The Village Renewal and Development Plan review was funded under Priority 6 (LEADER) of the Northern Ireland Rural Development Programme 2014-2020 by the Department of Agriculture, Environment and Rural Affairs and the European Union, and Newry, Mourne and Down District Council.
1. Introduction

The Village Renewal and Development Plan (Village Plan) was produced for Bessbrook and Camlough in 2012. This has now been reviewed and updated by the community in conjunction with Newry, Mourne and Down District Council. The review has taken the form of an addendum to the Village Plan and should be read in conjunction with it. The addendum includes an updated Action Plan (see Section 2), which identifies which projects and initiatives have been implemented since the original plan was published and highlights projects which could be focused on over the next phase of implementation.

Ove Arup and Partners (Arup) was appointed as the consultancy team to facilitate the review and update of the Action Plan. This update has been facilitated by a stakeholder workshop. The outcome of this is an updated Action Plan which includes a range of projects and initiatives that we believe will have a real impact on the area.

The review of the Village Plan was funded under Priority 6 (LEADER) of the Northern Ireland Rural Development Programme 2014-2020 by the Department of Agriculture, Environment and Rural Affairs and the European Union, and Newry, Mourne and Down District Council.

The Rural Development Programme uses the LEADER approach which adopts a community led model to assist rural communities to improve the quality of life and economic prosperity in their local area, through the allocation of funds based on local need. Village Renewal and Development is an important element of the Rural Development Programme.

The Village Plan is a working document that requires the support of the community, and in many cases the community working in partnership with other agencies and statutory bodies.

It is important to note that some projects and initiatives set out within the action plan may be subject to future feasibility studies and analysis, detailed design, landowner agreements, statutory approvals and available funding.
2. Implementation

This plan is designed to improve the social and economic fabric of the area.

The Updated Action Plan provides an indication of the key tasks which need to be undertaken to progress specific projects. This often includes detailed scheme design, preparation of the business case and funding application, and in some cases further feasibility and analysis. The source of funding will often dictate the order in which tasks need to be undertaken, for example the Rural Development Programme expects all statutory consents to be in place before the funding application is submitted. There are potential sources of funding available for the projects and initiatives set out within this Village Renewal Plan. It is important to note that reference to potential funding is for guidance only. Other funding opportunities may become available during the lifetime of this plan, and all projects will be subject to appropriate eligibility checks, application and assessment procedures as set by each funding body.

The Updated Action Plan also provides an indication of the priority level of each project based on discussions with key stakeholders during plan preparation. Alongside this, a lead delivery agent and key stakeholders have also been noted. There may also be other interested groups who should be engaged during project implementation or those whose agreement must be sought, such as a private landowners or statutory bodies. It is also important to recognise that priorities may change as funding opportunities become available.

It should be noted that the progressing of a ‘Village Plan’ under the Rural Development Programme does not mean that the settlement or area to which the ‘Village Plan’ applies, is designated as a village in the settlement hierarchy as identified in the current development plans that apply to the district (i.e. the Banbridge/Newry and Mourne Area Plan 2015, and the Ards and Down Area Plan 2015) or the Council’s new Local Development Plan for the District, which is currently under preparation.

<td>S</td>
<td>NMDDC, HLF, RDP, TourismNI, AHF</td>
<td>Feasibility study. The renewal plan shows the community’s preferred location for the interpretative / information centre. If this is not feasible, NIEA have suggested that BHG and BDC undertake an audit of all the vacant listed buildings in the village with a view to identifying alternative buildings that could be acquired, repaired and used for this purpose. In addition, a strategy could then be developed to bring some other buildings back into use. In relation to listed buildings NIEA have advised that they would be willing to discuss possible projects to address dereliction. Preferred site location is no longer possible. Building has been bought and now functions as a Chapel of Rest. Potential alternative locations at the old tram station and old school building. Ring of Gullion Landscape Partnership Scheme have carried out a built / industrial heritage survey which may be useful to project. Bessbrook Development Co. have purchased a site to the rear of the Tirzah and are exploring funding avenues to support project delivery.</td>
<td>H</td>
<td>M, L</td>
<td>• Engage with landowners to agree suitable site. • Conduct feasibility study • Secure appropriate statutory consents • Identify and secure funding • Explore old tram station as interpretive / information centre.</td>
