Newry, Mourne and Down
District Council

Why we want you to recycle more at HRCs

People in Northern Ireland are recycling more and more each year. In 2018 Northern Ireland sent 48% of materials for re-use or recycling which is great news, but we need to do more to meet UK targets to recycle 65% of our waste by 2035.

In our District, we currently recycle 46%, of our waste but a recent study of our Household Recycling Centres (HRCs) found that much of the waste that goes into waste containers could be recycled. Recycling more will mean reducing the cost of landfill and helps benefit businesses in Northern Ireland who rely on our recycled paper, glass, plastic, food waste and many other materials.

What this means for you

From April 2019, anyone visiting a HRC will be expected to have pre-sorted their household waste for re-use and recycling. Our site staff will advise you about which containers to use for recycling and waste disposal. This may include staff asking you to open bags to show that they do not contain recyclable materials.

Disposal of recyclable items in waste skips is no longer permitted.

Please retain this guide which lists the wide range of materials that can be recycled at your local HRC.

What you need to do when visiting your Household Recycling Centre

To make your trip to the Household Recycling Centre (HRC) as quick and easy as possible please follow the simple steps below:

- S** **Sort** recyclable and non-recyclable materials at home. Disposal of recyclable items in waste skips is no longer permitted;
- O** **Organise** your recyclables and waste in your vehicle so that when you visit the HRC you can place items in the correct containers. This will make your visit much quicker;
- R** **Re-use** many items such as furniture, clothes and bicycles are too good to throw away and could be donated to charity. Consider this option before you visit us. Re-use containers coming soon!
- T** **Talk** to our staff – if you are unsure about what can and cannot be recycled please ask, our staff will provide advice on which container to use.

A wide range of materials can be recycled at your HRC:

	cardboard		paper		books		wood & timber
	hard plastics		mixed textiles & clothes		cooking oil		mattresses coming soon
	car batteries		scrap metal		household metal packaging		mixed glass bottles & jars
	garden waste		large appliances		batteries		small appliances
	printer cartridges		fridges & freezers		mixed light bulbs		tv's & monitors

Important! The disposal of some items e.g. paint/oil is restricted. For health and safety reasons wheelie bins cannot be emptied on site.

Please check what materials are accepted at your local HRC by visiting www.newrymournedown.org/hrc
