Read: Report from Ms A Robb, Assistant Director Corporate Services (Administration) dated 12 May 2016, regarding the request to purchase land at Lough Inch Cemetery, Ballynahinch (copy circulated).

Councillor Andrews expressed concerns regarding this matter and queried whether safeguards had been put in place with the river being nearby.

Mr Curtis advised that if the Council moved with the extension to the cemetery, a planning application would be required which would

include consultation with the statutory bodies including NI Water and Rivers Agency.

In response to a question from Councillor Craig, Mr Curtis said Council was proposing to undertake an annual review of all of Council's land and that any surplus land would be put on the open market.

Ms Robb urged caution over disposing of any land for cemeteries, saying it was premium land.

Agreed: **It was agreed on the proposal of Councillor Andrews, seconded by Councillor Craig, that Council advises the applicant that with regret, it was not currently in a position to consider the disposal of lands requested, nor would a direct disposal be easily facilitated given the lands were vested.**

ACQUISITION AND USE OF THE STEEL STRUCTURE IN THE MARKET SQUARE, BALLYNAHINCH

Read: Report from Mr E Curtis, Director of Strategic Planning and Performance, dated 12 May 2016, regarding Ballynahinch Community Facility (copy circulated).

Mr Curtis advised an officer would be appointed to work with the Edge Community Group to ensure successful identification of funding.

Councillor Andrews commended the Edge Community Group and Council for working together on what he described as an eyesore.

Councillor Craig reinforced Councillor Andrews' comments, saying the Edge Community Group did excellent voluntary work across the community in the Ballynahinch area and he welcomed Council assisting with facilitation of the project.

Councillor Walker added his support to the recommendations, saying the group worked with everyone across the community and across the wider Ballynahinch area.

Councillor Burns expressed concerns over the inclusion of capital financial assistance in the 2017/18 Estimates, saying grant assistance should be sufficient.

In response to Councillor Burns query regarding the lease, Ms A Robb explained that the original owners had received substantial funding for the facility, but due to difficulties that had arisen, the Council had taken over the building. She added there were still a few years to run on the lease.

Mr Curtis said it would be exceptionally difficult to identify a funder which would provide 100% funding to a Council owned facility, whether it was leased to Council or in Council's ownership.

Councillor Burns expressed concerns regarding setting a precedent, saying if another community group wanted use of a Council owned facility and asked Council for parity, they could use this as a precedent.

Mr Hannaway advised that this was different to the sporting clubs which had contacted Council asking to lease lands from Council. In this case, Council owned the steel structure and had asked the Edge Community Group to take ownership of it and draw down funding to complete the project.

Agreed: It was agreed on the proposal of Councillor Andrews, seconded by Councillor Craig, that:

- Council Officers provide assistance to the Edge Community Group to identify funding to complete their Community Project in Ballynahinch.
- On the completion of all applications, Newry, Mourne and Down District Council consider including realistic capital financial assistance in 2017/18 Estimates.
- Council to provide a 25 year lease to the Edge Community Group.

SPR/120/2016 **REPORT ON LEASE AND DISPOSAL OF PLAYING FIELDS/RECREATION FACILITIES/GENERAL PROPERTY**

Read: Newry, Mourne and Down District Council Sports and Community Facility Management and Leasing Procedures (copy circulated).

Mr Curtis explained that this was the new policy for Sports and Community Facility Management and Leasing Procedures.

In response to a query from Councillor P Clarke, Mr Curtis advised that with regard to the right of appeal, the decision lay with Council as to whether they wanted to lease the land or not, and there would be very few situations whereby Council would not want to lease the land, as it would benefit the community.

Councillor Burns expressed concerns over the policy, saying it was light regarding conflict management where there were 2 competing bids.

Councillor Burns proposed that the policy be adopted subject to it being amended to provide for situations whereby two or more Clubs were seeking use of the same facility and meet the criteria but could not agree a partnership arrangement. In such circumstances, the facility would not be leased until the interested parties could read an agreement.

This was seconded by Councillor W Clarke.

Ms Robb advised that the policy had been reviewed by Council's solicitor who was satisfied with the conditions set out. She said Council was aiming to provide facilities for the benefit of the community, but Council reserved the right to not proceed and ultimately it was up to the community to work together. She added that the policy also applied to community organisations who wished to secure land for eg. allotments.

Mr Curtis stressed the policy would not answer every query that would arise.

Councillor Carr said the issue of equality was not raised in the Aims of the Procedures.

Mr Curtis said the issue of equality was included within the Principles of the policy and was very important. He added that there would be situations of conflict, and in such cases, it would be up to Council to move forward or not.

Councillor Carr said it was critical that all sporting codes and community organisations would have fair and equitable access to all of Council's sporting facilities in the area, and that this would be added into the policy.

Councillor Burns and Councillor W Clarke agreed to include Councillor Carr's point into their proposal.

Mr Hannaway asked for agreement to add an addendum into the policy to allow the clubs or sporting organisations who had applied to lease Council lands to proceed.

Agreed: It was agreed on the proposal of Councillor Burns, seconded by Councillor W Clarke, that the Policy on the Lease and Disposal of Playing Fields/Recreation Facilities/General Property be agreed, subject to the inclusion of the following:

- That in situations where two or more clubs were seeking use of the same facility and meet the criteria but could not agree a partnership arrangement, then the land would not be leased until the interested parties could reach an agreement.
- That all sporting codes and community organisations would have fair and equitable access to all of Council's sporting facilities in the area.

Agreed: It was further agreed that the applications already received by Council from clubs or sporting organisations could now proceed.

In response to concerns expressed by Councillor Ruane regarding plaques on park benches, Mr Curtis explained that the proposal would be not to name a bench or area after an individual or a family.

Mr Moffett, Equality Officer advised the issue of plaques on park benches had been discussed at the Good Relations Working Group.

In response to a query from Councillor Carr, Mr Hannaway said a report would be brought back to Council regarding centenary commemorations of the Connemara/Retriever tragedy.

In response to Members queries, Mr Curtis advised he would bring further information back to Council regarding the anniversaries of the sinking of the Lusitania and the opening of the Suez Canal.

SPR/130/2016 **NOTICE OF MOTION – VIDEO RECORDING AND LIVE STREAMING OF COUNCIL MEETINGS**

The following Notice of Motion came forward for consideration in the name of Councillor Brown:

“This Council recognises that local government should always strive for the greatest degree of transparency and accountability and therefore agrees that the following measures be taken to increase transparency: video recording and live streaming of all full council meetings, audio recording of all statutory committee meetings and online publication of Councillor’s register of interests. The Council asks that a cost analysis and delivery timetable for this be presented to next month’s SPR meeting for approval’.

In proposing the motion, Councillor Brown said the costs referred to in the report regarding audio recording were not too high and there was no issue with putting the Members’ Register of Interests online, but the major issue was the cost of the live streaming. He queried why only 1 quotation was obtained and asked for clarity over the expense of running the live streaming equipment.

Councillor Andrews seconded the motion.

Councillor Walker said he did not think the live streaming was value for money and queried the number of people watching the live streaming on Belfast City Council’s website.

Councillor W Clarke suggested looking at options for delayed streaming which would not be as expensive as live streaming.

Councillor Burns concurred with Councillor W Clarke's comments querying if the cameras could be used to put up the visuals onto the Council's website.

Mr O'Rourke explained that the costings within the report were obtained through a request in 2013, which the Down legacy Council had voted for, but the technology had not been put in place to enable it. He added that the cameras could visually stream, but the backend technology was not in place to live stream.

Councillor Brown said he was willing to accept Councillor W Clarke's amendment to visually record the Council meetings and upload them to the website at a later stage.

Mr Hannaway said recording was required to be done to a professional standard in case it had to be used as part of a challenge or judicial review and in response to a question from Councillor Brown, suggested obtaining another cost for visually recording Council meetings.

Councillor Brown said he would alter his motion to allow for visual recording with upload to the website at a later date, as opposed to live streaming.

Councillor W Clarke said he still would not be in favour of Councillor Brown's motion, as further investigation was required on the visual transmission being hosted on Council's website.

Mrs McParland explained a way forward was required regarding recording of the Planning Committee meetings and also how long recordings of Committees would be held for. She added that if Committee meetings were to be recorded, they would need to take place in the Mourne Room, Downshire as that was where the recording equipment was situated.

As an amendment, Councillor W Clarke proposed and Councillor Ruane seconded, that further investigation was undertaken on the visual transmission being hosted on the Council's website and that Council's Planning Committee should not be recorded.

The amendment was put to a vote, the results of which were as follows:

FOR: 8
AGAINST: 3
ABSTENTIONS: 0

The amendment was declared carried and became the substantive motion, which was put to a vote by a show of hands, the results of which were as follows:
