1.0	Purpose and Background
1.1	For Elected Members it is likely that from time-to-time private matters will impinge upon public duties. In such circumstances, Members should be aware that it is not appropriate to use public position or resources to deal with private matters or to pursue private interest. The Council has established a Register of Interests and by recording interests openly, any actual or potential conflicts of interest can be identified more easily.
2.0	Key issues
2.1	Councillors have a responsibility to regularly review their circumstances and determine if any change has occurred which should rightly result in a change to their declaration or facilitate the need for a new declaration. If this is the case, they should contact Democratic Services to have their form updated.
2.2	At the Audit Committee meeting in January 2021, it was agreed that Members should regularly review their Register of Interest Forms and that a six-monthly report be brought forward to the Audit Committee to ensure compliance.
2.3	As part of the Audit Recommendations, it has been agreed that all Members' forms are updated on a 6 monthly basis whether there are any amendments or not. This has been completed on 10 November 2025 and a further update will be done on 10 May 2026.
2.4	The online register has been adapted to reflect the changes and is up to date for all Members.

Newry, Mourne and Down District Council

Risk Appetite Statement

January 2026

Risk Appetite

Risk appetite is best summarised as “the amount of risk an organisation is willing to accept”. If the agreed risk appetite is high, then there is an increased need for good risk management processes to be in place to manage the risks.

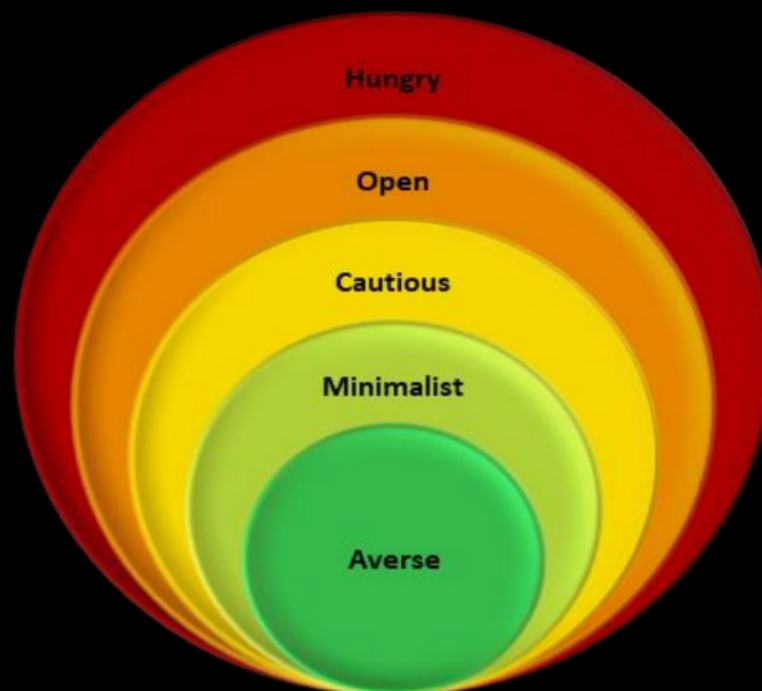

This statement sets out how we balance risk and opportunity in pursuit of achieving our objectives. Managers should be mindful of the Council’s risk appetite, particularly when undertaking new activities. It should be noted that calculated risk taking is not the same as the absence of risk management.

Without sufficient strategic direction on risk appetite, it is common for organisations to naturalise to a culture of risk aversion and to miss opportunities.

NMDDC Risk Appetite Statement

NMDDC aims to be risk aware, but not overly risk averse. This is to ensure that the Council takes a balanced approach to risk taking to delivers its corporate priorities and agreed outcomes for the District. The Risk Categories table on the page 7 defines each Risk Category with a risk appetite. This is a guide for management when considering risk actions plans. The Statement has been agreed by SMT and will be reviewed on an annual basis, however there can be exceptions to risk appetite in certain circumstances.

Appetite levels will vary depending on the nature of the risks being managed. Where the risk appetite is high, managers should be encouraged to be innovative and to exploit opportunities despite higher inherent risks. Where it is low, a more cautious approach with thorough risk mitigation procedures should be considered, even though it might limit the opportunity for reward.

- Averse:** Avoidance of risk and uncertainty is a key organization objective.
- Minimal:** Preference for ultra-safe options that are low risk and only have a potential for limited reward.
- Cautious:** Preference for safe options that have a low degree of risk and may only have limited potential for reward.
- Open:** Willing to consider all potential options and choose the one most likely to result in successful delivery, while also providing an acceptable level of reward and value for money.
- Hungry:** Eager to be innovative and to choose options offering potentially higher business rewards, despite greater inherent risk.

Risk Categories and associated Risk Appetite

Governance	Risks arising from unclear plans, priorities, authorities and accountabilities and/or ineffective or disproportionate oversight of decision-making and/or performance.

Property	Risks arising from property deficiencies or poorly designed or ineffective/inefficient safety management resulting in non-compliance and/or harm and suffering to employees, contractors, service users or the public.
Security	Risks arising from a failure to prevent unauthorised and/or inappropriate access to the estate and information, including cyber security and non-compliance with GDPR requirements.

Project / Programme	Risks that change programmes and projects are not aligned with strategic priorities and do not successfully and safely deliver requirements and intended benefits to time, cost and quality.

The Orange Book provides a [Risk Appetite Guidance Note](#) which evidences a sample of risk appetites developed against a selection of the risk categories.

	Averse	Minimal	Risk Appetite Cautious	Open	Eager
Financial	Avoidance of any financial impact or loss, is a key objective.	Only prepared to accept the possibility of very limited financial impact if essential to delivery.	Seek safe delivery options with little residual financial loss only if it could yield upside opportunities.	Prepared to invest for benefit and to minimise the possibility of financial loss by managing the risks to tolerable levels.	Prepared to invest for best possible benefit and accept possibility of financial loss (controls must be in place).
Operations	Defensive approach to operational delivery - aim to maintain/protect, rather than create or innovate. Priority for close management controls and oversight with limited devolved authority	Innovations largely avoided unless essential. Decision making authority held by senior management.	Tendency to stick to the status quo, innovations generally avoided unless necessary. Decision making authority generally held by senior management. Management through leading indicators.	Innovation supported, with clear demonstration of benefit / improvement in management control. Responsibility for non-critical decisions may be devolved.	Innovation pursued – desire to 'break the mould' and challenge current working practices. High levels of devolved authority – management by trust / lagging indicators rather than close control.
Reputational	Zero appetite for any decisions with high chance of repercussion for organisations' reputation.	Appetite for risk taking limited to those events where there is no chance of any significant repercussion for the organisation.	Appetite for risk taking limited to those events where there is little chance of any significant repercussion for the organisation.	Appetite to take decisions with potential to expose organisation to additional scrutiny, but only where appropriate steps are taken to minimise exposure.	Appetite to take decisions which are likely to bring additional governmental / organisational scrutiny only where potential benefits outweigh risks.
Legal	Play safe and avoid anything which could be challenged, even unsuccessfully.	Want to be very sure we would win any challenge.	Want to be reasonably sure we would win any challenge.	Challenge will be problematic; we are likely to win and the gain will outweigh the adverse impact.	Chances of losing are high but exceptional benefits could be realised.
Commercial	Zero appetite for untested commercial agreements. Priority for close management controls and oversight with limited devolved authority.	Appetite for risk taking limited to low scale procurement activity. Decision making authority held by senior management.	Tendency to stick to the status quo, innovations generally avoided unless necessary. Decision making authority generally held by senior management. Management through leading indicators.	Innovation supported, with demonstration of benefit / improvement in service delivery. Responsibility for non-critical decisions may be devolved.	Innovation pursued – desire to 'break the mould' and challenge current working practices. High levels of devolved authority – management by trust / lagging indicators rather than close control.

Circular LG 20/25

Dear Sir/Madam,

DESIGNATION OF LOCAL GOVERNMENT AUDITOR

This circular brings to your attention a change in the designation of the Local Government Auditor. The detail is set out in the following paragraphs.

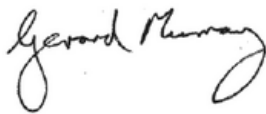

Article 4(1) of the amended Local Government (Northern Ireland) Order 2005 (the 2005 Order) provides that the Department may, with the consent of the Comptroller and Auditor General for Northern Ireland (the C&AG), designate a member of staff of the Northern Ireland Audit Office (NIAO) as the Local Government Auditor.

Under Article 4(2) of the amended 2005 Order, the Local Government Auditor may make arrangements with the C&AG for members of staff of the NIAO to assist in the performance of the Local Government Auditors' functions.

Article 4(3) of the amended 205 Order further provides that the Department may, with the consent of the C&AG, designate a member of staff of the NIAO to be known as the deputy Local Government Auditor.

The Department has consulted with the C&AG and, with effect from 1 January 2026, has designated Brian O'Neill as Local Government Auditor and assigned Brian to audit the accounts of every local government body.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Gerard Murray'. The signature is fluid and cursive, with a large loop at the end.

GERARD MURRAY
