## Additional considerations

### Multiple identity

Generally speaking, people can fall into more than one Section 75 category. Taking this into consideration, are there any potential impacts of the policy/decision on people with multiple identities? (For example; disabled minority ethnic people; disabled women; young Protestant men; and young lesbians, gay and bisexual people).

N/A

Provide details of data on the impact of the policy on people with multiple identities. Specify relevant Section 75 categories concerned.

### Screening Decision

In light of your answers to the previous questions, do you feel that the policy should (please underline one):

1. **Not be subject to an EQIA (with no mitigating measures required)**
2. Not be subject to an EQIA (with mitigating measures /alternative policies)
3. Not be subject to an EQIA at this time
4. Be subject to an EQIA

If 1. or 2. (i.e. not be subject to an EQIA), please provide details of the reasons why:

The outcome of screening is that the strategy with respect to dog-fouling not be subject to an equality impact assessment (with no mitigating measures required).

The Strategy acknowledges that in terms of access to information, including potential communication campaigns, there may be specific needs for people whose first language is not English, children and young people may not be able to fully access or understand information, and that people with sensory, learning, communication and mobility disabilities may require printed information in other formats.

The proposed Strategy states a commitment to ensuring information we disseminate and the services we provide are fully accessible.

To ensure equality of opportunity in accessing information, the Strategy commits to provide information in alternative formats on request, where reasonably practicable. Where the exact request cannot be met we will ensure a reasonable alternative is provided.

If 2. (i.e. not be subject to an EQIA), in what ways can identified adverse impacts attaching to the policy be mitigated or an alternative policy be introduced?

In light of these revisions, is there a need to re-screen the revised/alternative policy?  
Yes / No. If No, please explain why

If 3. or 4. (i.e. to conduct an EQIA), please provide details of the reasons:

### **Timetabling and prioritising EQIA**

If 3. or 4, is the policy affected by timetables established by other relevant public authorities? NO

If YES, please provide details:

Please answer the following questions to determine priority for timetabling the EQIA. On a scale of 1-3, with 1 being the lowest priority and 3 being the highest, assess the policy in terms of its priority for EQIA.

Priority criterion	Rating (1-3)
Effect on equality of opportunity and good relations	
Social need	
Effect on people's daily lives	
Relevance to a public authority's functions	

Note: The Total Rating Score should be used to prioritise the policy in rank order with other policies screened in for EQIA. This list of priorities will assist you in timetabling the EQIA. Details of your EQIA timetable should be included in the quarterly Section 75 report.

Proposed date for commencing EQIA: \_\_\_\_\_

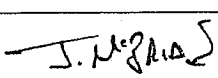

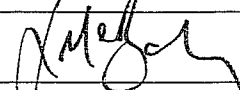

### Monitoring

Effective monitoring will help identify any future adverse impacts arising from the policy which may lead you to conduct an EQIA, as well as help with future planning and policy development.

Please detail proposed monitoring arrangements below:

The implementation of the strategy will be reviewed after the first year, and as necessary, to ensure that it remains up-to-date with legislative advancements etc.
