home-brewers may be interested in the Calcium, Magnesium, Carbonate, Sodium, Sulphate, Chloride and pH levels of their water supply. If you cannot locate the information you require, please contact us at waterline@niwater.com

2017 WATER SUPPLY COMMENTARY

ZN1101 - Clay Lake Keady

The water supplied in this zone within your council area complied with all the physical-chemical and microbiological standards laid down in the Water Supply (Water Quality) Regulations (Northern Ireland) 2007 (as amended).

WATER SUPPLY ZONE - 2N101 - Clay Lake Ready

Printed On 22-JAN-2018 1:01 Water : Period 01-JAN-2017 to 31-DEC-2017 Incl.

Commentary on Water Quality:

A: Supply point authorisation for pesticides and related products.

Population of zone = 8273

This zone has a surface water source :82509

PCV exceedances:

Sample failed 20-MAR-2017 (2N1101AB) Odour = 4 Dilm No.

Notes:

PCV = Prescribed Concentration or Value

U = Undertaking

S = Standard Sampling Frequency

E = Reduced Sampling Frequency

A = Authorised Supply Point

2017 WATER SUPPLY COMMENTARY

ZS0601 - Drumaroad Ballynahinch

The water supplied in this zone within your council area complied with all the physical-chemical and microbiological standards laid down in the Water Supply (Water Quality) Regulations (Northern Ireland) 2007 (as amended).

A = Authorised Supply Point

2017 WATER SUPPLY COMMENTARY

ZS0602 - Drumaroad Downpatrick

The water supplied in this zone within the Newry, Mourne & Down council area complied with all the physical-chemical and microbiological standards laid down in the Water Supply (Water Quality) Regulations (Northern Ireland) 2007 (as amended) except for the following parameter(s):-

Lead – single exceedance

Lead exceedances in the distribution system are normally due to old lead service pipes in the customer properties. NI Water carries out orthophosphoric acid dosing at all its water treatment works to reduce the uptake of lead from old pipes like these. This exceedance was most likely due to internal lead piping, but NI Water were able to gain access to take resamples.

Odour – single exceedance

The cause of the exceedance was undetermined and resamples were satisfactory.

WATER SUPPLY ZONE - 250602 - Drumacree Downpatrick

2017 WATER SUPPLY COMMENTARY

ZS0901 – Castor Bay Newry West

The water supplied in this zone within the Newry, Mourne & Down council area complied with all the physical-chemical and microbiological standards laid down in the Water Supply (Water Quality) Regulations (Northern Ireland) 2007 (as amended) except for the following parameter(s):-

Iron – single exceedance

Investigations found that this exceedance was most likely caused by a disturbance of mains deposits from older iron mains, with resamples being satisfactory after flushing if required. NI Water has in place an extensive Mains Rehabilitation Programme, which favours mains replacement and zones are prioritised according to need. This programme will continue to maintain and improve the quality of water in your council area over the next few years.

2017 WATER SUPPLY COMMENTARY

ZS0904 - Fofanny Mourne

The water supplied in this zone within the Newry, Mourne & Down council area complied with all the physical-chemical and microbiological standards laid down in the Water Supply (Water Quality) Regulations (Northern Ireland) 2007 (as amended) except for the following parameter(s):-

Total coliforms – single exceedance

Total coliforms are an indication of microbiological contamination. Exceedances can occur when there are problems with disinfection of the water supply or where the sample tap is contaminated. Most total coliform / E Coli exceedances are because of contamination of the customer tap. Investigation of these exceedances found that the water supply was satisfactory and that the contamination was most likely related to the customer tap on all occasions.

Commentary on Water Quality:

A: Supply point authorisation for pesticides and related products.

Population of zone = 61037

This zone has a surface water source (B271)

PCV exceedances:

Sample failed 30-APR-2017 (250904A): Total coliforms = 5 No./100.

Notes:

PCV = Prescribed Concentration or Value

U = Undertaking

S = Standard Sampling Frequency

E = Reduced Sampling Frequency

A = Authorised Supply Point

2017 WATER SUPPLY COMMENTARY

ZS1001 - Carran Hill Crossmaglen

The water supplied in this zone within the Newry, Mourne & Down council area complied with all the physical-chemical and microbiological standards laid down in the Water Supply (Water Quality) Regulations (Northern Ireland) 2007 (as amended) except for the following parameter(s):-

Iron – single exceedance

Investigations found that this exceedance was most likely caused by a disturbance of mains deposits from older iron mains, with resamples being satisfactory after flushing if required. NI Water has in place an extensive Mains Rehabilitation Programme, which favours mains replacement and zones are prioritised according to need. This programme will continue to maintain and improve the quality of water in your council area over the next few years.

Odour – single exceedance

The cause of the exceedance was undetermined and resamples were satisfactory.

Commentary on Water Quality:

A: Supply point authorisation for pesticides and related products.

Population of zone = 4105

This zone has a surface water source :82308

PCV exceedances:

Water Quality was satisfactory

Notes:

PCV = Prescribed Concentration or Value

U = Undertaking

S = Standard Sampling Frequency

E = Reduced Sampling Frequency

A = Authorised Supply Point

Report to:	Active and Healthy Communities
Date of Meeting:	20 August 2018
Subject:	Drinking Water Quality Report 2017
Reporting Officer (Including Job Title):	Eoin Devlin Assistant Director Health and Wellbeing
Contact Officer (Including Job Title):	James Campbell Head of Env Health(Residential)

---------------------	------------------------	----------

1.0	Purpose and Background
1.1	This local council report is designed to demonstrate water quality by individual council area based on the % Compliance at Customer Tap (including Supply Points) over the water supply zones associated with that council area.
2.0	Key issues
2.1	<p>The report indicates a compliance rate 99.9% across our area and also highlights the causes of a small number of water quality events</p> <p>In a number of cases water supply zones overlap council boundaries. The council reports indicate which water supply zones are wholly or partially contained within the council areas, including those zones which may have a relatively small area within the council area. Separation of data within these water supply zones across council boundaries is not practicable, therefore the information used in calculating the zonal compliance relates to the whole zone and not merely the part included within a council boundary. Following discussions with the Drinking Water Inspectorate, water supply zones with fewer than 40 properties within the council area have not been used to calculate the individual council compliance. The information is based on samples taken randomly from customer taps in each water supply zone and from planned samples at authorised supply points. Due to the nature of random sampling, there may be fluctuations in water quality across the water supply zones. The report also details Capital Work Programmes affecting the council area which directly related to water quality during the reporting period. Small variations in water quality compliance performance occur across Northern Ireland. This reflects the need to continue to invest in and to maintain water treatment works, and to improve the water mains network. NI Water has identified the need to deliver a significant volume of watermains rehabilitation and other works across its ageing network. The works are necessary to ensure the efficient and cost effective operation of its water supply system in the immediate future and longer term as well as ensuring adequate levels of water quality and customer supply. To achieve this goal, NI Water has implemented a Watermains Rehabilitation Framework, within which it undertakes work on a Northern Ireland wide basis as identified by the zonal study programme of work. A list of capital works carried out in 2017 is also included</p>

3.0	Recommendations
3.1	For Noting
4.0	Resource implications
4.1	none
5.0	Equality and good relations implications
5.1	none
6.0	Rural Proofing implications
6.1	Officers confirm due regard to rural needs has been considered and this report has not been subject to a rural needs impact assessment.
