## **EDUCATION**

Economic Development and Regeneration is intrinsically linked to Education and the level of attainment by those who live and work in the district.

The maps below show the percentage change in Further and Higher Education Enrollments from 2001 to 2015. It shows the significant increase in FE Enrollments by an average of 73% while the increase in HE Enrollments was significantly less at 0.5% during this same period.

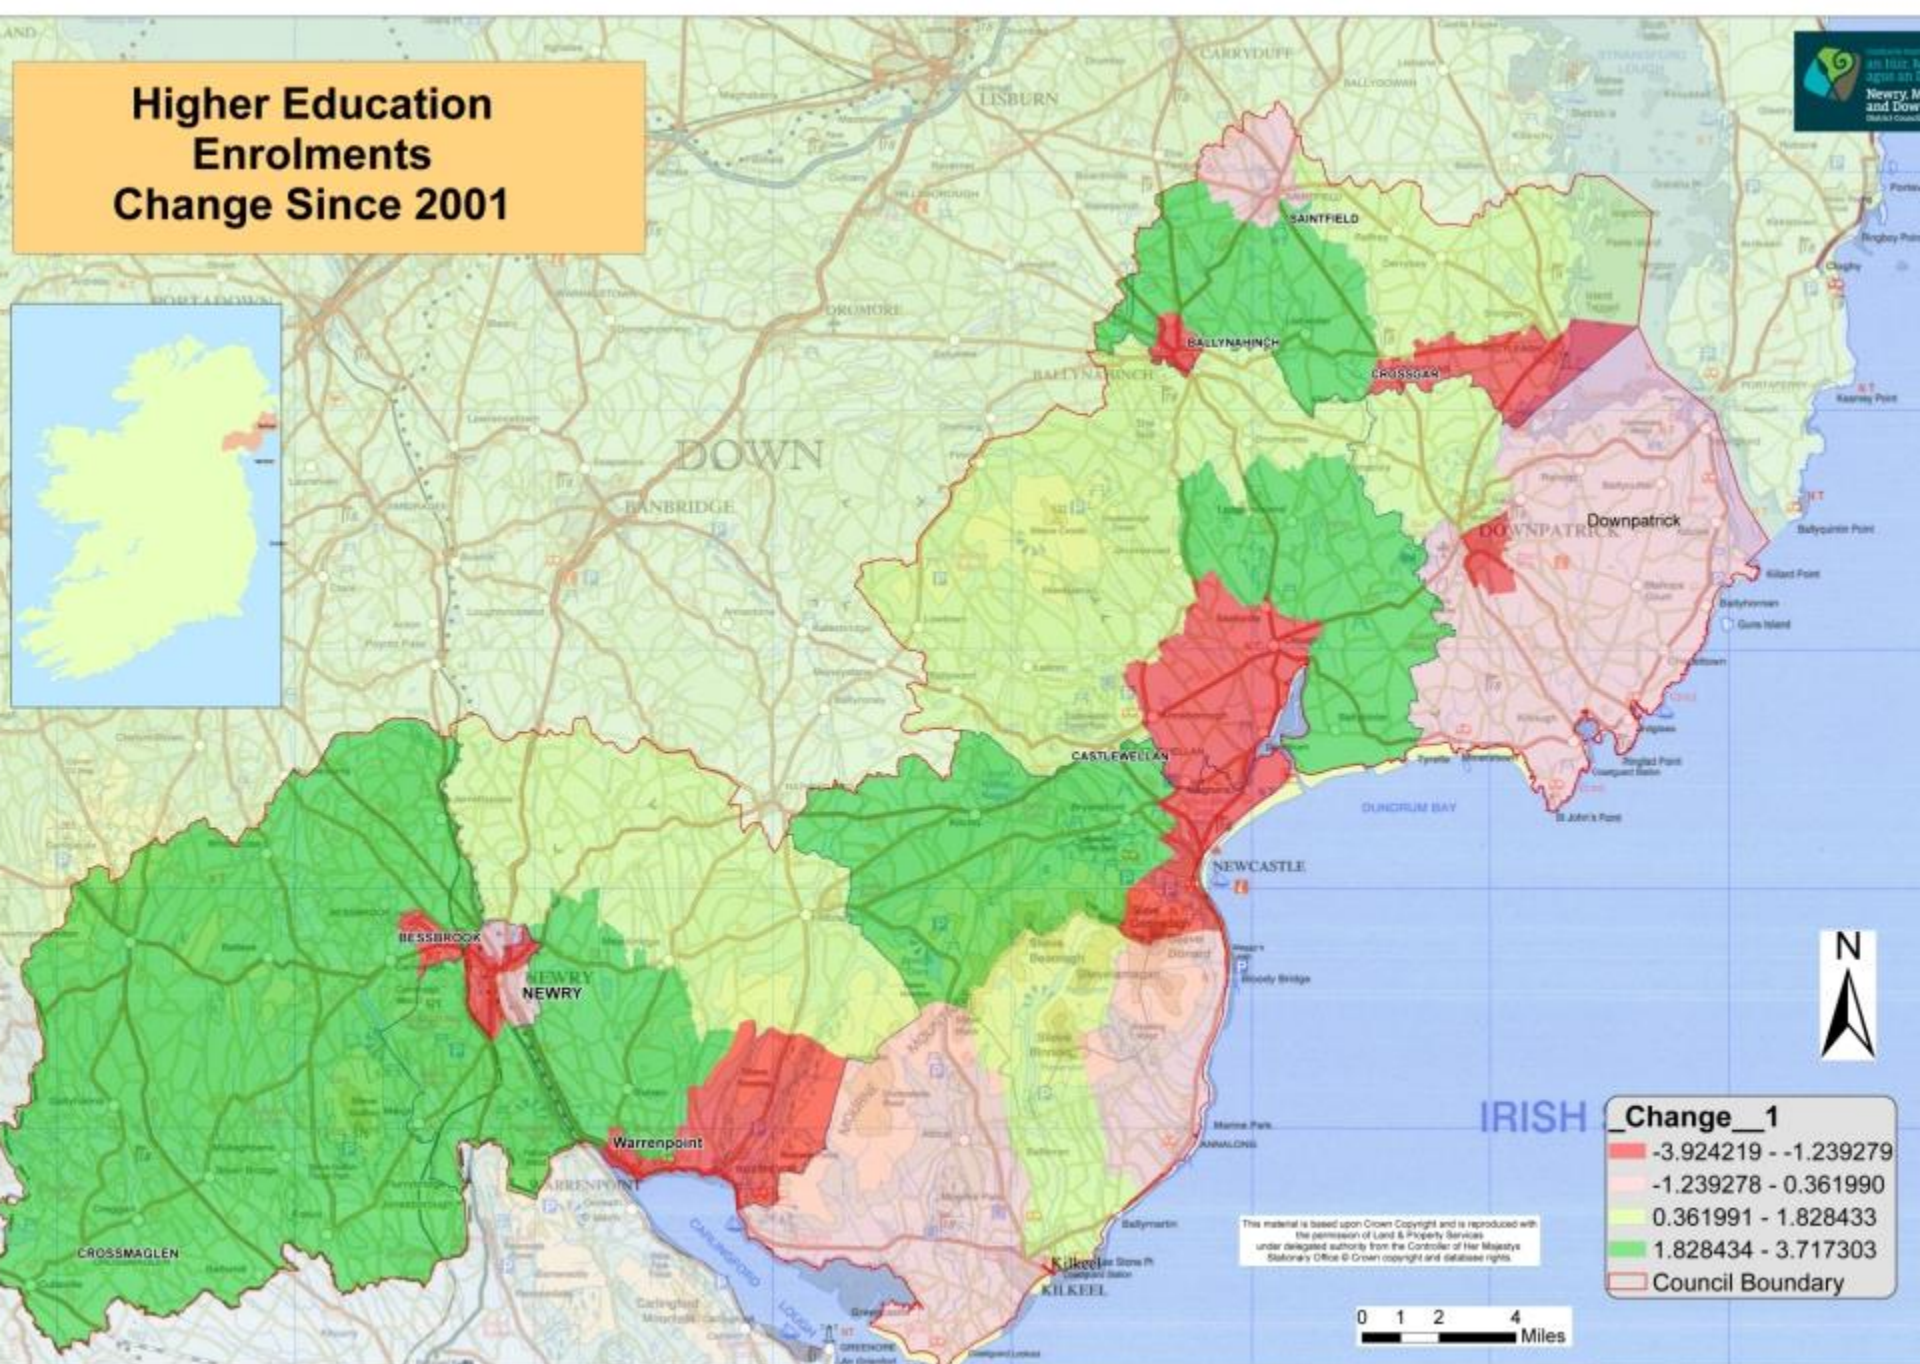

Obviously this is something that will have to be addressed to ensure that the high skilled jobs that come to the area can be filled by local people with the necessary qualifications
