

Addendum to Paper 6: Environmental Assets

1.0 The purpose of Paper 6: Environmental Assets was to provide an overview of the existing environmental assets within the Newry, Mourne and Down District Council area.

1.1 The purpose of this Addendum is to correct inexactness within Paper 6 a propos Areas of Scenic Quality (ASQs) within the District.

1.2 Page 55 in Paper 6 states that within Newry, Mourne and Down District Council there are no designated ASQs.

1.3 ASQs were identified in the Northern Ireland Landscape Character Assessments, within Area Plans these areas were generally recognised as Areas of High Scenic Value (AoHSVs).

1.4 It should be noted that the District currently shares a small portion of the Magheraknock Loughs Area of High Scenic Value (AoHSV) which is located to the north of Ballynahinch; the majority of this designation is within the neighbouring Lisburn and Castlereagh City Council area.
