Executive Summary

“ The Strategy reflects the wider – Northern Ireland 10 Year Plan for the provision of Strategic Sports Facility Strategy for Northern Ireland (2016). ”

Newry, Mourne and Down District Council’s (NMDDC) Sports Facility Strategy (the Strategy) provides a framework for the future prioritisation, development and provision of sports facilities at local level to meet identified community need.

The Strategy has been developed during a period of significant change in Northern Ireland (NI); the implementation of the Review of Public Administration (RPA), reducing Council areas from 26 to 11 (from 1 April 2015), the introduction of Community Planning as a statutory responsibility of public bodies and the re-organisation and restructuring of Governmental Departments, roles and remit have all taken place, or are in the process of taking place. The Strategy is therefore both an important means of contributing to the above, but also represents a significant opportunity as a result of these changes.

STRATEGY PURPOSE AND RATIONAL

The purpose of the Strategy is to identify the strategic need for sports facilities in the Newry, Mourne and Down district area.

This is one of 11 local strategies to be developed in the context of the NI-wide work. A consistent approach to developing the local strategies has been undertaken. The same methodology for applying supply and demand standards for sports halls, swimming pools and health and fitness facilities have been used in all 11 council strategies and agreed with Sport NI.

The Strategy rationale is to develop a framework for the future prioritisation and development of sports facilities, based on identified need, increasing participation, addressing health inequalities and other local specific factors.

The focus of the facilities analysis has been sports halls of three courts or above (except those on education sites), pools of 20m and above, health and fitness suites of 20 stations and above and full size artificial grass pitches (AGPs), together with other facilities specific to each local area.

The Strategy reflects the wider – NI 10 Year Plan for the provision of a Strategic Sports Facility Strategy for NI (2016), which focuses on the need for future provisions that are of cultural significance, as well as those that provide for high performance training and competition. These facilities contribute to the vision and targets set out within strategic documents such as the Programme for Government (2011-2021), Building a Better Future (2011-2015) and Sport Matters, the NI Strategy for Sport and Physical Recreation (2009-2019).

At a local level, the identification of need for sports facility provision is also aligned to Newry, Mourne and Down District Council’s Corporate Plan 2015-2019 and the new Community Planning process.

In an environment of unprecedented change for NI and particularly where resources are limited, the need for a strategic plan, which identifies priorities for provision and investment at a local level is important.

This Strategy will inform the development of an evidence-based approach to strategic planning for and development of sports facilities at a local level, to optimise their value and benefits. The restructuring of the District Council boundaries (RPA) implemented on 1 April 2015 provides a unique opportunity and some interesting challenges to instigate and instill an improved strategic culture to sports facility planning in NI.

The Strategy will speak to and engage all stakeholders involved in the planning, development and delivery of sports facilities in the Newry, Mourne and Down district area to inform a coherent future approach, which will make best use of all available resources.

VISION

The vision underpinning the Strategy is:

'Development of an evidence-based assessment of facility need, which will inform and prioritise future investment in and development of a network of high quality sports facilities, addressing the needs for increased community participation in the Newry, Mourne and Down district area'.

AIM

The Strategy aim is to develop a strategic framework for the future provision of sports facilities in Newry, Mourne and Down district. This identifies the need for provision and the priorities for investment into sports facilities, informed by evidence of need, consultation with key stakeholders and a supply and demand analysis.

OBJECTIVES

The Strategy objectives are:

- To identify the existing range of facilities provided at a local level in Newry, Mourne and Down.
- To undertake consultation with strategic stakeholders to identify current and future facility needs and locations.

- To undertake a supply and demand assessment to identify gaps in current provision, plus future needs.
- To develop a facility framework reflecting identified current and future community needs.
- To link this strategic framework where relevant to the network of local sports facilities.
- To develop a set of strategic principles underpinning all future investment in sports facilities.
- To link the identified sports facility needs in Newry, Mourne and Down into the priorities identified at national level, where appropriate.
- To recommend priority investment(s) in sports facility provision in Newry, Mourne and Down.

SPORT NI FACILITY STRATEGY - FUTURE PRINCIPLES FOR THE PROVISION OF SPORTS FACILITIES

The 10 Year NI Sports Facility Plan 2016 sets out a number of recommendations for facilities of NI-wide cultural significance and for those providing for high performance training and competition. The recommendations stress the need for an evidence-based approach to the future planning for sports facilities, based on need, to ensure that investment is strategic and will deliver sustainable provision, benefitting communities across NI. Funding from Sport NI will only be targeted at new facilities that meet the key principles below.

The Sport NI Facilities Strategy states that when planning for future provision the following key principles (KP) should be applied:

- KP1. Proposed sports facilities should take account of the Northern Ireland 10 Year Sports Facility Plan 2016 and the 11 associated local council strategies.

“ It is also recognised that for some Councils their multi-facility hub already exists, or may be best delivered through a number of linked sites. ”

- KP2. Proposed sports facilities should be collaboratively planned to reduce duplication, displacement and encourage shared use.
- KP3. Sports facilities should be appropriately planned and designed to ensure a wide range of users and utilisation.
- KP4. Proposed sports facilities should be accompanied by a long-term Sports Development Plan to ensure viability and sustainability.
- KP5. High performance facilities in GB or RoI should be considered when exploring the potential for similar provision in NI.
- KP6. Priority should be given to the development/ improvement of multi-facility hubs, including the provision of a range of synthetic turf pitches.
- KP7. Where possible new and/or improved school sports facilities should be designed and managed in a way that enables community use.

An important recommendation in the Sport NI Facility Strategy is the identification of the need for a strategically-located, multi-facility hub in each new council area. This aims to address challenges of accessibility to both facilities and critically support services for elite athletes, but also provides the opportunity to consider the development of facilities at a local level which provides for four to five different sports on one site. These developments could facilitate increased participation at

community level and potentially be more efficient and effective to operate given that revenue costs could be spread across the facility operation and remove the need for duplication of infrastructure, car parking, across a number of sites. Given the geography of NI and the existing sports facility infrastructure in place, it is also recognised that for some councils their multi-facility hub already exists, or may be best delivered through a number of linked sites.

Specific recommendations are also made in relation to the future secured community use of sports facilities on education sites, and the fact that all 3G/synthetic pitches need to be developed with floodlights to maximise access and usage.

NEEDS, PRIORITIES AND OPPORTUNITIES

The assessment and analysis undertaken to develop this Strategy identifies a need for some additional provision across a range of facility types, as well as more generic needs in terms of improvement to the quality of existing facilities and the accessibility of provision. All new and improved facility provision should be fully inclusive to optimise participation opportunities across communities.

The facility needs have been identified as a result of the qualitative, quantitative and accessibility analysis undertaken.

Table A: Summary of Facility Needs in Newry, Mourne and Down District Council

Facility Type	Facility Needs/Priorities
SPORTS HALLS	<ul style="list-style-type: none"> Newry, Mourne and Down District Council has planned and is committed to providing 36 badminton court sports hall spaces in secured community use. The demand modelling suggests there is a deficit of 11 badminton court secured sports halls in 2016 and 17 badminton court secured sports halls in 2037. If the number of badminton court sports halls that are provided in education establishments (46 badminton courts) that are not fully open for community use are considered, this would eliminate any need for additional sports hall space in the future to 2037. This would mean putting into place community use agreements with schools to meet Sport NI KP7. Where possible new and/or improved school sports facilities should be designed and managed in a way that enables community use. The district has three or four court sports hall provision within a 20 minute drive time of its residents. There is a need to replace the Newcastle Centre in the future and securing sports hall provision should be considered along with ancillary facilities to cater for activities that currently take place when funding becomes available. Provision of three or four court sports halls in villages is not sustainable. Smaller one court halls at community centres with added recreational provision with open space and a multi-use games area would provide recreational and physical activity needs. The provision model for sports halls comes down to the long-term sports development plan for the facility, the economic and business case. What is it? Is it needed? Taking into account participation, financial and outcome benefits.
SWIMMING POOLS	<ul style="list-style-type: none"> Newry, Mourne and Down District Council has planned and is committed to providing 1,205m² of water space and has provided additional leisure water space at Newry Leisure Centre. This is sufficient to meet the demands for 2016. There will be a need for additional water space in Newry, Mourne and Down district going forward to 2037. This is roughly equivalent to a 4 lane 25m pool 212m². Consideration should be given to providing an indoor swimming pool alongside any future indoor leisure provision in Newcastle.
HEALTH AND FITNESS FACILITIES	<ul style="list-style-type: none"> The UK propensity to participate as a fitness gym member for 2015 is 13.7% of the population as identified from the Fitness Industry State of the Nation Report. The total population aged over 16 has been used and participation rates for using fitness facilities at peak times has been utilised to provide a current demand for 547 fitness stations across Newry, Mourne and Down. The current supply is calculated as 838. This suggests a surplus of 291 health and fitness stations. Some of the private gyms are not accessible to all the community due to cost and transport. The number of fitness stations required for 2037 is equivalent to 645 fitness stations. There are currently enough fitness stations to cover the need to 2037.

Facility Type	Facility Needs/Priorities
ARTIFICIAL GRASS PITCHES	<ul style="list-style-type: none"> • There are approximately 55 soccer clubs across Newry, Mourne and Down district providing approximately 215 teams. The English Football Association through its new 3G Rubber Crumb Pitch Strategy has decided that to ensure the sustainability of a new 3G pitch there must be a minimum of 42 teams (not clubs within the area but teams that would have access to the pitch for training and competition). • By using the 42 teams formulae on a district wide basis for Newry, Mourne and Down with approximately 215 teams there is a need for five 3G rubber crumb pitches for soccer. There are currently nine 3G rubber crumb pitches of which five solely provide for soccer across Newry, Mourne and Down. There are a further three soccer 3G pitches planned for John Bosco Youth Club site Newry (Respect Soccer Project), Ballyhornan and Downpatrick. • If you take gaelic football, hurling and camogie there are approximately 45 clubs providing approximately 476 teams. Applying 42 teams to one 3G rubber crumb pitch identifies a need for eleven 3G rubber crumb pitches for gaelic sports across the district. Currently there are only three 3G rubber crumb pitches suitable for gaelic sports. • To meet Sport NI Sports Hub needs it would be appropriate to support clubs and sports that will work together in the future eg GAA, soccer and rugby clubs whereby 42 teams using a sports hub facility can at least train on one 3G pitch. • From a sustainability view point 3G rubber crumb pitches should be used during the day by schools, in the evenings for training and on weekends for competitive games. A minimum demand of teams for use of a 3G pitch should be instigated eg 42 teams per 3G rubber crumb pitch. • Wherever possible the IFA, IRFU and the GAA are keen to work in partnership with local councils to develop new multi-sport facilities, providing access for all. • There is a need to provide a sand based all-weather pitch at Saintfield to replace the outdated shale hockey pitch and a need to replace the carpet at McAuley Park, Kilkeel. • There are two disused shale pitches at Langley Road, Ballynahinch with floodlights. A decision is required on the future use of these pitches. The same applies to the shale pitch at Dunleath Park, Downpatrick. • The carpet of an AGP will be required to be replaced approximately every 10 years and in this instance it is recommended that a sink fund is set up for each 3G pitch to provide for the funding of a new carpet in the future. The projected cost is £200,000 per pitch. This should be met from income from these pitches. This means that a Business Plan showing £20,000 per annum to a sink fund for the replacement of the carpet and a sports development case is required each time a 3G pitch is built or supported by the district.

Facility Type	Facility Needs/Priorities
GRASS PLAYING PITCHES AND CHANGING ROOMS	<ul style="list-style-type: none"> • The six acre standard methodology of the number of pitches required does not take into consideration quality of pitches or actual demand for pitches. It uses a standard per 1,000 population and treats demand as standard across all 11 local councils in NI. The demand however is not standard. Newry, Mourne and Down District Council has, for example, 45 GAA Clubs where Ards and North Down Borough Council has four GAA Clubs. • Across Newry, Mourne and Down district there are 52 playing pitch sites in the Council's ownership. The pitches on these sites are of varying quality and therefore cannot sustain the same number of games on each pitch each week. The quality of pitches determines the capacity or number of times a pitch can be played. <p>There is a need to provide the following:</p> <ul style="list-style-type: none"> > Annsborough – Pitch required at 'Good' quality > Ardglass – Current pitch needs to be raised to a 'Standard' quality > Castlewellan – Pitch required at 'Good' quality > Derryleckagh W Davis Street and Derryleckagh Olympic Park – Pitches required at 'Standard' quality > Derryleckagh P Barry Park – Pitch required at 'Good' quality > Drumaness Soccer – Pitch required at 'Good' quality > Dundrum (Newcastle) - requires drainage works > Dunleath Park – Pitches required at 'Standard' quality > Gerry Brown Park – Pitch required at 'Good' quality > Jack Mackin Park – Pitch required at 'Good' quality > Jennings Park 1 and Jennings Park 2 - Pitches required at 'Good' quality > Kilbroney Park – Pitches required at 'Standard' quality > Killough – Pitch required at 'Standard' quality > Langley Road – Requires additional drainage works > Milltown Park - Pitch required at 'Good' quality > Norman Brown Park – Pitch required at 'Good' quality > Strangford – Pitch required at 'Good' quality > St Michael's Gaelic site requires an extra pitch per week at a 'Good' quality and raise current 'Standard' pitch to 'Good'. <p>It should be noted with a possible provision of specific District Electoral Area (DEA) Hubs and the development of AGP pitches the need for the 58 grass pitches may no longer be required and the upgrading requirements of the pitches listed above will have to be re-evaluated as the DEA Hubs shall provide sufficient facilities for all current usage.</p>

Facility Type	Facility Needs/Priorities		
	<p>There are a number of playing pitch facilities leased to different clubs. A number of clubs have also requested leases at a number of sites, these are:</p> <ul style="list-style-type: none"> > Annsborough Playing Fields - Request (Aughlisnafin GAA) > Gerry Brown Park Gaelic Pitch - Request (Mitchell's GAA) > Lisdrumliska Recreation Area/Pitch (Glen Hill) - Request (Newry Rugby Club) > Milltown Gaelic Pitch, Pavilion and Car Park - Request (Warrenpoint GAA) > Mona View Green Five Aside - Request (Annalong Community Group) > Murdock Soccer Pitch - Request (Forkhill GAA) > Nan Sands Park Soccer - Request (Saval GAA) > Shandon Park/Norman Brown Park Soccer Pitch - Request (Damolly F/C) > St Michael's Gaelic Pitch - Request (St Michael's GAA). <p>The Strategy has identified a need to undertake refurbishment or renewal works on the following outdoor recreational changing/pavilions, these are:</p>		
	Pitch	Refurbish/Upgrade Changing/Pavilion	Replace Changing/Pavilion
	Annsborough	Needs upgraded	
	Ardglass	Needs upgraded	
	Ballykinlar	Needs upgraded	
	Castlewellan	Needs upgraded	
	Derryleckagh W Davis Street	Needs upgraded	
	Derryleckagh P Barry Park	Needs upgraded	
	Derryleckagh Olympic Park	Needs upgraded	
	Donard Pitches Donard Park	Needs upgraded	
	Dundrum	Needs upgraded	
	Dunleath Park Pitches	Needs upgraded	
	Killbroney Park		Facilities required
	Langley Road Pitches	Needs upgraded	
	Milltown Park		Poor, needs to be replaced
	Mourne Esplanade Pitch	Needs upgraded	
	Rosconnor Pitch Annacloy	Needs upgraded	

Facility Type	Facility Needs/Priorities		
TENNIS	<ul style="list-style-type: none"> The provision of a bubble to provide all year round tennis should be provided at Newry Tennis Club and Newcastle Tennis Club. <p>The following tennis changing/pavilions need to be upgraded or replaced:</p>		
	Pitch	Refurbish/Upgrade Changing/Pavilion	Replace Changing/Pavilion
	Annalong Bowling and Tennis	Needs to be upgraded	
	Newcastle Tennis – Island Park	Needs to be upgraded	
	Warrenpoint Tennis shared with Gaelic Sports, Hurling, Camogie		Portacabin needs to be replaced
BOWLS	<ul style="list-style-type: none"> Consider offering clubs a new pavilion with an artificial bowls green to manage the facility and lease the facility for 25 years. The cost of the artificial bowls green could be recovered in three years and maintenance funds diverted for other grass pitch maintenance. <p>The following bowls changing/pavilions need to be upgraded or replaced:</p>		
	Facility	Refurbish/Upgrade Changing/Pavilion	Replace Changing/Pavilion
	Annalong Bowling and Tennis	Needs to be upgraded	
	Kilkeel Bowling Pavilion	Needs to be upgraded and extended	
	Newcastle Bowls Club Castle Park	Needs to be replaced	
	Warrenpoint Bowling Green		Portacabin needs to be replaced
ATHLETICS	<ul style="list-style-type: none"> There is a need for an athletic facility in and around Downpatrick/Newcastle. A six lane track in partnership and shared with a school would be the most sensible option. 		
WATER SPORTS	<ul style="list-style-type: none"> Consultation identified that the district could benefit from enhanced yachting and wet sports facilities at various harbours but specifically Annalong, Newcastle and Dundrum. There have been a number of lakes mentioned in the consultation that could be developed further, of further interest are: Camlough Lake, Kiltybane Lake, Cashel Loughs and Lough Ross. There could be improved use of Newry Canal as a wet sports centre eg canoeing and better use of disused quarries for diving and water sports. There is potential to develop a number of lakes in the area for angling. The Leisure and Sports Development Department should consider a joint study with the Enterprise, Regeneration and Tourism Department (ERT) to enhance existing water sports and develop new water sports facilities across Newry, Mourne and Down district. 		

Facility Type	Facility Needs/Priorities
WALKING AND NATIONAL CYCLE NETWORK	<p>Specific opportunities include:</p> <ul style="list-style-type: none"> • Development of an iconic coastal path similar to the one in Wales (around the Welsh Coast) as part of the Community Paths Network, which would provide safe and accessible walking along the coastal areas from Donegal to Carlingford Lough, Causeway Coast and Glens and County Down. Outdoor Recreation NI (ORNI) states that every time a new walking route is established, it results in a massive increase in usage. The Welsh Coast Path generated 2.82m visitors in its first 12 months of operation and added £32m to the Welsh economy, as well as significantly raising the profile of Wales through national and international media. • Development of a national network of riverside paths (based on a partnership between ORNI, Department for Communities, Inland Waterways, Waterways Ireland, Loughs Agency, the Northern Ireland Environment Agency and Sport NI); following the implementation of the EU Protection of Water Framework Directive, there is a significant opportunity to create riverside and woodland trails alongside existing rivers. A Tree Belt has to be planted 10m from the riverside, which could create such family friendly routes for both cycling and walking. • The ERT Department is currently undertaking detailed design of new and enhanced walking routes and a new family Blue Cycling trail in Rostrevor Forest and Kilbroney Park . • The ERT Department is also about to commence a Feasibility Study and Economic Appraisal for Slieve Gullion Forest Park which is likely to have key outdoor activity actions. • There is already the Ring of Gullion and Mourne Way which is part of the province wide Ulster Way and there is a move to develop the Ring of Gullion Ring Dkye Way. • There is also the greenway being developed from Newry to Carlingford. • Camlough Forest is another area, close to Newry with potential to be developed in regards to walking and cycling. <p>There is an identified need to review and further develop the National Cycle Network including:</p> <ul style="list-style-type: none"> • Maximising the potential of current greenways and developing new linear greenways. • Developing greenway links to communities.

Facility Type	Facility Needs/Priorities
WALKING AND NATIONAL CYCLE NETWORK (Cont'd)	<p>Projects identified in the ORNI Action Plan/Operational Review 2015 include:</p> <ul style="list-style-type: none"> • Outdoor Sports Hubs – Sperrins, Mournes, Causeway Coast and Glens • Off-Road Coastal Walking Route from Portavogie to Kilkeel • Mountain Bike Trails and Walking Trails • There is also a proposed Mourne Coastal Route Pathway. <p>There is an Outdoor Recreation Forum for South Armagh and the Mourne area:</p> <ul style="list-style-type: none"> • Slieve Gullion Forest Park - The Council is taking over this Forest and as part of this license - there are plans to develop three running trails in the park. The Slieve Gullion Running Club is based here but has no facility to run here during the winter. • Orienteering could take place in the Forests and Villages in the Council area- the areas need to be mapped to achieve this.
SPORTS HUBS	<ul style="list-style-type: none"> • From the work undertaken in this Strategy regarding sports provision and the identified perceived need by sports clubs for artificial grass pitches and grass pitches along with other sports provision, provides the opportunity to consider the development locally of facilities which provide for four to five different sports on one site. These could facilitate increased participation at community level and potentially be more efficient and effective to operate given that revenue costs could be spread across the facility operation and remove the need for duplication of infrastructure for example car parking, across a number of sites. • It is proposed to provide a sports hub in each of the DEAs over a period of time. • The provision of a sports hub would be required to meet certain criteria. This is to ensure sustainability and meet Sport NI's key principles of providing sports hubs across NI.

The proposed Sports Hub criteria is as follows:

Facility Type	Facility Needs/Priorities	
	Criteria	Site Name
	<p>1. The proposed development must have considered the following:</p> <ul style="list-style-type: none"> i. The perceived needs of Newry, Mourne and Down sports clubs identified within the Newry, Mourne and Down District Council Sports Facility Strategy. ii. Other local councils sports facility developments and strategies. iii. The NI 10 Year Sports Facility Plan 2016. <p>Meets Sport NI KP1, KP2, KP3 and KP5</p>	Yes/No
	<p>Criteria</p>	Site Name
	<p>2. Is the land currently in the ownership of Newry, Mourne and Down District Council or Education Ownership (reduced land holding costs)</p> <p>Use of education sites meets Sport NI KP7</p>	Yes/No
	<p>3. Proposed sports hub is already known as a sport and leisure destination and has some existing sports and leisure facilities (previously known as a sports destination).</p>	Yes/No
	<p>4. The proposed sports hub must have a high proportion of population within a 20 minute drive time within the individual DEA.</p> <p>Meets Sport NI KP3</p>	Yes/No
	<p>5. Does the sports hub provide the opportunity to provide for high performance facilities?</p> <p>Meets Sport Northern Ireland KP5</p>	Yes/No

Facility Type	Facility Needs/Priorities	
	Criteria	Site Name
	<p>6. Partnership arrangements must be in place for the operation and use of the sports hub (This could be local council, Education Authority and schools, sports clubs or community centres).</p> <p>Minimum of four different sports clubs and sports to be involved in the partnership.</p> <p>All sports club users must be members of SANDSA (Sports Association Newry, Down and South Armagh).</p> <p>Meets Sport NI KP2, KP3 and KP7 (if education site utilised).</p> <p>7. A sustainable business case with a long-term sports development plan must be in place with a sink fund for the provision of 3G pitches at any sports hub.</p> <p>Meets Sport NI KP4</p>	<p>Yes/No</p> <p>Yes/No</p>
OTHER	<ol style="list-style-type: none"> 1. Ensure that provision of sports facilities and participative opportunities are a priority in the Newry, Mourne and Down Community Plan, so that wherever possible planning gain resources can be secured for investment at a local level. 2. Potentially some support for club-led projects identified in the consultation process of this Strategy. (Could be to assist with match funding for grant applications, or a one-off capital grant). 3. Clubs and organisations need capacity building and guidance on how to apply for funding. 4. Investment in areas of under provision, particularly rural areas – Multi-Use Games Areas (MUGAs). This links with Newry, Mourne and Down District Council's Play Strategy. 5. Review of existing community centres – how they can provide for sport and physical activity in the rural areas. 	

RECOMMENDATIONS

Recommendation 1

A feasibility study is undertaken to consider the options for the Newcastle Centre and sports facilities in Newcastle in the future.

Recommendation 2

Consider providing additional and improving 'Poor' and 'Standard' quality rated playing pitches for soccer and gaelic sports to meet a 'Good' standard of provision which allows for pitches to have the capacity to provide for three games a week.

Recommendation 3

The Council to provide refurbished or new pavilion changing rooms where the Strategy has identified the need at outdoor sports facilities.

Recommendation 4

The Council to provide capacity building, funding application and business and sports development planning advice to sports clubs and sports and community organisations.

Recommendation 5

The Council to consider the opportunity to designate a multi-sport hub within each of the DEAs. Sports hubs must meet certain criteria identified within this Strategy. Where possible designation of a multi-sports hub should also involve the provision of support services for high performance training, operating as a satellite from the Sport Institute Northern Ireland (SINI). (There are a number of management proposals to look at and a need to talk to clubs, every hub would be different as each DEA is different).

DEA	Site Location	Priority Scoring	Current Status
Crotlieve	St Mark's/St Peter's GAA	1	Planning permission has been approved and partnership agreed.
Crotlieve	Kilbroney Sports Association	1	Business Plan and partnerships in place.
Downpatrick	Down High School (New School)	1	Initial discussions to be held with school and possible partner sports and clubs.
Mournes	Kilkeel High School/Leisure Centre	1	Initial stage of identifying partnerships and stakeholders.
Mournes	Donard Park, Newcastle	1	Initial stage of identifying partnerships and funding. Restricted in number of sports.
Mournes	St Louis Grammar School	1	Initial stage of identifying partnerships and stakeholders.
Mournes	Newcastle Football Club	1	Partnerships in place. Initial stages of identifying funding.
Newry	Newry High School	2	Initial stage of identifying partnerships and funding. Restricted in number of sports.
Newry	St Joseph's High School	2	Initial stage of identifying partnerships and funding. Restricted in number of sports.
Newry	Newry Leisure Centre	1	Initial stage of identifying partnerships and stakeholders.
Rowallane	Assumption Grammar School	1	Existing community use and all stakeholders to be established.
Rowallane	Active Saintfield	1	Initial stage of identifying partnerships and funding.
Slieve Croob	Ballynahinch Rugby Club	1	Initial stage of identifying partnerships and stakeholders.
Slieve Gullion	Camlough Lake	1	Water Sports Hub – initial stage of identifying partnerships.

Recommendation 6

The Council undertakes a review of its community centres to assess the options for the long-term of sports and physical activity provision at these facilities, as well as the locations for future provision given the population growth expected.

Recommendation 7

The Council works with external partners to develop outdoor provision comprising walking and cycling routes/trails linking sports facilities and transport.

Recommendation 8

Areas of population growth/areas without access to other formal sports facilities should have access to a MUGA or outdoor recreational grass sports area as minimum provision.

Recommendation 9

Partnership working should underpin all future investment in sports facility provision to ensure it 'fits' with and addresses identified needs of the district and can maximise access to and securing of, all available external and internal funding opportunities.

Recommendation 10

The Council should consult and work with neighbouring authorities and other providers on an ongoing basis on future sports facility provision to ensure there is no duplication of provision.

Recommendation 11

Consider a partnership approach to the development of a bubble to cover two tennis courts at either Newry Tennis Club or Newcastle Tennis Club to provide a facility within the local authority that provides for all year round tennis.

Recommendation 12

Consider a shared approach with a school to deliver a 400m six lane track with ancillary facilities in the Downpatrick/Newcastle area.

Recommendation 13

Facility specifications should fully reflect inclusive design guidance (Access to Sports Facilities for People with a Disability - 2009), to ensure provision is appropriate for participants with a disability. Disability Sport NI, Governing Bodies and councils should work together to ensure all sports facilities are fully inclusive and where appropriate, receive Inclusive Sports Facility (ISF) accreditation.

1. INTRODUCTION

1. Introduction

“ *The Strategy rationale is to develop a framework for the future prioritisation and development of sports facilities.* ”

- 1.1** Newry, Mourne and Down District Council’s Sports Facility Strategy (the ‘Strategy’) provides a framework for the future prioritisation, development and provision of sports facilities at a local level, to meet identified community need.

The Strategy has been developed during a period of significant change in Northern Ireland (NI); the implementation of the Review of Public Administration (RPA), reducing Council areas from 26 to 11 (from 1 April 2015), the introduction of Community Planning as a statutory responsibility of public bodies and the re-organisation and restructuring of Governmental Departments, roles and remit have all taken place, or are in process. The Strategy is therefore both an important means of contributing to the above, but also represents a significant opportunity as a result of these changes.

STRATEGY PURPOSE AND RATIONALE

- 1.2** The purpose of the Strategy is to identify the strategic need for:

Sports facilities in the Newry, Mourne and Down District Council area.

- 1.3** The strategic rationale is to develop a framework for the future prioritisation and development of sports facilities, based on identified need, increasing participation, addressing health inequalities and other local specific factors.
- 1.4** The focus of the facilities analysis has been sports halls of three courts or above (except those on education sites), pools of 20m and above, health and fitness suites of 20 stations and above and full size Artificial Grass Pitches (AGPs), together with other facilities specific to each local area.

- 1.5** The Strategy reflects the wider – NI 10 Year Plan for the provision of Strategic Sports Facility Strategy for Northern Ireland (2015), which focuses on the need for future provision that are of cultural significance, as well as those that provide for high performance training and competition. These facilities contribute to the vision and targets set out within strategic documents such as the Programme for Government (2011-2021), Building a Better Future (2011-2015) and Sport Matters, the Northern Ireland Strategy for Sport and Physical Recreation (2009-2019).
- 1.6** At a local level, the identification of need for sports facility provision is also aligned to the Newry, Mourne and Down District Council Corporate Plan 2015-2019 and the new Community Planning process.
- 1.7** In an environment of unprecedented change for NI and particularly where resources are limited, the need for a Strategic Plan, which identifies priorities for provision and investment at local level, is important.
- 1.8** This Strategy will inform the development of an evidence-based approach to strategic planning for and development of sports facilities at a local level, to optimise their value and benefits. The restructuring of the District Council boundaries (RPA) implemented on 1 April 2015 provides a unique opportunity and some interesting challenges, to instigate and instill an improved strategic culture to sports facility planning in NI.
- 1.9** The Strategy will speak to and engage all stakeholders involved in the planning, development and delivery of sports facilities in Newry, Mourne and Down district, to inform a coherent future approach which will make best use of all available resources.

VISION, AIM, OBJECTIVES

1.10 The vision underpinning the Strategy is:

‘Development of an evidence-based assessment of facility need, which will inform and prioritise future investment in, and development of, a network of high quality sports facilities, addressing the needs for increased community participation in Newry, Mourne and Down District Council’.

1.11 The Strategy aim is to develop a strategic framework for the future provision of sports facilities in Newry, Mourne and Down. This identifies the need for provision and the priorities for investment into sports facilities, informed by evidence of need, consultation with key stakeholders and a supply and demand analysis.

1.12 The Strategy objectives are:

- To identify the existing range of facilities providing at a local level in Newry, Mourne and Down.
- To undertake consultation with strategic stakeholders to identify current and future facility needs and locations.
- To undertake a supply and demand assessment to identify gaps in current provision, plus future needs.
- To develop a facility framework reflecting identified current and future community needs.
- To link this strategic framework where relevant to the network of local sports facilities.

- To develop a set of strategic principles underpinning all future investment in sports facilities.
- To link the identified sports facility needs in Newry, Mourne and Down into the priorities identified at national level, where appropriate.
- To recommend priority investment(s) in sports facility provision in Newry, Mourne and Down.

OUTCOMES

1.13 The Strategy outcomes will be:

- Identification of the future approach required to plan strategically in Newry, Mourne and Down district for the provision of sports facilities at a local level, setting out the principles behind the future approach to provision, partnership, investment and delivery; as well as identifying priorities for new development and refurbishment.
- Identification of clear priorities for investment.

APPROACH TO STRATEGY DEVELOPMENT

1.14 This is one of 11 local council strategies to be developed in the context of the NI-wide work. A consistent approach to developing the local strategies has been undertaken and is summarised below:

- Review of strategic context for example, Community Planning, NI 10 Year Plan for the Provision of Strategic Sports Facilities.

“It is key that these strategies help deliver positive outcomes on an ongoing basis and one of the key benefits of this approach is to provide a legacy to Sport NI.”

- Audit of existing provision with the main focus on pools, halls, health and fitness, grass and AGPs; each local council strategy also identifies any specific facility needs and requirements.
- Development of the Sports Facility Data Hub, which builds on the database established in Bridging the Gap and for the first time, incorporates some data on education facilities.
- Local Consultation – clubs, local authorities, schools, key local stakeholders; it is important to highlight that each local strategy consultation process was designed and developed by the Council, reflecting their knowledge of the area and stakeholders; the consultancy team facilitated the consultation process and analysed the feedback received, which is very different in each of the 11 areas. Some areas had larger responses to focus group consultation than others and conversely, others received significant feedback via telephone and email.
- Analysis of supply and demand.
- Development of evidence of need.
- Identification of key issues, needs, opportunities and challenges for each specific locality and community.
- Strategy Development.

1.15 The quantitative analysis for both national and local strategies is a key element in defining both the current baseline facility supply and whether this meets the current needs of the population, as well as informing future

priorities. The approach to data collection has been to develop a bespoke online database portal that each council and governing body was able to log in to and input or verify information in a structured and prescribed format. Using Sport NI’s Active Places as a basis, this approach enhances the completeness, accuracy and reliability of the data, as well as giving councils ownership of their own information, from which analysis and mapping has been undertaken. A standardised central database also means analysis and benchmarking can take place across authorities, which is particularly relevant when considering cross-boundary supply and usage of facilities.

1.16 It is key that these strategies help deliver positive outcomes on an ongoing basis and one of the key benefits of this approach is to provide a legacy to Sport NI, all the associated national governing bodies and each council. The Data Hub can be used as an ongoing ‘live’ tool through which all stakeholders can maintain and access an accurate, up-to-date audit of facilities, as well as using it as a central point around which facility planning models, national benchmarking and other research projects can be based. Following completion of the strategies the project team intends to work with stakeholders to ensure this tool remains as effective as possible going forward.

1.17 Limitations to the strategic planning work undertaken include:

- The fact that every grass pitch could not be visited and for this reason, these local strategies focus on headline issues/needs with grass pitches.

- Unless information was made available through the consultation process, assumptions have been made about the scale of education facilities ie halls are assumed to be three court unless otherwise stated.
- Education facilities that are available for community use have been identified on a local council area basis, where this knowledge was available, or has been identified through the consultation process.

2. STRATEGY CONTEXT

2. Strategy Context

2.1 A number of important changes in the approach to facility investment and development are required in NI, to ensure there is a strategic rationale behind and informing investment. These changes translate into a number of key

principles (highlighted in the 2015 10 Year NI Plan for the Provision of Strategic Sports Facilities), which should underpin all future facility planning for, investment in and delivery of sports facilities in NI.

FUTURE PRINCIPLES FOR THE PROVISION OF SPORTS FACILITIES (SOURCE: NI SPORTS FACILITY STRATEGY)

Planning for future provision should apply these principles:

KP1. Proposed sports facilities should take account of the Northern Ireland 10 Year Sports Facility Plan 2016 and the 11 associated local council strategies.

KP2. Proposed sports facilities should be collaboratively planned to reduce duplication, displacement and encourage shared use.

KP3. Sports facilities should be appropriately planned and designed to ensure a wide range of users and utilisation.

KP4. Proposed sports facilities should be accompanied by a long-term Sports Development Plan to ensure viability and future sustainability.

KP5. High performance facilities in GB or RoI should be considered when exploring the potential for similar provision in NI.

KP6. Priority should be given to the development/improvement of multi-facility hubs, including the provision of a range of synthetic turf pitches.

KP7. Where possible new and/or improved school sports facilities should be designed and managed in a way that enables community use.

(Source: NI 10 Year Sports Facility Plan 2015)

“ Pitches need to be developed with floodlights to maximise access and usage. ”

- 2.2** The 10 Year NI Sports Facility Plan 2015 sets out a number of recommendations for facilities of NI wide and cultural significance and for those providing for high performance training and competition. The recommendations stress the need for an evidence-based approach to the future planning for sports facilities, based on need, to ensure that investment is strategic and will deliver sustainable provision, benefitting communities across NI.
- 2.3** A number of sports are prioritised based on need, performance to date at international and national level and future potential. Other sports are highlighted for investment should resources become available. The input and partnership of governing bodies will be important in confirming future investment in prioritised sports.
- 2.4** An important recommendation is the identification of the need for a strategically-located, multi-facility hub in each new council area. This aims to address challenges of accessibility to both facilities and critically support services for elite athletes, but also provides the opportunity to consider the development locally of facilities which provide for four to five different sports on one site. These could facilitate increased participation at community level and potentially be more efficient and effective to operate given that revenue costs could be spread across the facility operation and remove the need for duplication of infrastructure, for example, car parking across a number of sites. Given the geography of NI and the existing sports facility infrastructure in place, it is also recognised that for some councils their multi-facility hub already exists, or may be best delivered through a number of linked sites.

- 2.5** Specific recommendations are also made in relation to the future secured community use of sports facilities on education sites, the fact that all 3G/synthetic pitches need to be developed with floodlights to maximise access and usage .

BRIDGING THE GAP- ACTIVE PLACES RESEARCH 2009

- 2.6** Bridging the Gap Active Places Research 2009 and its subsequent update in 2014, have also informed the Strategy and provides the baseline facility database which has been verified and updated as part of this work (using the Data Hub – see paragraph 1.15, page 22).
- 2.7** The 2009, Bridging the Gap Active Places research report, produced by Sport NI, assessed the adequacy of existing sports facility provision (excluding education facilities), in NI’s 26 former district council areas by comparison with National Facility Standards and/or the facility demand of potential users (determined by the Facilities Planning Model (FPM)).
- 2.8** Bridging the Gap established three general findings:
- 1. There is a significant shortfall in sports facility provision in NI.**
 - 2. The deficit in provision is not uniform.**
 - 3. There are a number of areas for concern regarding provision, particularly in relation to quality, quantity, accessibility, condition, universal access and specification.**

2.9 Although Bridging the Gap 2009 identified significant need for sports facilities throughout NI, the research stopped short of identifying where new or refurbished sports facility provision should be developed or located. The Programme for Government, Together Building a United Community, the Corporate Plan of the Department of Culture, Arts and Leisure (DCAL), Sport Matters and Sport NI's Corporate Plan identify a number of government priorities that set the direction for investment in sport and physical recreation, because sport contributes to a range of wider social, economic and cultural needs. Sport improves community health and wellbeing and can contribute to reducing inequalities in child poverty and social deprivation, as well as ensuring equality of opportunity.

2.10 The 2014 Update to Bridging the Gap re-calculated the need for a number of specific facility types, to illustrate progress in developing the sports facility infrastructure in NI; the analysis still identifies a significant shortfall in provision, however, particularly in terms of playing pitches.

2.11 There are a number of other key NI policy documents, which have informed this Strategy. These include:

- Sport Matters: a culture of lifelong enjoyment and success in sport – DCAL and Sport NI (2009).
- Grassroots Sport in Northern Ireland: A summary of participation and potential challenges – Northern Ireland Assembly (2012).
- A Fitter Future For All - Department of Health, Social Services and Public Safety (2012).
- The Economic Importance of Sport in Northern Ireland – DCAL and Sport NI (2008).

- Regional Development Strategy 2035 – Department for Regional Development (2012).
- Your School, Your Club: A Practical Guide to Achieving Community Use of School Sports Facilities – Sport NI (2014).

THE COMMUNITY PLANNING AGENDA AND HOW THIS STRATEGY WILL CONTRIBUTE

2.12 One of the major new initiatives launched to coincide with RPA and one that has expanded council remits, is the introduction of Community Planning at national and local level. Community Planning will provide the new national and local agenda for investment, development and delivery. Sport and physical activity have a critical role in terms of increasing participation, reducing inequalities in community and individual health, contributing to cultural diversity and delivering social cohesion; the need for sports facilities and investment in sporting infrastructure need to be prioritised through the process of Community Planning at a local level.

2.13 A key element of RPA will see the councils given a power of 'general competence'. According to the NI Executive, this power of 'general competence' allows councils to do anything, which they consider is likely to promote or improve the wellbeing of their areas and/or persons in it. In addition, councils have been given Community Planning responsibilities. Community Planning is "A process led by councils in conjunction with partners and communities to develop and implement a shared vision for their area, which relates to all aspects of community life and which also involves working together to plan and deliver better services".

“Sport improves community health and wellbeing and can contribute to reducing inequalities in child poverty and social deprivation.”

“Community Planning can bring benefits in terms of easier to access, better integrated, local services.”

2.14 Councils will have a statutory responsibility to lead Community Planning. Elected members will have an important role in the process, working with the council’s partners to involve local people and communities in the development of the shared vision. Community Planning can bring benefits in terms of easier to access, better integrated, local services; more effective collaboration across the public sector; better use of public resources; higher standards of public service and willingness to innovate and learn from others.

POPULATION GROWTH

POPULATION AND DEMOGRAPHIC CONTEXT IN NORTHERN IRELAND

2.15 The population of NI is 1,810,683 (Census 2011, figures as of June 2014). Annual figures produced by Northern Ireland Statistics Research Agency (NISRA) show that the current population trend in NI is one of growth. This is partly a result of the birth rate being higher than the death rate, resulting in natural population growth, (which since 2000 has averaged over 9,100 per year) and is partly due to net migration, which although this has been net outward migration since 2010, has still contributed to an additional c. 33,500 residents since the turn of the millennium.

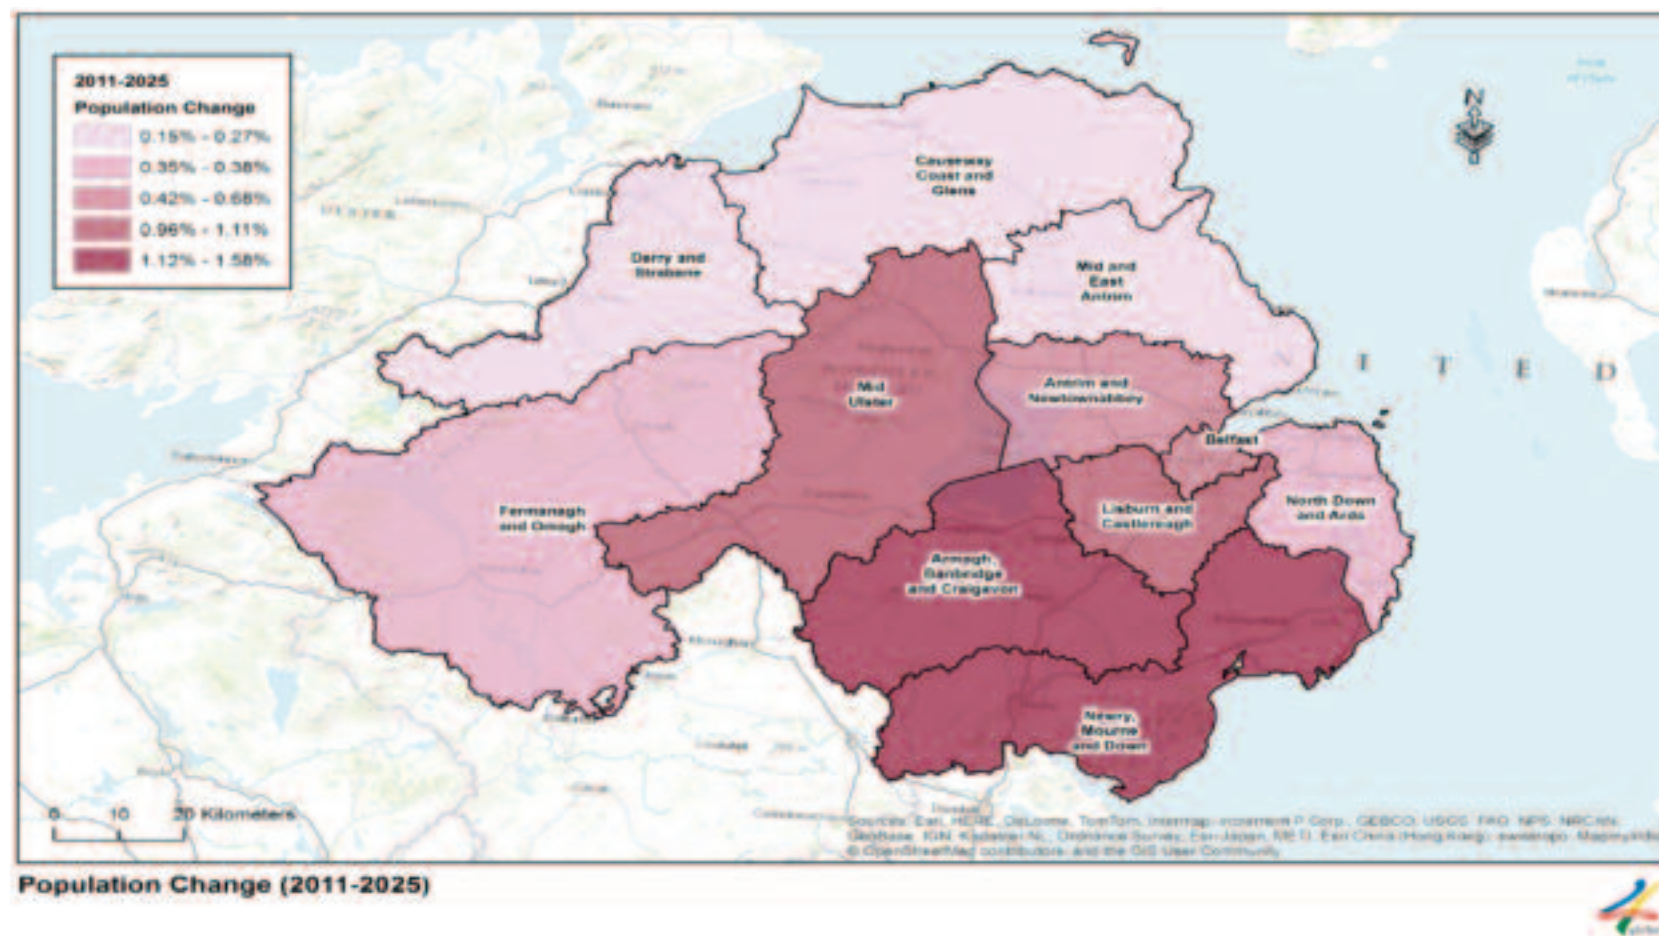

2.16 Over the decade 2012-2022, the population of NI is projected to increase by 5.2 per cent (ie 94,900 people), reaching 1,918,500 people in 2022. The Northern Ireland population is projected to reach 2,000,000 people in 2036.

2.17 An important demographic trend is the ageing of the population, which is evident from several key indicators:

- The growth of the population aged 65 and over (26 per cent) is projected to be substantially larger than that of the remainder of the population (1.5 per cent) in the period 2012-2022.
- The number of people aged 65 and over is projected to exceed the number of children (ie those aged under 16) from mid-2027 onwards.
- The median age is projected to rise from 37.6 years in 2012 to 39.8 years in 2022. (Source: NI Statistical Research Centre (NISRA) October 2014).

2.18 NI population growth is illustrated in Map 2.1.

Map 2.1: Population Change in NI

“It is estimated that the population of Northern Ireland is set to rise above the 2,000,000 mark for the first time by 2036.”

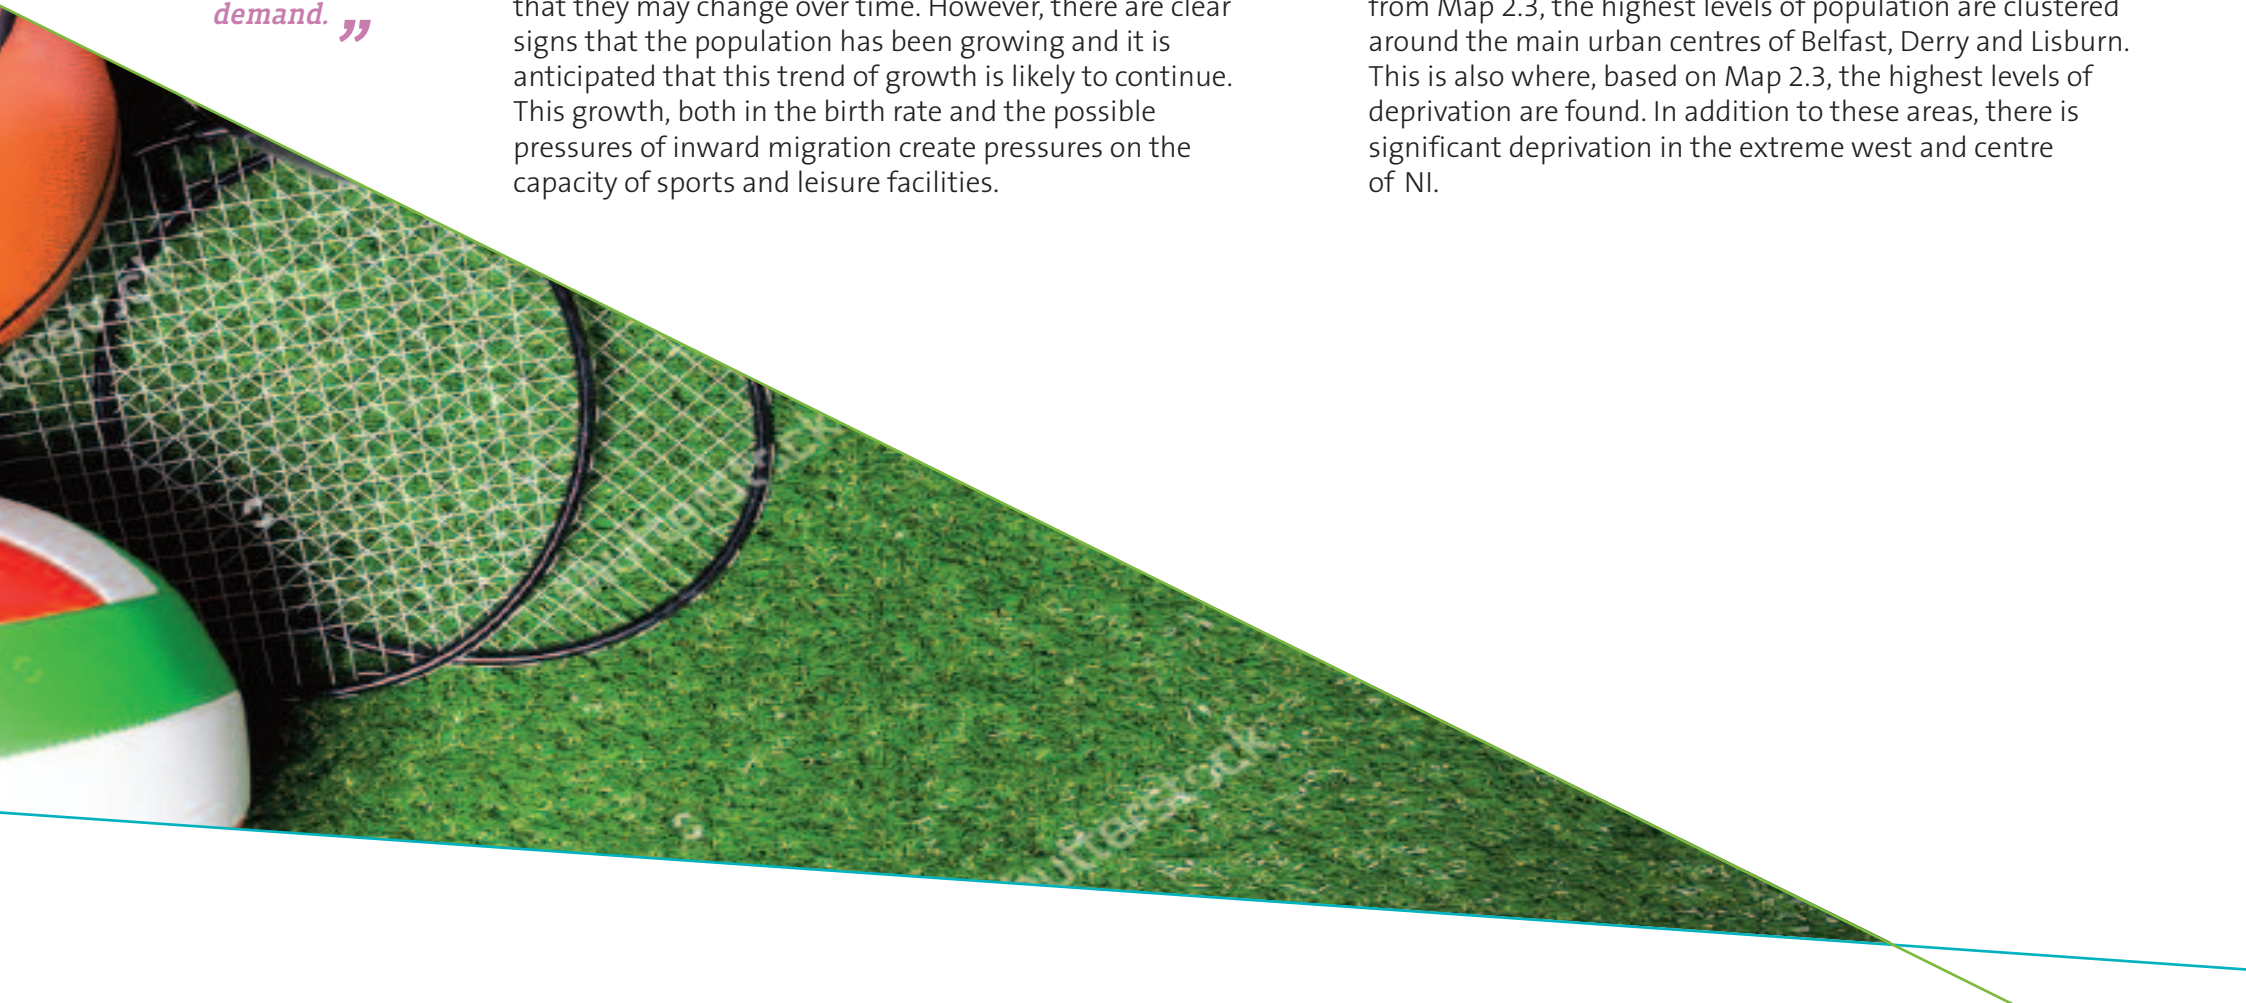

“As the population grows, there is a need to ensure that the NI Sport and Leisure infrastructure is able to cope with ever-increasing demand.”

2.19 The Office for National Statistics (ONS) predicts that this trend of population growth is set to continue. It is estimated that the population of NI is set to rise above the 2,000,000 mark for the first time by 2036, based on current estimates. The ONS predicts that population growth will then reduce, from growing at a rate of approximately 10,000 people per annum, from 2017-2019, to a rate of approximately 5,000 per annum from around 2030.

2.20 It is acknowledged that these figures are just estimates and that they may change over time. However, there are clear signs that the population has been growing and it is anticipated that this trend of growth is likely to continue. This growth, both in the birth rate and the possible pressures of inward migration create pressures on the capacity of sports and leisure facilities.

2.21 As the population continues to increase, inevitably demand will also increase, particularly around the usages of sports pitches and swimming pools – given the evidence that suggests the popularity of sports such as swimming and football. As the population grows, there is a need to ensure that the NI sport and leisure infrastructure is able to cope with ever-increasing demand.

2.22 Map 2.2 illustrates the population density of NI; this is likely to be further intensified as the population grows. As is clear from Map 2.3, the highest levels of population are clustered around the main urban centres of Belfast, Derry and Lisburn. This is also where, based on Map 2.3, the highest levels of deprivation are found. In addition to these areas, there is significant deprivation in the extreme west and centre of NI.

Map 2.2: NI Population Density

Population Density

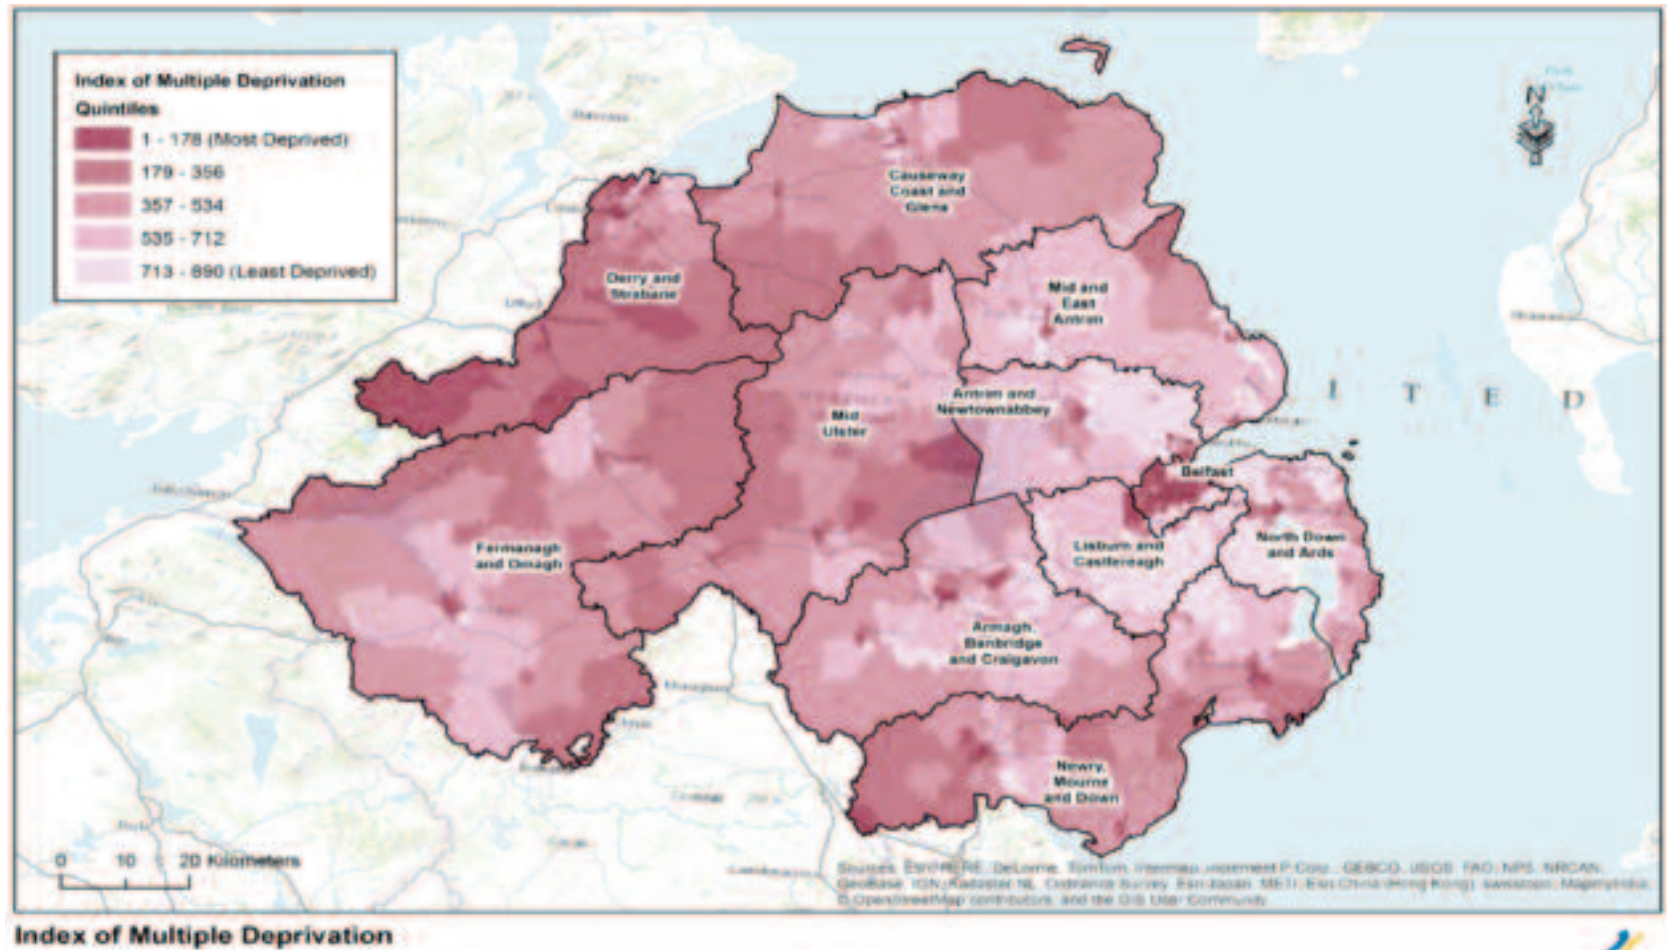

“ The highest levels of population are clustered around the main urban centres of Belfast, Derry and Lisburn. ”

Map 2.3: NI Index of Multiple Deprivation

“The main urban centres of Belfast, Derry and Lisburn is where, based on Map 2.3, the highest levels of deprivation are found.”

LOCAL CONTEXT – NEWRY, MOURNE AND DOWN

- 2.23** Newry, Mourne and Down District Council is the third largest council area in NI. Although primarily made up of the former Newry and Mourne and Down District Council areas, the new Council also includes the electoral ward of Ballyward which transferred from the former Banbridge District Council area.
- 2.24** The District Council covers the southeast of NI including southern County Armagh and large parts of County Down. It incorporates all of the Mourne Mountains Area of Outstanding Natural Beauty and has an extensive coastline stretching from Strangford Lough to Carlingford Lough, and border counties Louth and Monaghan in the Republic of Ireland.
- 2.25** Newry has direct access to the main Belfast-Dublin road and rail routes whilst the A2 dual carriageway runs from Newry to Warrenpoint. Road connectivity within the new district is poor – particularly between Newry and Downpatrick, the two main population hubs.

Map 2.4: Newry, Mourne and Down District Council has seven District Electoral Areas (DEAs).

2.26 The 2015 population estimate for the Newry, Mourne and Down District Council Area is 175,974 (Source: Community Plan Base Line Information). The District Council has seven District Electoral Areas. These area and their population are:

• Crotlieve	25,554
• Downpatrick	22,291
• Newry	28,456
• Rowallane	22,069
• The Mournes	30,843
• Slieve Croob	20,373
• Slieve Gullion	26,388

2.27 The Newry, Mourne and Down area is shown in Map 2.4

2.28 Within the area, Newry (26,893) and Downpatrick (10,874) are the two largest towns accounting for 16% and 6% of the area's population respectively. Newry is defined as a city and Downpatrick as a medium town according to NISRA. The area also has a number of small towns including

Warrenpoint/Burren (8,819), Newcastle (7,743), Kilkeel (6,521) and Ballynahinch (5,715).

2.29 A summary of Newry, Mourne and Down Districts Council's demographic profile is set out in Table 2.1.

Table 2.1: Demographic Summary – Newry, Mourne and Down

Demographic Characteristic	Newry, Mourne and Down
CURRENT POPULATION	Population 175,974 (2015).
FUTURE POPULATION	Population is growing; predicted to 187,800 by 2022 (increase of 8.1% or 14,100 people from 2012) and to 205,000 by 2037 (increase of 18% or 31,300 people from 2012).
POPULATION DENSITY	Low population density at 1.6 people per hectare, but higher than NI average of 1.3 people per hectare.
DEPRIVATION	Is the third most deprived area in NI. The Super Output Areas (SOAs) which rank in the Top 100 most deprived in terms of multiple deprivations include Ballymote (59th), Drumgullion (71st), Ballybot (91st) and Daisy Hill 1 (95th). The least deprived ward is Saintfield with 552.
ETHNICITY PROFILE	1.1% of ethnic minority residents, the fourth lowest level in NI.
AGE PROFILE	Although NI has a younger population overall than England, Wales and Scotland, the population is ageing; older people will become a larger % of the population in the future. The median population age in Newry, Mourne and Down is 36; half of the area's population is older than this and half is younger. Newry, Mourne and Down has one of the youngest populations in NI.
CAR OWNERSHIP	15% of the population has no car; compared with 22.7% of the NI population that has no car; 41.9% of the population has at least one car, compared with 41.38% of the NI population which has at least one car.
HOUSEHOLDS	76% of the population is an owner-occupier; this is a higher level than the NI wide figure of 66.9%.

“ NI has a younger population overall than England, Wales and Scotland. The population is ageing; older people will become a larger % of the population in the future. ”

Demographic Characteristic	Newry, Mourne and Down
EMPLOYMENT	<p>According to annual figures for 2014, at 4.6% the new Council area has the joint third highest percentage of residents on the unemployment claimant count (alongside Causeway Coast and Glens).</p> <p>This represents 5,050 claimants. The NI average for 2014 stood at 4.6%.</p>
HEALTH PROFILE	<p>Has the highest percentage of people who are in very good health (50.32%). 70.1% of people have no long-term health problems, the second highest of all the eleven councils in NI. There are two major hospitals, Daisy Hill in Newry and the Downe in Downpatrick. The challenge is to at least maintain performance in these areas but at the same time tackle high levels of health inequalities as well as anti-social behaviour in areas of disadvantage, poverty and a tradition of dependency.</p>
OBESITY LEVELS	<p>In common with the rest of the UK, rates of adult and childhood obesity are increasing; the new Health Survey for Northern Ireland 2013/14 showed that 61% of adults were either overweight (37%) or obese (24%)</p>

(Source: LCCC Corporate Plan 2015-17; NI Assembly Research and Information Service Research Paper Local Government Districts 2014 (based on Census 2011, information as at 09.06.14) and NISRA Statistical Bulletin, Theme Population October 2014)

2.30 Key statistics relating to the future population of the area include:

- The total population is projected to increase to 191,282 in 2025 and to 205,000 in 2037.
- The number of children (ie those aged under 16) is projected to increase from 39,740 in 2015 to 41,924 in 2025 and then to reduce slightly in 2037 to 40,811.
- The working age population is projected to increase from 109,777 in 2015 to 117,398 in 2025 and then to increase to 121,102 in 2037.

- The number of those aged 65 and over is projected to increase from 28,378 in 2015 to 32,511 in 2025 and to 42,358 in 2037.

2.31 It is clear from the above population data that Newry, Mourne and Down has a growing, if ageing, population, the majority of whom are in good health. Most people are in employment and own their own home, however, there are areas of deprivation. Levels of car ownership are high, which means that the population is mobile. The number of those under 16 is set to increase, as will the number of older people; both age groups will need to be catered for in terms of access to opportunities to be physically active.

“ Motivations change as young people grow up, with health, fitness and looking and feeling good becoming more important. ”

2.32 These factors point to a community which is, in the main, able to access sports facilities and opportunities to be physically active. The fact that the population is ageing has some impact on the type of activities in which people choose to be involved. For older people access to opportunities for physical activity may be more important than simply the provision of sports facilities. For young people and those in their later teens to early 30s, access to good quality, accessible indoor and outdoor sports facilities may be more of a priority. Growing obesity levels suggest there is a need to facilitate increased participation and to ensure availability of quality sports facilities, which are both affordable and accessible to the local community. It will be important to ensure that communities have equal access to sports and leisure facilities to ensure that levels of obesity do not continue to show significant increases.

2.33 The context and environment in which young people have grown up is different to previous generations. Some change in delivery is required just to maintain levels of interest in sport amongst each new generation. Technology is an integral part of young people's lives, they do not separate online and offline activities. Sporting activities need to reflect this.

2.34 Young people's behaviour does not always reflect their attitude to sport. We need to focus on changing behaviours not attitudes. Many young people feel positive about sport but are not necessarily looking to take part; for them, sport and physical activity needs to be more visible and accessible, with stronger reminders of their positive associations. Other young people are uninterested in sport but find wider reasons to take part. Promoting the benefits they are looking for is more effective; selling sport as fun does not resonate with them.

2.35 For many, there is a shift in teenage years towards taking part for more functional or lifestyle reasons. Motivations change as young people grow up, with health, fitness and looking and feeling good becoming more important. The shift towards fitness-related activities is occurring at an earlier age than previously. We need to keep engaging and providing feedback to young people, particularly girls, on what actually matters to them, not what matters to sport.

2.36 Do not underestimate passive participation. Playing sport is a passive act for many young people who are carried along by what their friends/family are doing or what is happening in their educational setting. As they grow up more proactive choices are required. Sport therefore has to compete or connect to other interests and priorities.

2.37 Leveling the playing field can help to overcome the emotional baggage of sport. Young people with negative associations, driven by previous experiences and a perceived lack of competence, are more likely to have a narrower definition of sport focused on traditional, competitive activities. New or unusual sports or different positioning can provide more of a level playing field. Whilst the activity can be sport, the message that sells it does not have to be.

2.38 Young people are seeking meaningful experiences. There needs to be reasons for young people to keep coming back to make sport a habit which benefits them as an individual, reinforces their place in their social group or helps them develop themselves.

2.39 The supply of sport tends to reach those who are already engaged. There is a need for a broader offer which meets more diverse needs to break the norms of sport participation.

2.40 As the population continues to grow, demand for access to quality sports facilities will increase. The opening of facilities on education sites to create a greater level of public access could facilitate increased levels of participation in sport and physical activity, which could contribute to reducing health inequalities (see guidance set out in Your School, Your Club).

CORPORATE PLAN

2.41 The 2015-2019 Corporate Plan sets out the Council's priorities for the local area. These are:

- 1. Becoming one of the premier tourism destinations on the island of Ireland.**
- 2. Attracting investment and supporting the creation of new jobs.**
- 3. Supporting improved health and wellbeing outcomes.**
- 4. Protecting our natural and built environment.**
- 5. Lead the regeneration of our urban and rural areas.**
- 6. Advocate on your behalf specifically in relation to those issues which really matter to you.**
- 7. Empower and improve the capacity of our communities.**
- 8. Transform and modernise the Council, providing accessible as well as value for money services.**

2.42 The Council's mission is to:

“Lead and serve a district that is prosperous, healthy and sustainable.”

2.43 Priority 3, ***supporting improved health and wellbeing outcomes*** highlights the Council's commitment to replace the two existing leisure centres in Newry and Downpatrick, and to develop targeted programmes to tackle obesity and diabetes, promote increased physical activity levels and implement a Leisure Facilities and Play Strategy.

COMMUNITY PLAN

2.44 Local councils now have a responsibility to bring together communities, agencies and other statutory partners to work in a co-ordinated way and to devise a Local Area Plan; the Local Area Plan should act as a blueprint for effective integrated service delivery and ultimately bring about real improvements in all aspects of life in Newry, Mourne and Down.

2.45 To inform the development of the Newry, Mourne and Down Community Plan, a community questionnaire 'Have Your Say, It's Your Future' was promoted for the community to complete and nine community engagement meetings were held in 2015, to establish the partnership basis for the Plan, engage communities and identify their views on local priorities and needs.

2.46 The draft Community Planning vision is:

“Newry, Mourne and Down is a place with strong, safe and vibrant communities where everyone has a good quality of life and access to opportunities, choices and high quality services which are sustainable, accessible and meet people’s needs.”

2.47 There were seven more public engagement events during February and March 2016.

2.48 The Community Planning consultation to date has already identified:

- The value and importance of sport and physical activity as part of everyday life.
- The opportunity to develop more integrated transport routes which facilitate physical activity.
- The value and importance of the natural environment to physical activity and sport.

OTHER RELEVANT STRATEGIES

ECONOMIC, REGENERATION AND INVESTMENT STRATEGY 2015

2.49 The Economic, Regeneration and Investment Strategy Mission is:

“Newry, Mourne and Down District Council will be recognised as a vibrant, dynamic and connected region of enterprise and economic growth; a place of sustainable natural beauty and a premier tourist destination, encompassing excellence in culture and arts and enabling and creating opportunities for all”.

2.50 The Strategy is developed around five themes:

- 1. Economic Development.**
- 2. Tourism Development, Marketing, Promotion and Events.**
- 3. Urban Development and Regeneration.**
- 4. Rural Development and Regeneration.**
- 5. Arts, Culture and Heritage.**

2.51 The priorities of the Strategy are:

Economic Development

- To support job creation through growth of the indigenous business base.
- To advance employability and skills within the region.
- To enhance cross-border and transnational business development links.
- To increase inward investment into the region.
- To establish effective business networks.
- To influence the establishment of effective and business friendly approaches to the planning process.

Tourism Development, Marketing, Promotion and Events

- To become the destination of choice in NI.
- To become NI's premier outdoor/adventure destination.
- To become one of NI's finest events destinations.

2.52 The Strategy picks up on two of Newry, Mourne and Down's strengths:

- Outstanding natural beauty of the area.
- Availability of wide range of outdoor activities.

2.53 The Council is currently developing a Play Strategy at the same time as the Sports Facility Strategy. Both strategies should take cognisance of each other and be aligned to Corporate and Departmental Plans.

3. THE OVERALL PICTURE OF FACILITY PROVISION

3. The Overall Picture of Facility Provision

3.1 The important role that sport and physical activity plays in today's society and that the equitable availability of accessible, high quality sport and leisure provision can enhance the quality of life, health and well-being of the local community is recognised in the Newry, Mourne and Down District Council Corporate Plan.

3.2 There is a wide range of existing built sports facilities in Newry, Mourne and Down provided through the public, private and voluntary sectors, as summarised in Table 3.1. The full audit of facilities is provided in Appendix 2 and on a facility by facility basis (for the main types ie sports halls, swimming pools, fitness suites and all weather grass pitches) in section 4.

Table 3.1: Summary of Existing Sports Facilities – Newry, Mourne and Down

Facility Type	Newry, Mourne and Down
ACTIVITY CENTRES	Tollymore National Outdoor Centre, Newcastle, East Coast Outdoor Activity Centre, Acton Adventures, Greenhill YMCA, Newcastle, Peak Discovery, Life Adventure Centre Castlewellan, Rock and Ride Kilcoo Newry, Flagstaff Adventures Newry. Numerous walking trails, cycling and fishing facilities. Bluelough Adventure Centre
ALL WEATHER PITCHES	9 3G Rubber Crumb Pitches, 9 Sand filled and 1 shale All Weather Pitches
ATHLETICS TRACK	St Colman's College Newry – Six lane athletics track with field events
BOXING CLUBS	18 Boxing Clubs
GOLF COURSES	17 Golf Courses
GRASS PITCHES	58 Grass Pitches (Soccer and Gaelic)
HEALTH AND FITNESS SUITES	18 Fitness Gyms with 20 fitness stations or more
INDOOR BOWLS RINKS	0
MOTOR SPORTS FACILITIES	4 sites
OUTDOOR BOWLS GREENS	12 outdoor bowls club sites

Facility Type	Newry, Mourne and Down
SPORTS HALLS	13 sites with 3 badminton court halls or more
SQUASH COURTS	3 facilities – Newry Sports Centre (2 courts), Down Sports Centre (2 courts) and Kilkeel Sports Centre (1 court)
SWIMMING POOLS	Local Council swimming pools Down Leisure Centre, Newry Leisure Centre and Kilkeel Leisure Centre. There is the Tropicana Outdoor Pools in Newcastle (leisure pools open July and August).
TENNIS INDOOR CENTRE	0
TENNIS COURTS OUTDOOR	Downpatrick Tennis Club – 4 bitmac courts (Down High School), fenced no floodlights, Newcastle Tennis Club - 4 polytop all-weather, fenced and floodlit, Warrenpoint Tennis Club -3 bitmac courts, Newry Tennis Club – 4 polymeric courts, plus Mourne Esplanade Kilkeel (3 courts), Kilbroney Park Rostrevor (2 courts) and Annalong Tennis Court (1 court).
WATER SPORTS FACILITIES	10 sites offer water sports

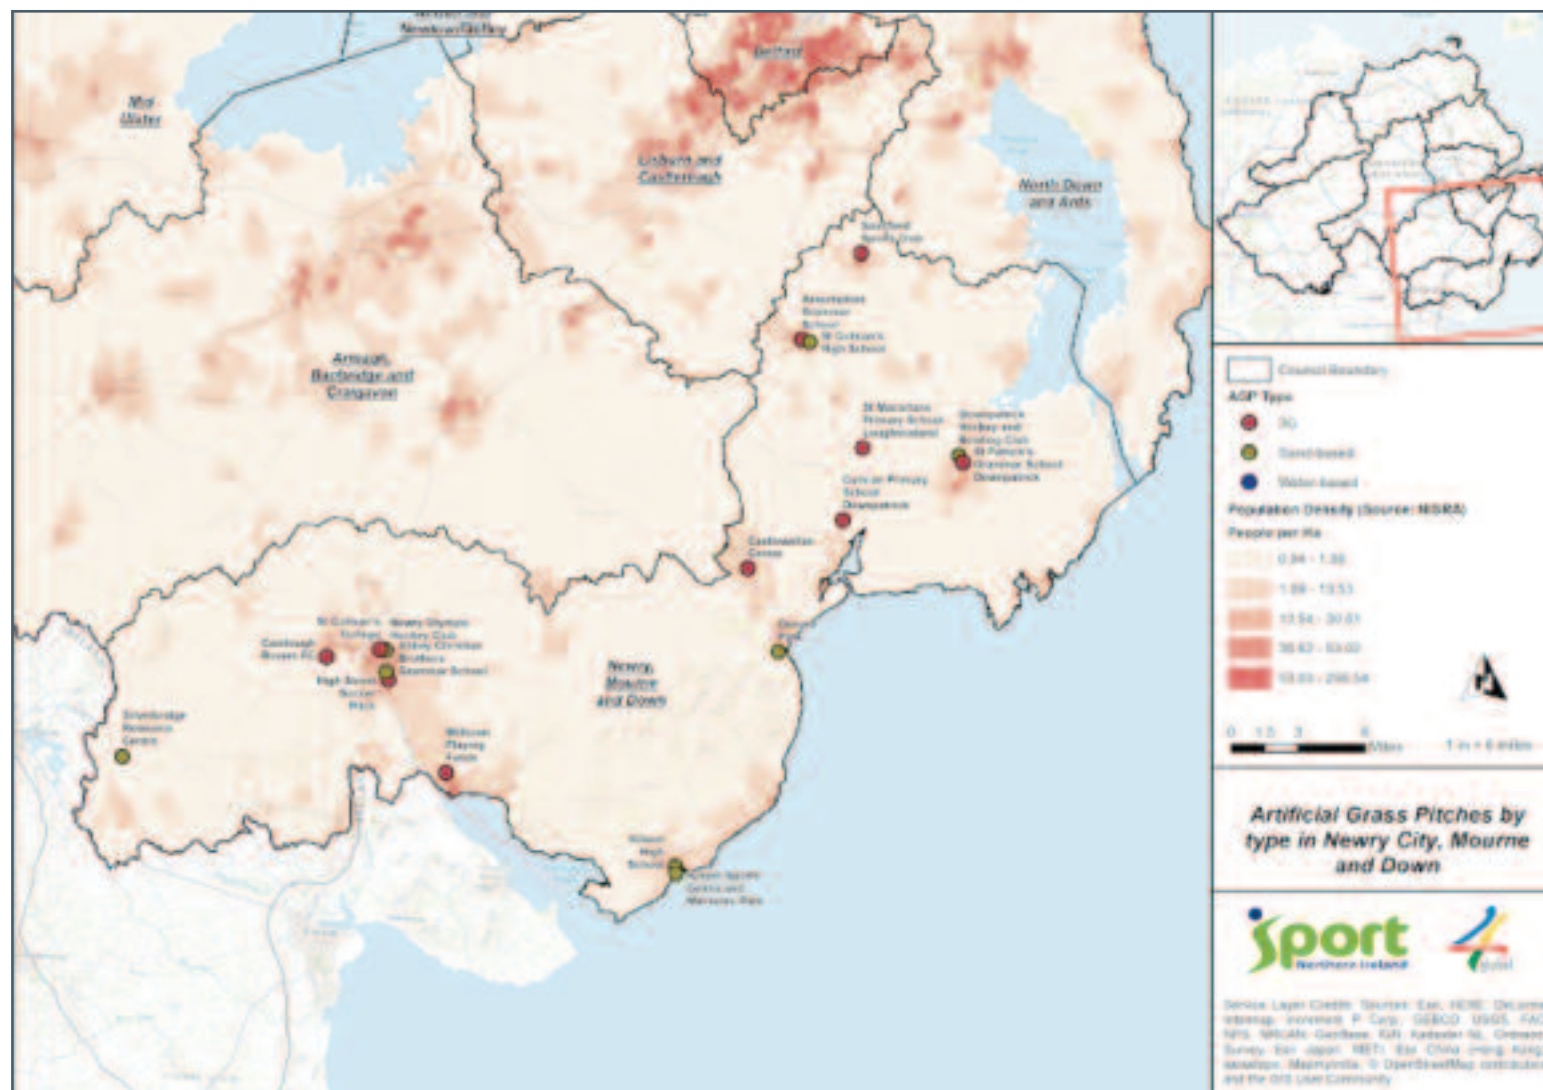

3.3 Maps 3.1 – 3.4 show the locations of the existing sports halls, swimming pools, fitness suites and AGPs in Newry, Mourne and Down.

[illegible]

[illegible]

Map 3.4: Newry, Mourne and Down – AGPs

- 3.4** Newry, Mourne and Down is a superb walking destination, offering a wide range of walks that cater for a broad range of fitness, ability and experience, from flat easy coastal routes to testing slopes and mountains. The Mountains of Mourne and the Ring of Gullion areas provide an outstanding backdrop for walkers of all types. The Mourne International Walking Festival in June and the Wee Binnian Walking Festival in September offer a wide variety of walks ranging from excellent roads and track walls to guided mountain rambles and hikes. Equally there are a number of cycle ways.
- 3.5** There are many facilities offering a wide selection of activities in the Mournes and Ring of Gullion area. These range from climbing, coasteering and bouldering, high ropes and zip lines to mountain biking, orienteering and archery. The NI National Outdoor Centre is based at Tollymore.
- 3.6** Both the Mournes and Ring of Gullion areas have many lakes and rivers which offer some of the best waters for game and coarse angling.

PARTICIPATION

- 3.7** The Sport Matters Progress Report October 2013 - September 2014 highlights the partnership working between Sport NI and local councils to increase participation following the 2010 Sports Association Audits Reports (SAPAS). The report highlights that 54% of the NI population took part in sport and physical activity once in the last 12 months (2013/14), a rise of 9% from 2008/09; 48% of adults took part in sport and physical activity once in the last week (2013/14), a rise of 11% from 2008/09 and participation rates for women have risen from 30% (2010) to 40% in 2013/14.
- 3.8** 36% of the Newry, Mourne and Down population participate in 5 x 30 minutes of sport/physical activity per week (Source: SAPAS 2010). There is higher participation by males than females. Participation levels are likely to have increased as a result of the Active Communities Programme (due to finish in 2016). A summary of the 2010 SAPAS Research on participation in sport and physical activity in NI is set out in Table 3.2:

Table 3.2: Summary of 2010 SAPAS Research and the Sport Matters Report Update 2013/14

Participation Measure	SAPAS 2010 Report – Newry, Mourne and Down	Sport Matters Report Update 2013-2014 NI Wide
5 X 30 minutes of sport and physical activity per week	36%	35%
Participated in sport in last seven days	33%	37%
Satisfaction with sports facilities	50%	62%

“ The new Sports Association has the opportunity to make a substantial impact on at least two of the eight priorities in the Council’s Corporate Plan. ”

- 3.9** Based on Table 3.2 participation levels in are higher than, the NI average. Although relatively high at 36%, this still means 64% of people in Newry, Mourne and Down are not active enough to have any health benefits.
- 3.10** Implementation of the Active Communities Programme in Newry, Mourne and Down (in partnership with SNI), has created more opportunities to be physically active and resulted in increased levels of participation.
- 3.11** The Sports Development Coach Education programme increases opportunities for participation through improved coaching and building club capacity.

SPORTS ASSOCIATION NEWRY, DOWN AND SOUTH ARMAGH (SANDSA)

- 3.12** The main purpose of SANDSA is to promote the development of sports by providing community sports clubs with funding opportunities. Community sports clubs will be encouraged to seek independent accreditation for their club while aiming to provide or secure the provision of educational, training and recreational programmes. SANDSA will also work towards advancing the physical education of our citizens throughout the district, especially amongst young people while also raising awareness

among the general public about the opportunities for improving their quality of life and reducing health inequalities through a range of programmes and services.

- 3.13** It is about empowerment, capacity building and working in collaboration with a diverse range of agencies to achieve outcomes which are beneficial to the sporting community. Sports clubs will have the opportunity for their voice to be heard through SANDSA on the stakeholder engagement forum and be part of the Community Plan for Sport in Newry, Mourne and Down.
- 3.14** The new Sports Association has the opportunity to make a substantial impact on at least two of the eight priorities in the Council’s Corporate Plan, by improving health and wellbeing outcomes and advancing the capacity of our communities by promoting leadership and responsible community ownership of programmes.
- 3.15** Membership of the SANDSA will be open to any community based amateur sports club who is registered with their governing body. In addition to club membership, the group will also contain Elected Members.
- 3.16** The Council works with a large number of sports and national governing bodies of sport. There are 55 activities with a separate governing body. These are listed below:

Activity	Governing Body
Angling	Ulster Angling Federation Ltd
Archery	NI Archery Society
Athletics	Athletics NI
Badminton	Ulster Branch Badminton Union of Ireland
Basketball	Basketball NI

Activity	Governing Body
Billiards and Snooker	NI Billiards and Snooker Association
Boccia	GB Boccia
Bowls	Irish Bowling Association
Boxing	Ulster Provincial Boxing Council
Camogie	Ulster Camogie Council
Canoeing (Sea Kayak)	Canoe Association of NI
Chinese Martial Arts	NI National Chinese and Associated Martial Arts Association
Cricket	Cricket Ireland
Cycling	Cycling Ulster
Darts	Northern Ireland Darts Organisation
Disability Sport	Disability Sport NI
Equestrian	Horse Sport Ireland
Exercise and Fitness	Fitness NI
Dance	Dance Sport NI
Fencing	NI Fencing Ltd
Football	Irish Football Association
Gaelic Games	Ulster Council GAA (Handball, Football and Hurling)
Golf	Ulster Branch Irish Golfing Union
Gymnastics	Gymnastics
Handball (Olympic)	The Irish Handball Association
Hockey	Ulster Hockey
Judo	NI Judo Federation
Ju-Jitsu	NI Ju Jitsu Association

Activity	Governing Body
Karate	NI Karate Board
Kickboxing	British Kickboxing Council
Life Saving	Royal Life Saving Society, Ulster Branch
Motor Sports	2+4 Wheels Motorsport Ltd
Mountain Biking	Cycling Ulster
Mountaineering	Mountaineering Council for Ireland
Muay Thai or Thai Boxing	International Federation of Muaythai Amateur (Art of Eight Limbs)
Netball	Netball NI
Orienteering	NI Orienteering
Pool	Northern Ireland Pool Association
Quad Racing	United Quad Racing Ireland
Rambling	Ulster Federation of Rambling Clubs
Rowing (Coastal)	Rowing Ireland Ulster Branch
Rugby Union	Ulster Branch Irish Rugby Football Union
Sailing	Royal Yachting Association NI
Shooting	Northern Ireland Shooting Federation
Special Olympics	Special Olympics Ireland
Squash	Ulster Squash
Swimming	Swim Ulster
Table Tennis	Ulster Branch Irish Table Tennis Association
Taekwondo	Taekwondo Association of NI
Tennis	Ulster Branch Tennis Ireland
Triathlon	Triathlon Ulster
Tug of War	NI Tug of War Association
Volleyball	NI Volleyball Association
Water Skiing	Irish Water Ski Federation (NI Sub Committee)
Yoga	Yoga Fellowship of Northern Ireland

3.17 The Council also supports a wide range of minority sports such as BMX and also works with a number of disability sports clubs and organisations.

4. ASSESSMENT OF DEMAND

4. Assessment of Demand

4.1 This Strategy focuses on an assessment of the main community sport facility types:

- **Sports Halls**
- **Swimming Pools**
- **Fitness Suites**
- **AGPs.**

4.2 An assessment of each facility type (supply, location, accessibility, demand) is set out in the rest of this section. Stakeholder consultation feedback (local clubs, schools, Governing Bodies (GBs), Newry, Mourne and Down District Council Officer and elected member feedback is reflected in relation to each facility type.

4.3 Consultation feedback on other facility issues/needs is summarised at the end of this section (paragraph 4.49).

4.4 It is important to highlight that assessing the demand for sports facility provision in Newry, Mourne and Down means treating the district as an 'island': the district's population is assessed for the level of demand it generates for sports facilities. In reality, given the scale and geography of NI and the fact that people do not live by red border lines on a map, residents access facilities in neighbouring authorities. Therefore, any quantitative under supply needs to be considered very carefully; the consultation undertaken for this Strategy has raised specific issues regarding a lack of provision or quality of provision:

- Access to education-based facilities - sometimes difficult.
- Poor pitch quality (grass pitches) soccer, rugby, gaelic sports, hockey (shale pitches).
- Changing rooms (outdoor) poor quality .
- Need to improve tennis facilities.
- Need for accessible athletics facilities.
- Not always necessary to new build, consider refurbishment.
- Clubs and organisations need capacity building and guidance on how to apply for funding.
- There is a need to explain the benefits of partnership working and what outcomes can be achieved by partnership working.

SPORTS HALLS - SUPPLY

4.5 The supply of sports halls considers secured and unsecured community use. In considering secured community use these are facilities which are in the ownership of the local authority and are open for the general public to use. Unsecured community use are facilities that are within the private, voluntary and education sector that are not fully secured for community use unless a formal community use agreement has been set up with the local authority.

“ The consultation undertaken for this Strategy has raised specific issues regarding a lack of provision or quality of provision. ”

4.6 Only sports halls with three badminton courts or more are included in this analysis. Sports halls with lower numbers of badminton courts are not deemed to be able to cater for basketball indoor five-a-side etc.

4.7 There will be sports halls once building work is complete in Newry, Mourne and Down, based on nine sites (two halls will be provided at the new Newry Leisure Centre, an eight court hall and a four court hall). Together these sports halls will provide a total of 36 badminton courts.

Facility Name	Description - Number of Badminton Courts	Ownership	Operational Management	Community Access
BALLYMOTE SPORTS AND WELLBEING CENT	4	NMDDC		Yes
BALLYNAHINCH COMMUNITY CENTRE	3	NMDDC		Yes
BRIDGE CENTRE	3	NMDDC		Yes
CASTLEWELLAN COMMUNITY CENTRE	4 (to be built)	Community Group		Yes
DOWNPATRICK LEISURE CENTRE	4 (to be built)	NMDDC		Yes
KILKEEL LEISURE CENTRE	3	NMDDC		Yes
NEWRY LEISURE CENTRE	8 (to be built)	NMDDC		Yes
NEWRY LEISURE CENTRE	4 (to be built)	NMDDC		Yes
SAINTFIELD COMMUNITY CENTRE	3 (committed to be provided)			Yes
TOTAL	36 COURTS			9 SECURED COMMUNITY ACCESSIBLE SPORTS HALLS

ACCESSIBILITY

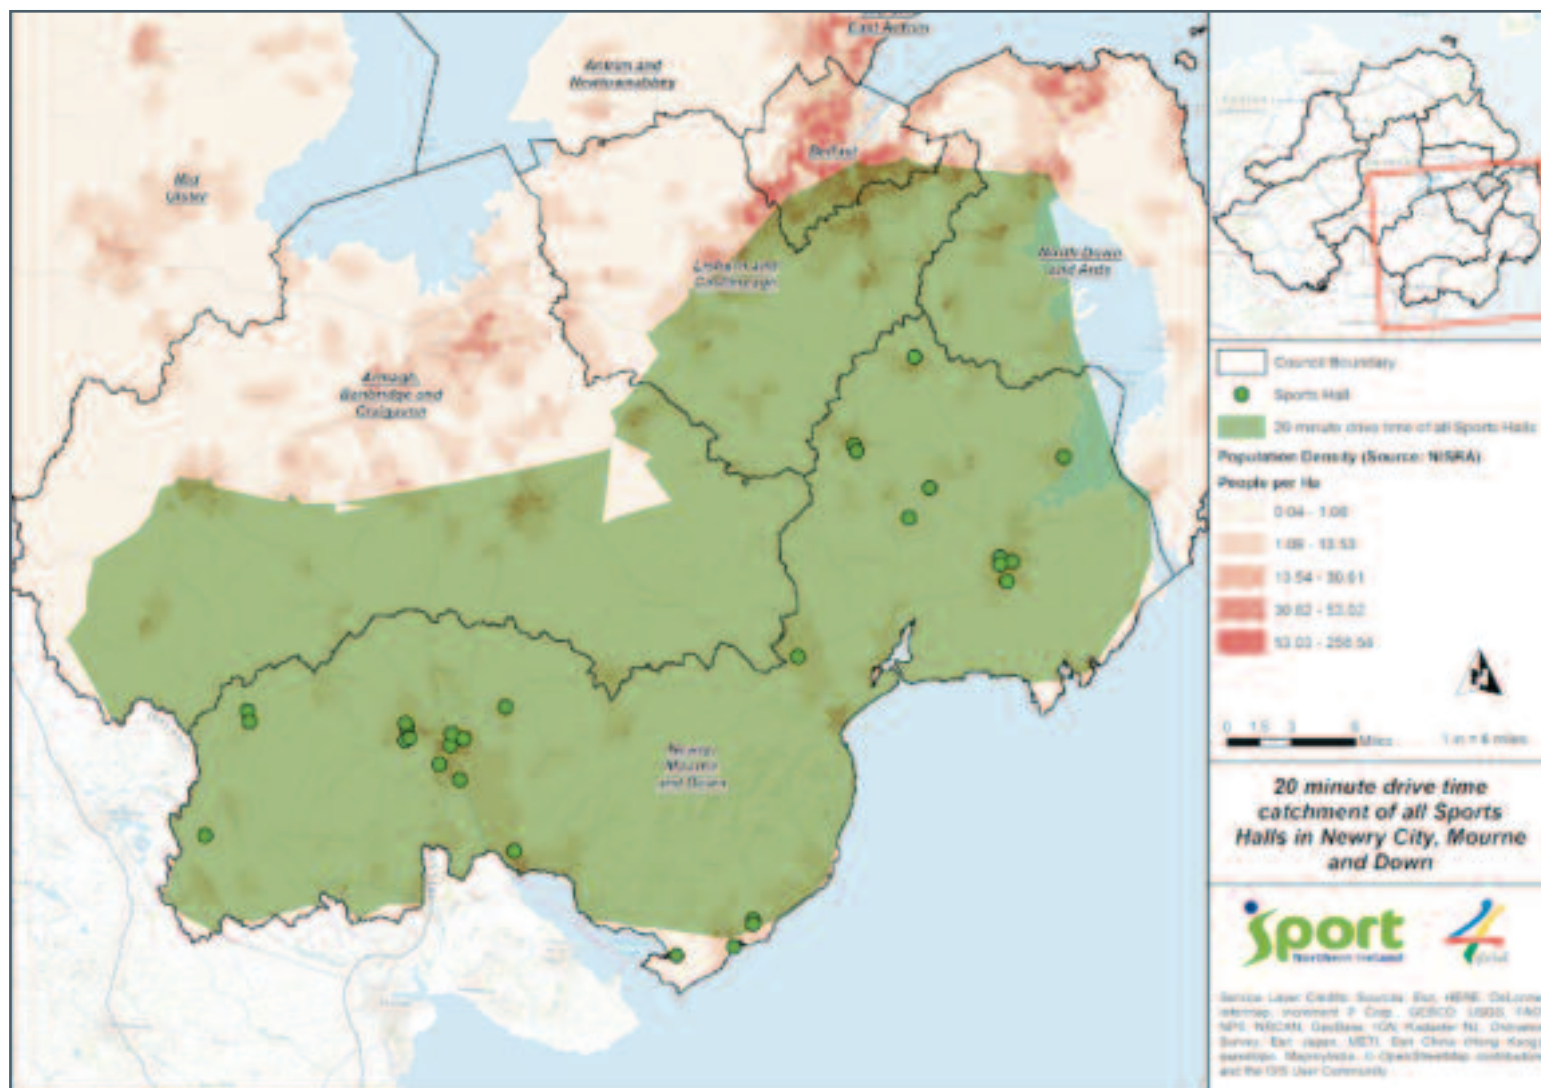

4.8 Map 3.1, (section 3), shows all the existing sports halls in Newry, Mourne and Down including education, private and voluntary sector facilities. Map 4.1 illustrates the locations of all the existing sports halls and highlights that virtually the whole of Newry, Mourne and Down is within a 20 minute drive time of a sports hall. It is also important to highlight that there is some overlap with facilities in Lisburn and Castlereagh, North Down and Ards and Armagh, Banbridge and Craigavon, given the geography of the area.

4.9 It should also be highlighted that from accessibility point not all small village areas will require a three or four court sports hall facility but a smaller one or two court facility where other physical activity can take place. A recommendation is that there is a hierarchy of facility provision for sports hall space provided across Newry, Mourne and Down dependent on size of community.

4.10 There is a need to replace the Newcastle Centre in the future and securing sports hall provision should be considered along with ancillary facilities to cater for activities that currently take place when funding becomes available in the future.

Map 4.1: Sports Halls in Newry, Mourne and Down with 20 Minute Catchment Drive Time (Four Court Halls only)

SPORTS HALLS - DEMAND (NUMBER OF BADMINTON COURTS)

4.11 Bridging the Gap 2009 and 2014 Bridging The Gap Update highlight the following for sports halls in Newry, Mourne and Down:

4.12 Table 4.2 shows that when education sports halls are excluded in the 2009 and 2014 Bridging the Gap there was a requirement for 13 additional badminton courts in 2014.

Area	Projected Population 2011	UNMET Demand - Visits Per Week	2009 Existing Courts	2009 Badminton Courts Required	2014 Existing Courts	2014 Badminton Courts Required
Down	69,189	2,975	10	8	10	8
Newry and Mourne	95,325	533	17	8	20	5
TOTAL			27	16	30	13

4.13 In 2009 the ratio of required bad courts per 1,000 of population in Newry and Mourne was 25 (Badminton courts required 17 + 8) ÷ 95,325 (population census data 2011) = 0.0056 x 1,000 = 0.26 bad courts per 1,000 population.

4.14 In 2009 the ratio of required badminton courts per 1,000 population in Down was 18 (Badminton courts required 10 + 8) ÷ 69,189 (population census data 2011) = 0.00026 x 1,000 = 0.26 bad courts per 1,000 population.

4.15 Based on the number of required courts of 0.26 badminton courts per 1,000 population you can project what the requirements are for the future.

4.16 The requirements for Newry, Mourne and Down in 2016 are, population of 179,136 (Source NNIS SNPP12 SYA) ÷ 1,000 = 179.136 x 0.26 = 47 (rounded).

4.17 The requirements for Newry, Mourne and Down in 2037 are 204,971 ÷ 1,000 = 205 x 0.26 = 53 rounded.

4.18 Newry, Mourne and Down have planned and committed to providing 36 badminton court sports hall spaces in secured community use. This leaves a deficit of 10 badminton court secured sports halls in 2016 and 17 badminton court secured sports halls in 2037.

4.19 When taking into consideration the number of badminton court sports halls that are provided in education establishments. These are shown in Table 4.3 and identify 46 badminton courts. The amount of sports halls leads to a recommendation to ensure that Newry, Mourne and Down have community use agreements in place with schools. This would eliminate any need for additional sports hall space in the future to 2037.

Table 4.3 Sports Hall Provided at Education Establishments

Facility Name	Description - Number of Badminton Courts
ABBEY CHRISTIAN BROTHERS GRAMMAR SCHOOL, NEWRY	4 Badminton Courts
ASSUMPTION GRAMMAR SCHOOL, BALLYNAHINCH	4 Badminton Courts (community use through school)
DE LA SALLE HIGH SCHOOL, DOWNPATRICK	3 Badminton Courts
DOWN HIGH SCHOOL, DOWNPATRICK	4 Badminton Courts planned for the future
NEWTOWNHAMILTON HIGH SCHOOL	3 Badminton Courts
OUR LADY'S GRAMMAR SCHOOL, NEWRY	3 Badminton Courts
SOUTH EAST REGIONAL COLLEGE, DOWNPATRICK	4 Badminton Courts
ST COLMAN'S COLLEGE, NEWRY	4 Badminton Courts
ST MALACHY'S HIGH SCHOOL, CASTLEWELLAN	3 Badminton Courts
ST MARK'S HIGH SCHOOL, WARRENPOINT	3 Badminton Courts
ST PATRICK'S GRAMMAR SCHOOL, DOWNPATRICK	4 Badminton Courts
ST PAUL'S HIGH SCHOOL, BESSBROOK	4 Badminton Courts
ST RONAN'S HIGH SCHOOL, NEWRY	3 Badminton Courts
TOTAL	46 COURTS

Map 4.2: Courts Unmet and Met Demand

CONSULTATION FEEDBACK

4.20 Consultation was undertaken with local clubs, schools, GBs and Newry, Mourne and Down District Council to inform this Strategy. Stakeholder consultees are listed in Appendix 1.

Specific issues raised in relation to sports hall provision in Newry, Mourne and Down:

- Lack of community access to secondary school sports facilities.
- The need for a purpose-built trampolining facility and dedicated gymnastics facility in Newry.
- Need for accessible basketball and netball indoor facilities in Newry.
- Down GAA – Would require a sports hall as part of a centre of excellence in Newry, Mourne and Down.
- Sports Hall required at Derryleckagh Playing Fields.
- St Peter's GAA and St Mark's High School, Warrenpoint are working in partnership to create a sports hub and have the school sports hall open to the community.
- There are opportunities to ensure full community use of the new Down High School Sports Hall in the future.
- Newcastle – Consultation identified the need for a four court sports hall, fitness suite, health and wellbeing offices, swimming pool (likely tourist friendly) outside floodlit synthetic pitch and bowling green – preferred site Girls' School, Shan Slieve Drive.
- St Colman's High School, Ballynahinch has identified a very real need for a sports hall to complement the training and playing requirements in the Ballynahinch area. St Colman's has undertaken, with the Council for Catholic Maintained Schools (CCMS) and the Department of Education, architectural plans and a preliminary feasibility study. The school does have a designated area adjacent to the existing 2G floodlit pitch that could accommodate such a facility.
- Castlewellan Wheelchair Rugby Club require an indoor home venue and will be speaking to the Castlewellan Partnership re: the use of the Partnership's new sports hall.

4.21 The eight court sports hall at the new Newry Sports Centre will accommodate accessible basketball and netball and provide a pit for dedicated gymnastics and trampolining.

4.22 Additional consultation was undertaken with Newry, Mourne and Down Councillors. This highlighted the following:

- The need for a change of thought from the education authority about community use of sports halls within schools.
- With a dispersed population there is an issue with access from rural areas depending on where the sports halls are located.
- There is a lack of willingness to invest in partnerships on school sites unless facilities are to be owned by that partner.

- Lack of public access in rural areas results in young people unable to gain access to sports hall facilities.
- Centres need to be more accessible is there a need and is it open access to all.

4.23 The provision model comes down to the economic and business case. What is it? Is it needed? Taking into account participation, financial and outcome benefits.

SWIMMING POOLS

4.24 The Bridging the Gap Report Sport NI 2009 appears not to have included Downpatrick Leisure Centre Pool. Bridging the Gap Update 2014 states the following:

Bridging the Gap (2014) – Swimming Pools Shortfall = 391m² of water (no shortfall) (council pools only) (taking account of Bangor and Magherafelt and including Templemore Sports Complex and **Down Leisure Centre, which were not included in the Bridging the Gap analysis**).

4.25 Bridging the Gap 2009 identified that Newry, Mourne and Down had a shortfall of 1.5 swimming pools which equals 432m² of water space. The Downpatrick Swimming Pool if taken into consideration would have provided 330m² of water space leaving a deficit of 112m² of water space. At the time of the 2009 Bridging the Gap Report Newry, Mourne and Down had the following swimming pool provision shown in Table 4.5

Table 4.5: Swimming Pools in Newry, Mourne and Down 2009

Facility Name	Description - Pool Type	M ² of Water Space	Ownership	Operational Management	Community Access
DOWNPATRICK LEISURE CENTRE	Main 25m X 10m Learner 8m x 10m	250 80	NMDDC	NMDDC	Yes
KILKEEL LEISURE CENTRE	Main 25m X 12.6m	315	NMDDC	NMDDC	Yes
NEWRY LEISURE CENTRE	Main 25M x 12.5m Learner 7m x 12.5m	312.5 87.5	NMDDC	NMDDC	Yes
					4 Community Accessible Swimming Pools (Excluding The Leisure Pool)

“ There are two pools provided at hotels Slieve Donard Resort and Spa Hotel and the Canal Court Hotel and a swim school exists at Fletchers Craigmore Swim School. ”

4.26 The requirement for water space identified by Bridging the Gap in 2009 is the ratio of required square meterage of water space per 1,000 of population in Newry and Mourne which was 715m² of water space plus 432m² required = 1,147m² (not including Downpatrick Swimming Pool) ÷ 164,514 (projected population census data 2011) = 0.0070 x 1,000 = 6.97m² of water space per 1,000 population.

4.27 Newry, Mourne and Down has replaced the Newry Swimming Pool and is replacing the Down Leisure Centre Swimming Pool. There will still be three indoor swimming pool sites in Newry, Mourne and Down that provide for secured community use. These sites provide for five pools, two are learner pools, three are main pools. The Newry Swimming Pool will also have additional leisure pool water space. There are two pools provided at hotels - Slieve Donard Resort and Spa Hotel and the Canal Court Hotel, and a swim school exists at Fletchers Craigmore Swim School. The two hotel swimming pools are not completely open for community use and Fletchers provides for swim school use. These swimming facilities are not included in the statistics.

4.28 The three sites providing the secured community use; these are the swimming pools at Down Leisure Centre, Newry Swimming Pool and Kilkeel Leisure Centre. When Down Leisure Centre Swimming Pool is complete the following water space across all three swimming pools with lanes will be available as shown in table 4.6. 1,205m² of swimming pool water space will be community accessible (lane swimming). This does not include the indoor leisure water space being provided at Newry Swimming Pool.

4.29 Based on the number of required m² of water space 6.97 m² per 1,000 population requirements for the future can be projected.

4.30 The requirements for Newry, Mourne and Down in 2016 are, population of 179,136 ÷ 1,000 = 179.136 x 6.97 = 1,249m² of water space (rounded).

4.31 The requirements for Newry, Mourne and Down in 2037 are 205,000 ÷ 1,000 = 205 x 6.97 = 1,428.85m² of water space.

4.32 Newry, Mourne and Down has planned and is committed to providing 1,205m² of water space and has provided additional leisure water space at Newry leisure Centre. This is sufficient to meet the demands for 2016.

4.33 There will be a need for additional water space in Newry, Mourne and Down going forward to 2037. The required amount in 2037 is 1,249m². The existing amount once Down Leisure Centre is complete will be 1,205m². This leaves a gap of 223.85m². This is roughly equivalent to a four lane 25m pool 212m². Consideration should be given to planning additional water space for the future in 2037.

ACCESSIBILITY

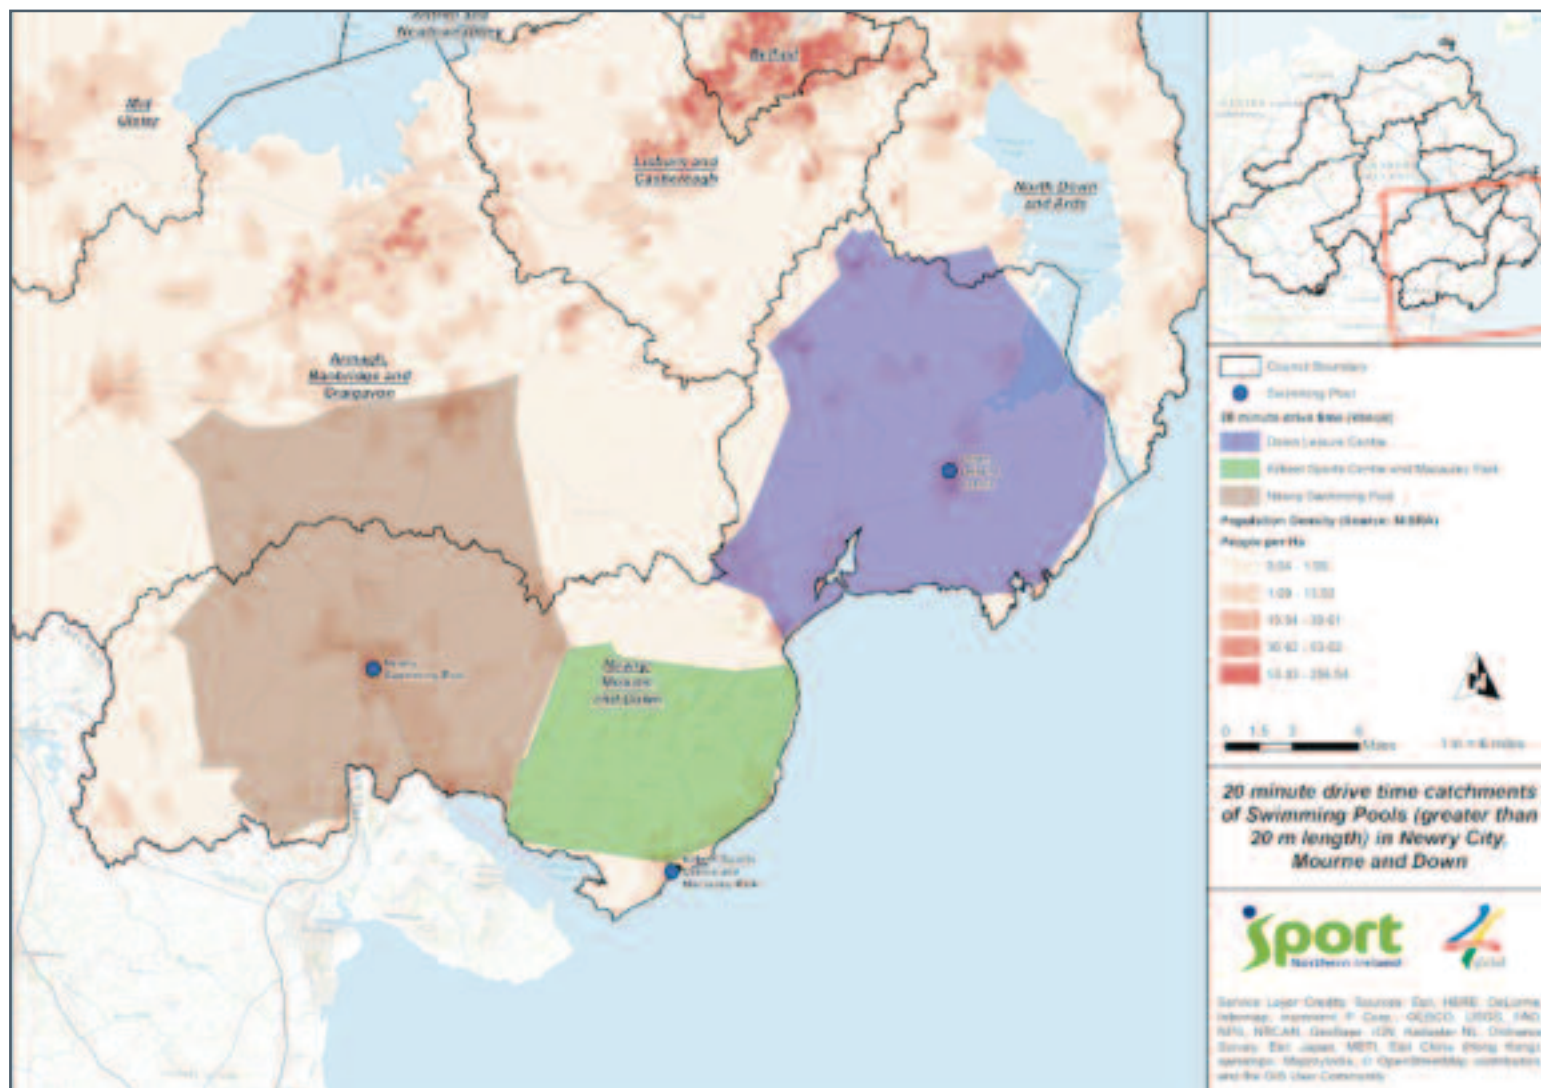

4.34 Map 3.2, (section 3), shows the existing swimming pools in Newry, Mourne and Down. Map 4.3 illustrates the locations of the existing swimming pools and shows where the gaps are in provision for residents within a 20 minute drive time catchment area of a community accessible swimming pool. The areas outside this catchment area are in the west and in the middle. The middle is provided for by Armagh, Banbridge and Craigavon Council.

Table 4.6: Swimming Pools in Newry, Mourne and Down

Facility Name	Description - Pool Type	M ² of Water Space	Ownership	Operational Management	Community Access
DOWNPATRICK LEISURE CENTRE	Main 25m X 13m Learner 7m x 13m	325 91	NMDDC	NMDDC	Yes
KILKEEL LEISURE CENTRE	Main 25m X 12.5m	312.5	NMDDC	NMDDC	Yes
NEWRY LEISURE CENTRE	Main 25M x 17m Learner 4m x 13m	425 52	NMDDC	NMDDC	Yes
TOTAL		1,205.5m ² Of Community Accessible Water Space			4 Community Accessible Swimming Pools (Excluding The Leisure Pool)

Map 4.3: Swimming Pools in Newry, Mourne and Down with 20 Minute Drive Time Catchment Area

Map 4.4: Unmet and Met Demand in M²

CONSULTATION FEEDBACK

4.35 Consultation was undertaken with local clubs, schools, GBs and Newry, Mourne and Down District Council to inform this Strategy. Stakeholder consultees are listed in Appendix 1. Newry, Mourne and Down Councillors consultation is also included in the summary below.

4.36 Specific issues raised in relation to swimming pool provision in Newry, Mourne and Down include:

- Consultation with the swimming club at Down Leisure Centre identified that the swimming club would like the new pool in Downpatrick to be 25m x eight lanes and provide additional programmed water space for swimming club usage.
- Newcastle Centre - Consultation identified need for updating replacing facilities and a need for swimming provision for those families that cannot afford to travel or have the means to travel to swimming facilities further away.
- There is a greater need for swimming pool provision around the coastal areas to ensure the community can swim.
- There is a real need for a swimming pool in Newcastle and to recognise that a swimming pool has an impact on tourism.
- We need to accommodate the community from deprived areas who would not access the Slieve Donard Resort and Spa Hotel and Canal Court Hotels.

- Surprised that Warrenpoint was not considered as an area requiring a swimming pool.

FITNESS SUITES

4.37 Health and fitness facilities are normally defined and assessed using a base scale of a minimum of 20 stations. A station is a piece of static fitness equipment and larger health and fitness centres with more stations are generally able to make a more attractive offer to both members and casual users. They can provide a valuable way to assist people of all ages, ethnicities and abilities to introduce physical exercise into their daily lives with the obvious benefits to health, fitness and wellbeing.

4.38 The current state of the UK fitness industry is complex with a variety of providers including the private sector (ranging from low cost operators to the high end market), trusts, schools and local authority operators. Within the UK, the private fitness market has continued to grow steadily over the last 12 months with an estimated increase of 6% in the number of members. The current market penetration rate is 13.7% of the population (June 2015).

4.39 There are at least 18 fitness facilities in Newry, Mourne and Down that provide fitness facilities that cater for more than 20 fitness stations. The fitness facilities in table 4.9 are known facilities with over 20 stations that are open to the wider community. There are other facilities on school sites, private gyms and GAA club facilities that also provide fitness suite facilities across Newry and Mourne but provide stations under 20.

Table 4.8: Fitness Suites and Number of Stations in Newry, Mourne and Down

Facility Name	Number of Fitness Stations	Ownership	Operational Management	Community Access
AN RIOCHT, KILKEEL	20	Private	Membership	Yes
ANDY WARD LEISURE, BALLYNAHINCH	35	Private	Membership	Yes
BALLYMOTE SPORTS AND WELLBEING CENTRE, DOWNPATRICK	22	NMDDC	Membership	Yes

NEWRY SPORTS CENTRE	90	NMDDC	Membership	Yes
RITE FITNESS, NEWRY	80	Private	Membership	Yes
SCULPT, NEWRY	80	Private	Membership	Yes
TOTAL	838			

ACCESSIBILITY

- 4.40** Map 3.3 (Section 3) shows the location of the existing fitness suites in Newry, Mourne and Down. Map 4.5 shows these facilities with a 15 minute drive time catchment area. The map shows facilities with less than 20 fitness stations. The table above only identifies those fitness suites with 20 or more fitness stations.
- 4.41** It is clear from Map 4.3 that the catchment areas of the existing community accessible fitness facilities cover the majority of the district. These are complemented by the private sector facilities, which are accessed and used by some of the Newry, Mourne and Down Community. Areas in the extreme north west and the south of the district are outside the catchment areas for existing community accessible facilities.
- 4.42** The largest community fitness facility is at Newry Leisure Centre.
- 4.43** Although membership will be required for all fitness suites to ensure users have been through the induction process, the private sector facilities are likely to have a higher membership fee than the public sector facilities, therefore they may not be as accessible to the whole community.

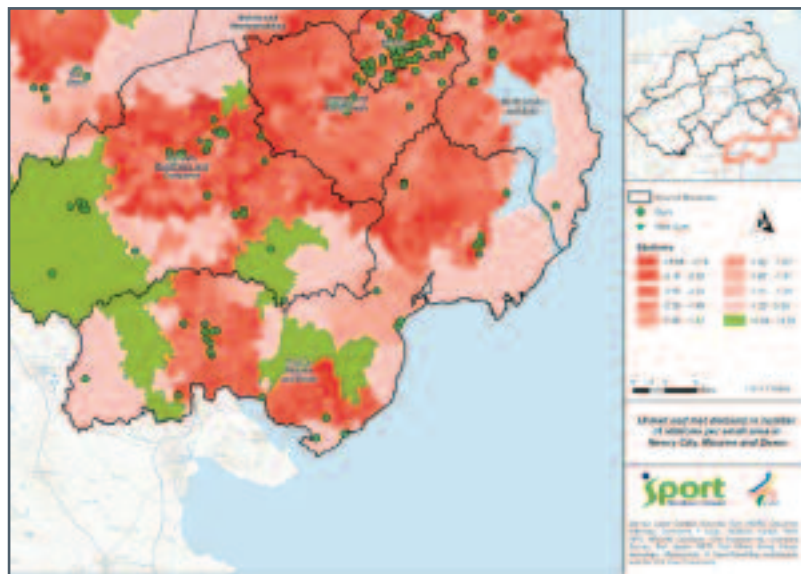

Map 4.5: Existing Fitness Suites in Newry, Mourne and Down with a 15 Minute Drive Time Catchment Area

DEMAND

4.44 Appendix 3 looks at current supply of fitness stations and demand. The UK propensity to participate as a fitness gym member for 2015 is 13.7% of the population as identified from the Fitness Industry State of the Nation Report. The total population aged over 16 has been used and participation rates for using fitness facilities at peak times has been utilised to provide a current demand for 547 fitness stations across Newry, Mourne and Down. The current supply is calculated as 838. This suggests a surplus of 291 health and fitness stations. Some of the private gyms are not accessible to all the community due to cost and transport.

Map 4.6: Met and Unmet Demand for Fitness Stations in the District

4.45 The number of fitness stations required for 2037 based on population data subnational projections 2012 aged 16+ is shown in Appendix 4 and is equivalent to 645 fitness stations. There are currently enough fitness stations to cover the need in 2037.

4.46 Appendices 3 and 4 summarise current and future demand for fitness provision, based on population and propensity to participate. There are additional fitness gym facilities below 20 fitness stations where loose weights are provided in smaller gyms across Newry, Mourne and Down district.

These are:

- **Tel's Gym** – Personal Training and Bootcamp Gym. Equipment: 3x TRX work stations, 3x punch bags.
- **Downpatrick Boxing Club** – Boxing Club/Gym. Equipment: squat rack, 3 x benches, selection of weights up to 50kg, boxing ring, tyres, 12 stationary weights machines, 2 x ice baths.
- **Wade Training** – Personal Training/Spinning. Equipment: 12 spinning bikes, 2 x benches, selection of weights up to 40kg, 2 x barbells, 1 x prowler.
- **Neil O'Bank** – Personal Training/ Bootcamp Class. Equipment: specialized floor for prowler, 1 x prowler, specialized ropes, kettle bells, tyres, spin bike, rower.
- **The GymDock (previously Rockpit)** – Equipment: 5 x treadmills, 2 x cross trainers, 2 x bikes, 2 x squats racks, cable crossover, weights up to 60kg.

- **Ray Gym** – Equipment: squat rack, treadmill, rower, cross trainer, 4 x barbells, kettle bells, 5 x stationary weights machine.
- **Conor Gelston Gym, Annacloy** – Equipment: weights up to 25kg, power bags, kettle bells up to 36kg, rings, 4 x squat rack, 3 x benches, boxes (box jumps), hex bar, prowler, bike, sledge hammers, full rig (squat rack, lat pd, pull up bar x 4) back extension bench, specialized ropes.
- **Saul GAC** – Equipment: Treadmill, bike, squat rack, weights up to 25 kg.
- **Pulse Fitness – Downpatrick Cricket Club** Equipment: 10 x spinning bikes, 4 x TRX cables, 4 x Punch bags, running Club.
- **East Down Athletics Club, Downpatrick** – Equipment: 3 x treadmills, 2 x cross trainers, 2 x rowers, 2 x bikes.
- St Joseph's High School, Newry – Shared Areas Project
The intention of the Shared Areas Project is to provide community health and fitness facilities.
- Russell Gaelic Union, Downpatrick – The Clubs teams require a dedicated fitness area.
- A new leisure centre in Newcastle must provide a fitness suite.
- St Louis Grammar School, Kilkeel aspire to have a fitness gym facility open to the community.
- Assumption Grammar School, Ballynahinch aspire to increase the size of their fitness gym facility and open to the community.

AGPs, GRASS PITCHES AND 3G RUBBER CRUMB PITCHES - SUPPLY

CONSULTATION FEEDBACK

4.47 Consultation has identified the following in relation to the need for more community fitness provision:

4.48 There are nine 3G rubber crumb pitches across Newry, Mourne and Down District. Three of these pitches can provide for gaelic sports as well as rugby and soccer. The remaining five can provide for soccer.

Table 4.9: Existing AGPs in Newry, Mourne and Down

Facility Name	Facility	Surface	Size	Ownership	Operational Management	Community Access
ABBEY CHRISTIAN BROTHERS GRAMMAR SCHOOL	Newry	3G Rubber Crumb	Full size GAA	Education	Education	Yes

WARREN POINT TOWN FC MILLTOWN PLAYING FIELDS	Newry	3G Rubber Crumb	Not Full Size Soccer	Club	Club	Yes

4.49 A 3G rubber crumb pitch carpet lasts approximately 10 years before it will require replacing. To ensure sustainability of providing 3G rubber crumb pitches business and sports development plans for each pitch should be produced. The business and sports development plan should provide evidence of programming and an income and expenditure stream that will provide a sink fund that will pay for the replacement carpet when required. A new replacement carpet can cost up to £200,000.

4.50 There are approximately **55** soccer clubs across Newry, Mourne and Down providing approximately **215** teams. The English Football Association through its new 3G Rubber Crumb Pitch Strategy has decided that to support a new 3G pitch there must be a minimum of 42 teams (not clubs within the area but teams that would have access to the pitch for training and competition).

4.51 By using the **42** teams formulae on a district wide basis for Newry, Mourne and Down with approximately **215** teams there is a need for five 3G rubber crumb pitches for soccer. There are currently eight 3G rubber crumb pitches of which five solely provide for soccer across Newry, Mourne and Down.

4.52 There are a further two soccer 3G pitches planned, one in Ballyhornan and one in Downpatrick Football Club.

4.53 If you take gaelic football, hurling and camogie there are approximately **45** clubs providing approximately **476** teams. Applying 42 teams to one 3G rubber crumb pitch identifies a need for 11 3G rubber crumb pitches for gaelic sports across the district. Currently there are only three 3G rubber crumb pitches suitable for gaelic sports.

“ From a sustainability view point 3G rubber crumb pitches should be used during the day by schools and the evenings for training and weekends for competitive games. ”

4.54 To meet Sport NI’s Sports Hub needs it would be appropriate to support clubs and sports that will work together in the future eg GAA, soccer and rugby clubs whereby 42 teams using a sports hub facility can at least train on one 3G pitch.

4.55 Wherever possible the IFA, IRFU and the GAA are keen to work in partnership with local authorities to develop new multi-sport facilities, providing access for all. This latter point is critical, as despite GAA facilities providing open access to most facilities, there is still a perception in some and particularly the rural areas of NI, that these are not available across the community.

4.56 Provision of additional 3G pitches would help to address accessibility issues for gaelic sports, football and rugby, because existing grass pitches cannot always be used by everyone simply because many are of insufficient quality to meet demand and some are on education sites where there is no access and/or the pitches do not have floodlighting. Opening up access to synthetic floodlit pitches and sports halls on education sites (school/college), would help to satisfy existing unmet demand for sports facilities and particularly grass pitches.

HOCKEY ALL WEATHER PITCHES

4.57 Hockey all weather pitches are different to 3G rubber crumb pitches. These are sand based and have a much shorter pile carpet. Hockey cannot currently be played on 3G rubber crumb. In the past hockey has been played on shale and grass. However, the playing surface now sanctioned by Ulster Hockey is an all-weather short carpet and sand based pitch. The following hockey clubs play at the following facilities across Newry, Mourne and Down:

- Kilkeel Hockey Club – McAuley Park, Kilkeel.
- Nomads Hockey Club – Donard Park, Newcastle.
- Newry Olympic Hockey Club – Newry Olympic Hockey Club, Newry.
- Ballynahinch Hockey Club – St Colman’s High School, Ballynahinch.
- Down Hockey Club – Malone Park, Downpatrick. This is not a sand dressed pitch, it is shale.
- Saintfield Hockey Club – Travel to where they can find an all-weather pitch for match use. Training currently takes place at St Colman’s High School, Ballynahinch.

4.58 There is a need to provide a sand based all-weather pitch at Saintfield to replace the outdated shale pitch and a need to replace the carpet at McAuley Park where Kilkeel Hockey Club play.

4.59 There are two disused shale pitches at Langley Road, Ballynahinch with floodlights. There are decisions that are required as to what these two shale pitches could be used for in the future. The same applies to the shale pitch at Dunleath Park, Downpatrick.

4.60 The 2014 updated Bridging the Gap assessment identifies a surplus of 45 pitches in Newry, Mourne and Down (grass and all weather) including education all weather and grass pitches. When education grass pitches are excluded and just all-weather education pitches are included there is a deficit of 25 pitches. The analysis is based upon the six acre standard and that Sport NI count an AGP as four times a

grass pitch. In fact, a 3G rubber crumb pitch if used as a central venue site for nine, seven or five-a-side, can hold more than four competitive games per day.

4.61 The six acre standard methodology does not take into consideration quality of pitches or actual demand for pitches. It uses a standard per 1,000 population and treats demand as standard across all 11 local councils in NI. The demand however is not standard. Newry, Mourne and Down has, for example, 45 GAA Clubs where Ards and North Down have 4 GAA Clubs.

4.62 From a sustainability view point 3G rubber crumb pitches should be used during the day by schools, in the evenings for training, and on weekends for competitive games. A minimum demand of teams for use of a 3G pitch should be instigated eg 42 teams per 3G rubber crumb pitch.

4.63 The carpet of the AGP will be required to be replaced nearly every 10 years and in this instance it is recommended that a sink fund is set up for each 3G pitch to provide for the funding of a new carpet in the future. The projected cost is £200,000 per pitch. This should be met from income from these pitches. This means that a business case showing £20,000 per annum to a sink fund for the replacement of the carpet and a sports development case is required each time a 3G pitch is built or supported by the authority.

GRASS PITCH AND CHANGING ROOMS

4.64 There are different quality standards for playing pitch surfaces. Soccer for instance states that a 'Poor' pitch only allows for one game per week, to be played, a 'Standard' pitch allows two games per week and a 'Good' pitch allows for three games per week.

4.65 The quality of playing pitches in the ownership of Newry, Mourne and Down have been assessed for quality and capacity.

4.66 In the absence of an agreed methodology in NI for quality assessments of playing pitches. The methodology used in the Sport England Playing Pitch Assessment agreed with the England Football Association (FA) has been used by Council Officers:

• Good	• Standard	• Poor
--------	------------	--------

4.67 Quality of pitches determines the capacity or number of times a pitch can be played. The England Football Association has set guidance standards for the number of matches that each grass pitch type should be able to accommodate without adversely affecting its current quality (pitch capacity).

4.68 The following table identifies the guidelines for quality and capacity that have been used across Newry, Mourne and Down playing pitches.

Table 4.10: Guidelines for Football Pitch Quality Across the Newry, Mourne and Down Playing Pitches

Adult Pitches		Youth Pitches		Mini Pitches	
Pitch Quality	Matches Per Week	Pitch Quality	Matches Per Week	Matches Per Week	Matches Per Week
Good	3	Good	4	Good	6
Standard	2	Standard	2	Standard	4
Poor	1	Poor	1	Poor	2

It should be noted with a possible provision of specific DEA Hubs and the development of AGP pitches the need for the 58 grass pitches may no longer be required and the upgrading requirements of the pitches listed above will have to be re-evaluated as the DEA Hubs shall provide sufficient facilities for all current usage.

4.69 The aim must be to bring the 'Poor' and 'Standard' quality pitches up to a 'Good' standard.

There is a need to provide the following:

- Annsborough – Pitch required at 'Good' quality
- Ardglass – Current pitch needs to be raised to a 'Standard' quality
- Castlewellan – Pitch required at 'Good' quality
- Derryleckagh W Davis Street and Derryleckagh Olympic Park – Pitches required at 'Standard' quality
- Derryleckagh P Barry Park – Pitch required at 'Good' quality
- Drumaness Soccer – Pitch required at 'Good' quality
- Dundrum (Newcastle) - requires drainage works
- Dunleath Park – Pitches required at 'Standard' quality
- Gerry Brown Park – Pitch required at 'Good' quality
- Jack Mackin Park – Pitch required at 'Good' quality
- Jennings Park 1 and Jennings Park 2 - Pitches required at 'Good' quality
- Kilbroney Park – Pitches required at 'Standard' quality
- Killough – Pitch required at 'Standard' quality
- Langley Road – Requires additional drainage works
- Milltown Park - Pitch required at 'Good' quality
- Norman Brown Park – Pitch required at 'Good' quality
- Strangford – Pitch required at 'Good' quality
- St Michael's Gaelic site requires an extra pitch per week at a 'Good' quality and raise current 'Standard' pitch to 'Good'.

4.70 There are a number of playing pitch facilities leased to different clubs. A number of clubs have also requested leases at a number of sites, these are:

- Annsborough Playing Fields - Request (Aughlisnafin GAA)
- Gerry Brown Park Gaelic Pitch - Request (Mitchell's GAA)
- Lisdrumliska Recreation Area/Pitch (Glen Hill) - Request (Newry Rugby Club)
- Milltown Gaelic Pitch, Pavilion and Car Park - Request (Warrenpoint GAA)
- Mona View Green Five-a-Side - Request (Annalong Community Group)

- Murdock Soccer Pitch - Request (Forkhill GAA)
- Nan Sands Park Soccer - Request (Saval GAA)
- Shandon Park/Norman Brown Park Soccer Pitch - Request (Damolly F/C)
- St Michael's Gaelic Pitch - Request (St Michael's GAA)

4.71 The Strategy has identified a need to undertake refurbishment or renewal works on the following outdoor recreational changing/pavilions.

Table 4.11: Identified Needs

Pitch	Refurbish/Upgrade Changing/Pavilion	Replace Changing/Pavilion
ANNSBOROUGH	NEEDS UPGRADED	
ARDGLASS	NEEDS UPGRADED	
BALLYKINLAR	NEEDS UPGRADED	
CASTLEWELLAN	NEEDS UPGRADED	
DERRYLECKAGH W DAVIS STREET	NEEDS UPGRADED	
DERRYLECKAGH P BARRY PARK	NEEDS UPGRADED	
DERRYLECKAGH OLYMPIC PARK	NEEDS UPGRADED	
DONARD PITCHES DONARD PARK	NEEDS UPGRADED	
DUNDRUM	NEEDS UPGRADED	
DUNLEATH PARK PITCHES	NEEDS UPGRADED	
KILBRONEY PARK		FACILITIES REQUIRED
LANGLEY ROAD PITCHES	NEEDS UPGRADED	
MILLTOWN PARK		POOR, NEEDS TO BE REPLACED
MOURNE ESPLANADE PITCH	NEEDS UPGRADED	
ROSCONNOR PITCH ANNACLOY	NEEDS UPGRADED	

4.72 The table below identifies the bowls and tennis pavilions that need to be replaced or refurbished.

Table 4.13: Bowls and Tennis Pavilions for Refurbishment

Pitch	Refurbish/Upgrade Changing/Pavilion	Replace Changing/Pavilion
ANNALONG BOWLING AND TENNIS	NEEDS TO BE UPGRADED	
NEWCASTLE BOWLS CLUB CASTLE PARK		NEEDS TO BE REPLACED
NEWCASTLE TENNIS – ISLAND PARK	NEEDS TO BE UPGRADED	
WARRENPOINT BOWLING GREEN		PORTACABIN NEEDS TO BE REPLACED
WARRENPOINT TENNIS SHARED WITH GAELIC		PORTACABIN NEEDS TO BE REPLACED

“There are numerous comments on improvements to grass pitches, changing rooms and other ancillary facilities. The comments have been captured as part of this Strategy and have been noted as perceived improvements and requirements for clubs.”

CONSULTATION FEEDBACK

4.73 The consultation process raised a significant number of points and issues related to grass and all weather pitch provision in the district. The feedback on pitch provision, current and future, represents the majority of comments received.

4.74 The consultation feedback identified the following:

- Killyleagh YC Football Club has a vision to have a 3G pitch.
- Downpatrick Football Club – has applied for funding for a 3G pitch close to the racecourse in Downpatrick.
- Down GAA – would like a centre of sporting excellence within Newry, Mourne and Down to include grass pitches and a 3G floodlit playing area with six grass sand based pitches, four of these to be floodlit.

- Derryleckagh Playing Fields – Convert two full size 3G soccer pitches (in existing pitches location), one 3G full size gaelic pitch (in existing pitch location), one 3G rugby pitch - located in new area of land beside existing pitches, one small 3G multi use pitch - located in new area of land beside existing pitches. (Due to River Agency plains/floodplains this site has been identified as unsuitable as 3G facility).
- Newry High School - 3G soccer/rugby pitch with community use.
- St Mark’s High School in partnership with St Peter’s GAA – 3G floodlit full size gaelic sports pitch.
- Ballynahinch Rugby Club – propose a 3G rubber crumb pitch for soccer, rugby and gaelic sports on their second grass rugby pitch.
- Kilbroney Park – 3G rubber crumb pitch.
- Mullaghglass Primary School – 3G rubber crumb pitch.

- St Louis Grammar School – 3G training area for gaelic football and rugby.
- Saintfield Utd – require a 3G soccer pitch.
- Aughlisnafin GAC – is seeking funding for a 3G gaelic football pitch.
- Castlewellan GAC – is seeking funding for a 3G gaelic football pitch.
- Killeavy GAC – has aspirations for a 3G gaelic football pitch.
- Crossmaglen Rangers in partnership with St Joseph's School - seeking funding for a 3G gaelic football pitch.
- Camlough Rovers – aspire for a second 3G pitch with a stand for 200 to assist the club to get into the Irish League.
- Saintfield Hockey Club – is in need of an all-weather pitch to meet their men's, ladies and junior team match requirements.
- Kilkeel Hockey Club – the current pitch carpet urgently requires replacement.

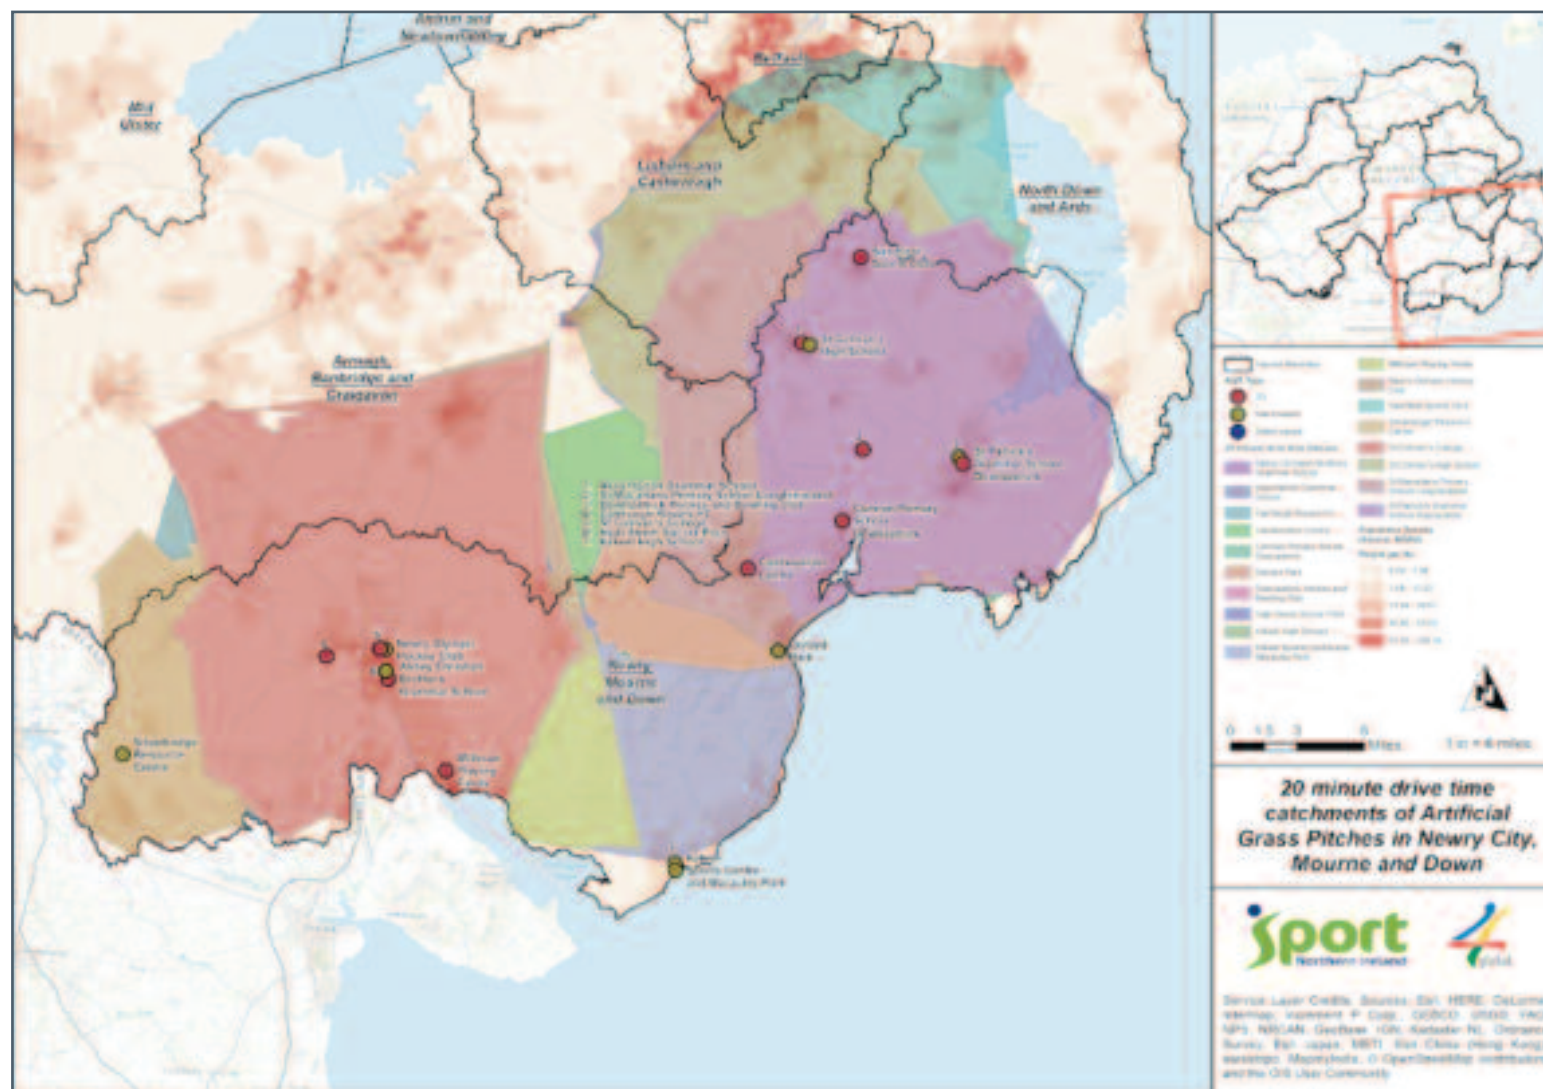

4.75 There are numerous comments on improvements to grass pitches, changing rooms and other ancillary facilities. The comments have been captured as part of this Strategy and have been noted as perceived improvements and requirements for clubs. Some of these improvements are also geared towards sports hubs and all the consultation can be seen in Key Issues Identified by sports clubs and other organisations.

ACCESSIBILITY

4.76 Map 4.7 shows the existing AGPs in the district. Map 4.7 shows these facilities with a 20 minute drive time catchment area.

Map 4.7: Existing AGP's in the District With a 20 Minute Drive Time Catchment Area

OTHER SPORTS FACILITIES

4.77 There are a number of other sports facilities in Newry, Mourne and Down which also need discussion in terms of future provision. Specifically, these include:

- Athletics Facilities
- Bowls Facilities
- Tennis Facilities
- Walking and National Cycle Network
- Water Sports Facilities

TENNIS FACILITIES - KEY ISSUES

4.78 During the consultation for this Strategy the following perceptions have been identified:

- Newry Tennis Club/Newcastle Tennis Club - need for a bubble to be able to provide year round tennis facilities and a need for additional tennis courts across Newry. The tennis courts at Warrenpoint need to be protected.
- St Mark's High School and St Peter's GAA (Strategic Alliance) – plan to refurbish floodlit tennis courts.
- Downpatrick Tennis Club - The tennis club requires a minimum of four courts and the current courts need resurfacing and floodlights provided.

- Assumption Grammar School - enhancement of existing bitmac surface for tennis facilities.
- Suggestion that Newcastle tennis courts are included with other sports facilities all within one area.
- Huge waiting list for Downpatrick Tennis Club.
- Newcastle Tennis Club has provided a development plan to include renewing existing court surfaces, providing a bubble over two courts and providing additional courts.
- Councillors were surprised that Warrenpoint Tennis Club had not requested a bubble for its courts. The consultation identified that they wished to protect their courts from closure.

4.79 Options – At each of the locations for sports hubs tennis should be a priority.

ATHLETIC FACILITIES

4.80 Athletics facilities in Newry are well served by St Colman's School. The facilities on this site provide for a six lane athletics track and caters for all track and field events. The athletics track is managed by Newry, Mourne and Down District Council in the evenings and weekends. The facility is relatively new, opening in November 2011. The St Colman's Sports Complex including the athletics track was funded through a unique partnership including Newry and Mourne District Council, St Colman's College, Sport NI and the Department for Social Development.

4.81 During the consultation for this Strategy the following perceptions have been identified:

- **Murlough Athletics Club** - There are no facilities in Downpatrick to encourage running/athletics among our many young people attending local schools. Running is perfect as a healthy sport option to people who either do not like or feel they are no good at team sports or ball sports. No safe place to run at night, especially for women and children. Running training often involves frequent fast interval/sprint runs over short periods and runners are a safety hazard to all other pedestrians (and cars) during this type of training. A running track would solve this.
- **East Down Athletics Club (EDAC)** - The development of an all-weather running track is vital, not only for the development of the EDAC but also the health of the community. The broad membership of EDAC in ability and age is a great benefit to all the community in the Downpatrick area. A running track would allow further expansion of the Club and also allow development of athletics for talented youngsters who have to travel to other clubs in Belfast/Lisburn to reach their potential.
- **St Mary's GFC, Burren** – Wish to develop a running/walking track. Develop track around perimeter of playing field to accommodate athletics club, walkers, local community, boxing club, GAA teams.
- **Tollymore United FC, Bryansford GAC, Newcastle Nomad Hockey Club, Newcastle FC and Newcastle AC** - Athletics track within the district which would be most likely

centrally located. The partners would be all athletics clubs and the Council. Jogging facilities – lower Demesne area at Donard Park, Newcastle – jogging trails with discrete lighting etc – partner's athletic club and the Council. Mourne and Down Paddlers are partners and require storage.

- Councillors asked if Newry was a full length athletic facility and why the facility was not an eight lane track and was it fit-for-purpose. It was concluded that it was a six lane track which is what Sport NI recommended and that there was no need for another eight lane track in NI. It was fit for purpose and met all accreditation standards.
- Councillors suggested Kilbroney as a site for a floodlit athletics or running area. Newcastle promenade becomes a running track during the winter months. A number of GAA clubs have placed walking and running tracks around their pitch. It was also explained that it was quite costly to provide and maintain a running track and that the return was quite small in monetary terms.

4.82 There is a need for an athletics facility in and around Downpatrick/Newcastle. A six lane track in partnership with a school would be the most sensible option.

BOWLS FACILITIES - KEY ISSUES

4.83 During the consultation for this Strategy the following perceptions have been identified:

- Bowls pavilions are generally in poor state of repair – Saintfield Bowls Club, Newry Bowls Club, Newcastle Bowls Club, St Peter's and St Paul's Bowls Clubs and Kilkeel Bowling Club.
- Some clubs need access to short mat bowls equipment.
- Need to take into consideration the social aspect of bowls.
- Council should be looking after and maintaining its own facilities.
- Can different clubs be included in one facility eg a sports hub.
- Identify the cost of providing and running an artificial bowls green.
- Magheradroll Bowling Club is one of the bowls pavilions which are generally in a poor state of repair.

4.84 Sport NI would like local councils to consider the following and consider strategically located artificial bowls greens in the future.

4.85 The cost of maintaining outdoor greens is a challenge for local councils in times of reducing budgets. If maintenance is not undertaken the greens become poor quality and therefore are not fit-for-purpose. Rationalising the number of existing grass bowls greens and developing strategically located artificial bowls greens across the 11 new council areas is important to maintain and develop participation, particularly as the NI population is aging. The benefit of this programme will be increased and sustainable participative opportunities in the community, as well as the development of facilities suitable for high performance training.

4.86 The Council should consider offering clubs a new pavilion with an artificial bowls green to manage the facility and lease the facility for 25 years. The cost of the artificial bowls green could be recovered in three years and maintenance funds diverted for other grass pitch maintenance.

Facility	Refurbish/Upgrade Changing/Pavilion	Replace Changing/Pavilion
ANNALONG BOWLING AND TENNIS	NEEDS TO BE UPGRADED	
KILKEEL BOWLING PAVILION	NEEDS TO BE UPGRADED AND EXTENDED	
NEWCASTLE BOWLS CLUB CASTLE PARK		NEEDS TO BE REPLACED
WARRENPOINT BOWLING GREEN		PORTACABIN NEEDS TO BE REPLACED

WATER SPORTS FACILITIES - KEY ISSUES

4.88 During the consultation for this Strategy the following perceptions have been identified:

- Bryansford GAC, Newcastle Nomad Hockey Club, Newcastle FC and Newcastle AC - Enhanced yachting and wet sports facilities at our various harbours but specifically Annalong, Newcastle and Dundrum. Kilkeel, Ardglass and Warrenpoint would be considered too busy to encourage water sports. Better use of Newry Canal as a wet sports centre – canoeing etc – Better use of disused quarries for diving and water sports in safety, partners would be Council, yacht clubs and community groups this would also have some tourism benefits.
- Camlough Lake (changing pavilion and storage facilities to promote Camlough Lake Sports).

4.89 The Leisure and Sports Development Department should consider a joint study with the Enterprise, Regeneration and Tourism Department to enhance existing water sports and develop new water sports facilities across Newry, Mourne and Down.

WALKING AND THE NATIONAL CYCLE NETWORK

4.90 Recent new cycling/walking trails opened include: Bunker's Hill, Castlewellan - multi-use trails, completed and officially launched.

4.91 Development of cycling and walking trails in both urban and rural areas provides the opportunity to incorporate physical activity into daily life, for example, walking/cycling to work and provide an important network of routes used recreationally by families and individuals.

4.92 The development of an iconic route or trail has significant potential and appeal. Such an investment would benefit the overall population, as well as result in inward investment as a result of use by visitors and tourists. A NI coastal path could be developed based on existing infrastructure and would significantly benefit NI communities both in terms of participation and health, as well as delivering real economic benefits.

4.93 Equally, a long-term project to develop a network of riverside routes, linking into the existing walking and cycling networks already existing in NI would provide an increased number of family friendly and safe routes, to encourage and facilitate increased levels of physical activity across NI communities.

Specific opportunities include:

- Development of an iconic coastal path similar to the one in Wales (around the Welsh Coast) as part of the Community Paths Network, which would provide safe and accessible walking, along the coastal areas from Donegal to Carlingford Lough, Causeway Coast and Glens and County Down. ORNI states that every time a new walking route is established, it results in a massive increase in usage. The Welsh Coast Path generated 2.82m visitors in its first 12 months of operation and added £32m to the Welsh economy, as well as significantly raising the profile of Wales through national and international media.

- Development of a national network of riverside paths (based on a partnership between ORNI, Department for Communities, Inland Waterways, Waterways Ireland, Loughs Agency, the NI Environment Agency and Sport NI; following the implementation of the EU Protection of Water Framework Directive, there is significant opportunity to create riverside and woodland trails alongside existing rivers. A tree belt has to be planted 10m from the riverside, which could create such family friendly routes for both cycling and walking.
- Greencastle to Kilkeel requested by Kilkeel Development Association.
- Derrymore House Walking Trail.
- Outdoor Gym and 1km track around Downshire Estate.

There is an identified need to review and further develop the National Cycle Network including:

- Maximising the potential of current greenways and developing new linear greenways.
- Developing greenway links to communities.

Projects identified in the ORNI Action Plan/Operational Review 2015 include:

- Outdoor Sports Hubs – Sperrins, Mourne, Causeway Coast and Glens.
- Off-road coastal walking route from Portavogie to Kilkeel.

- Mountain bike trails and walking trails.
- Proposed Mourne Coastal Route pathway.

GENERIC KEY ISSUES

4.94 The following generic key issues have been identified following the consultation on this Strategy:

- Need for the Council to assist sports clubs and organisations with capacity building, the development of sports development and business plans and funding application advice.
- Need for a replacement facility in Newcastle alongside outdoor facilities.
- Improved access to education based facilities.
- The role of community centres in the delivery of sport and physical activity.
- The perception of insufficient quantity of playing pitches and the poor quality of playing pitches.
- The perception of need for 3G grass pitches across Newry, Mourne and Down.
- The need to address the quality of provision of outdoor playing pitch pavilion and changing provision.
- Identified aspirations of club/community organisation investment needs.

- Opportunities to develop cycling and walking provision in and around Newry, Mourne and Down, particularly linked to the coast, rivers and canal.

4.95 Below sets out criteria and methodology for scoring and prioritising each individual clubs needs

Sports Halls

- Sports Halls – There is a need to consider future provision of sports hall facilities in Newcastle along with other facilities such as swimming when funding becomes available.
- Otherwise no identified need to build additional sports hall facilities for community use across Newry, Mourne and Down. It would be considered sustainable to provide community use of existing school sports halls not currently open for community use.
- Priority 1: School sports halls that already exist and wish to open for community use.
- Priority 2: School sports halls that are existing, wish to open for community use but require refurbishment.
- Priority 3: New school sports halls that wish to open for community use.

*Sports Halls non-education owned will also be considered, as per priority listing above.

Swimming Pools

- There is a need to consider future provision of swimming pool space in the Newcastle. There will be a need for additional water space in Newry Mourne and Down going forward to 2037. This is roughly equivalent to a four lane 25m pool 212m².

- Consideration should be given to providing an indoor swimming pool alongside any future indoor leisure provision in Newcastle.
- Priority 1: Provision of future four lane swimming pool space in Newcastle.
- Priority 2: Provision of any other swimming space in Newcastle.

Artificial Grass Pitch 3G and Sand Based

- Priority 1: Provision of artificial grass pitch for gaelic sports, rugby, hockey and football must be provided on a multi sports hub site catering for four or five sports and meet the Sports Hub Criteria.
- There will be some DEAs with more than one site prioritisation would come down to number of potential users, and sustainability - sound business plan and sports development plan. Sink funds in place.
- Priority 2: Provision of artificial 3G or sand based artificial grass pitch on one club site with less than four sports as a partnership arrangement in place.
- Priority 3: Provision of artificial 3G or sand based artificial grass pitch on one club site for use by one club.

Grass Pitches

- Priority 1: Upgrading and or replacement of existing Council owned pitches.
- Priority 2: Upgrading and or replacement of non-Council owned pitches.

“There is a need to consider future provision of sports hall facilities in Newcastle along with other facilities such as swimming when funding becomes available.”

Pavilions and Changing Rooms

- Decision needs to be taken should financial support be given to clubs before the Council has refurbished/replaced its own outdoor sports changing rooms.
- Priority 1: Upgrading and or replacement of existing Council owned pavilions and changing rooms.
- Priority 2: Upgrading or replacement of non-Council owned pavilions and changing rooms most likely to provide increases in usage in the community.
- Priority 3: Upgrading or replacement of non-Council owned pavilions and changing rooms no increased usage in the community.

Bowls - Pavilion and Green Renewal/Refurbishment

- Any identified bowls greens should consider having the green replaced with an artificial grass surface to reduce maintenance costs.
- Priority 1: Where clubs agree to change from a grass surface to an all-weather surface and undertake a lease for the facility.
- Priority 2: All other bowls pavilion and green renewal and refurbishment

Tennis

- There is a need to refurbish Newcastle tennis courts and there is a proposal to relocate Kilkeel tennis courts. There is a need to either provide bubble (minimum two courts) at Newry Tennis Club or Newcastle Tennis Club.
- Priority 1: Provision of a bubble where most use will take place.

- Priority 2: Council owned/education owned tennis facility requirements.
- Priority 3: Non Council owned tennis facility requirements.

Sports Hub

- Priority 1: Meets all the Sports Hub Criteria with the exception of Criteria 5.
- Priority 2: Meets five out of seven of the Sports Hub Criteria with the exception of Criteria 5.
- Priority 3: Meets four out of seven of the Sports Hub Criteria with the exception of Criteria 5.
- Priority 4: Meets less than three out of seven of the Sports Hub Criteria with the exception of Criteria 5.

Health and Fitness Gyms

- No identified additional need.

Athletics

- Newcastle Athletics Club - Athletics track – within district – most likely centrally located – partners all athletics clubs and the Council.

Water Sports/Walking and Cycling/Other

- Priority 1: Fits with other stakeholders plans and strategies and likely to receive funding.
- Priority 2: Does not fit with other stakeholders plans and strategies.

Each club and sporting group should note that their individual needs are included in the strategic document and given a priority score as per guidance above, however this does not mean that Newry, Mourne and Down District Council shall fund or should be expected to provide financial support for each facility. It is the responsibility of each individual club to develop and deliver a sports development plan and business plan to meet each potential funding requirement.

However, this document confirms the needs within our district and Newry, Mourne and Down District Council will support each club/body with their individual efforts to gain funding or works.

Table 4.15: Key Issues Identified by Sports Clubs and Organisations

Organisation or Site	Location and Category	DEA	Priority	Facilities Required	Partnerships
COASTAL ROWING CLUBS	District Wide	District Wide		<p>Needs of Coastal Rowing Clubs: We have six clubs in your area and each club requires a safe access point to the sea. These clubs are in Carlingford Lough, outer Irish Sea Coast and Strangford Lough.</p> <p>Currently although you have a large coastal boundary public access points are few. Facilities at these points are even less. You may need the assistance of another department of the Council to secure these locations under Access to the Countryside Legislation. Some clubs have joined with sailing clubs to access facilities but I noted no tangible proposed development infrastructure for these clubs either.</p> <p>Facility Requirements: Launching and retrieval slipways to provide access all times of the tide. Pontoon or jetties to enable safe changeover of crews, car and boat parking area to suit several boats and at least 10 cars. In addition, clubs at the very least require a building for the construction, storage and maintenance of their boats. Welfare facilities and a meeting and exercise room for pre-racing warm up and cooling down procedures.</p>	
ULSTER SMALL ARMS SHOOTING CLUB	District Wide	District Wide		Would like an indoor range awaiting Planning permission for facilities for people with disabilities four members are shooting in Italy.	

Organisation or Site	Location and Category	DEA	Priority	Facilities Required	Partnerships
DOWN GAA	District Wide	District Wide		<p>Down GAA Facilities Requirements 2015 and Beyond:</p> <ul style="list-style-type: none"> • To develop a Centre of Sporting Excellence located within Down with a good road infrastructure making it accessible by all. • On-site to have an Administrative Headquarters for Down GAA. • To have six full size Grass Sand Based pitches with four of these pitches flood-lit to a high specification. • To have one 3G surface playing area flood-lit. • To have six full size changing rooms with two of these to be female specific. • To have a full size sports hall. • To have a strength and conditioning facility. • To create a Down Health and Wellbeing Centre where all ages can benefit from advice on nutrition, diet, life style and mental and physical well-being. • To have two hurling/camogie walls. • An indoor handball court. (All-Ireland Standard). • On-site catering and dining facilities. • Facilities on site for athletics/walking activity. • On site crèche facilities. • Car parking and toilet facilities. 	

Organisation or Site	Location and Category	DEA	Priority	Facilities Required	Partnerships
BOWLS PAVILIONS	District Wide	District Wide		Pavilions are generally in poor state of repair – Saintfield Bowls Club, Newry Bowls Club, Newcastle Bowls Club, St Peter and St Paul's Bowls Club, Kilkeel Bowling Club.	
CANOEING ON THE CANAL	Newry – Water Sports	Newry	1	Lack of water sports on the canal – could start canoeing if a container was allowed on the side of the canal.	
GUIDANCE FUNDING AND CAPACITY BUILDING	District Wide	District Wide		Clubs require assistance on how to access funding and applying for funding.	
OPENING UP OF SCHOOL FACILITIES	District Wide	District Wide		Need to open up school facilities for community use.	
PLAYING PITCH CHANGING ROOMS	District Wide	District Wide		Poor condition of playing pitch changing rooms across the district.	
NEWRY SHAMROCKS	Newry	Newry	2	Newry Shamrocks caters for 22 GAA teams (football, hurling and juveniles). They have a registered youth club with 195 members and a section called “autistic mums” who used the club’s facilities with a membership of 97.	
	Grass Pitches			The development plan for Parc Esler is to raise the level of the existing pitches by two feet and install new drains and floodlights.	
	Sports Hall		1	There is a need for a community hall as the current sports hall is too small for the current usage. There is no access to the first floor for people with disabilities. The centre needs renovating and a lift installed.	
SACRED HEART BOXING CLUB	Newry – Sports Hall	Newry	3	Club requires access to a new hall. This is a priority for the Club as they moved into the Loughbrook Industrial Estate as a holding measure until the capital build was completed. The Club are paying £150 a week in rent, which is a huge burden on the club financially.	

Organisation or Site	Location and Category	DEA	Priority	Facilities Required	Partnerships
NEWRY TENNIS CLUB	Newry – Tennis	Newry	1	Need for a bubble to be able to provide year-round tennis facilities. Need for additional tennis courts across Newry and must not take tennis courts out of Warrenpoint	
NEWRY HIGH SCHOOL	Newry – Sports Hub	Newry	2	<p>The current site is under utilised by the community it serves and there exists an opportunity to develop a strategic project that will have a significant benefit and impact on the school, the community and the surrounding Newry area.</p> <p>Current facilities:</p> <ul style="list-style-type: none"> • The sporting outdoor facilities at Newry High School are currently very poor. • The school currently has two gravel pitches that are poor surfaces for the delivery of outdoor games. • The school is the only post primary school in the SELB that does not have a grass/3G pitch/area. • There is a lack of full sized soccer sporting facilities in the Newry region. <p>The Project: The Project proposal is to develop the existing facilities at Newry High to include:</p> <ul style="list-style-type: none"> • A full sized artificial (3G) soccer/rugby pitch on existing south gravel site - drainage, goals, dugouts, markings etc. • Flood lighting (3G) – to ensure full use/benefits gained from improved facilities. • Fencing – required to ensure site is safe and secure at all times. • Separate changing facilities and a community block. 	<p>Newry High School Damolly Soccer Club Newry Rugby Club Newry and Mourne Council IFA Sport NI RFU SELB</p> <p>Action so far: Planning application approved Outline business case completed Community Plan completed</p> <p>Number of meetings with senior management and elected officials from all partnership groups. Key support from Newry, Mourne and Down District Council and SELB</p> <p>Newry High School Student Council – letter to and visit from Minister of Education</p> <p>Discussions over draft lease agreement with Newry, Mourne and Down District Council.</p>

Organisation or Site	Location and Category	DEA	Priority	Facilities Required	Partnerships
ST JOSEPH'S HIGH SCHOOL NEWRY	Newry – Sports Hub	Newry	2	<p>Community based initiative called 'Shared Areas' which is registered as a company (limited by guarantee) with charitable status.</p> <p>The intention of the Shared Areas Project is to provide community health and fitness facilities at St Joseph's High School, Newry including:</p> <ul style="list-style-type: none"> • 3G football pitch • Climbing walls (interior and exterior) • External fitness zone • Internal fitness suite • Cycle provision <p>We have engaged in extensive community consultation from September 2014 and are in the process of seeking funding to help create the aforementioned community facilities.</p>	<p>Working in connection with the nine Community Associations in Newry and have developed partnerships with the Southern Health and Care Trust, local church groups, DENI and PSNI Neighbourhood Policing Team.</p> <p>The Shared Areas Project is working to create a series of community health and fitness facilities on the premises of St Joseph's High School which include: 3G football pitch, climbing walls (interior and exterior), fitness zone (interior and exterior) and cycle provision.</p> <p>The need for these facilities has been identified from additional community consultation which looked at the social issues of people in the Armagh Road, in which problems with education, social justice and community cohesion have been highlighted.</p>

Organisation or Site	Location and Category	DEA	Priority	Facilities Required	Partnerships
ST JOSEPH'S HIGH SCHOOL NEWRY (cont'd)					<p>These facilities/services will run in conjunction with existing facilities at the school itself (computer suites, home economics facilities etc) to allow community groups to take part in other socially beneficial activities and in effect improve the social cohesiveness of the area.</p> <p>The benefactors of the proposed facilities will include: the youth, the elderly and family units. As a not-for-profit organisation, there will be a system established which will allow the facilities to be used at a reduced cost or for free for people impacted by financial difficulties.</p>
NEWRY SPORTS CENTRE COMPLEX	Sports Hub	Newry	1	<ul style="list-style-type: none"> • Develop Jennings Park into two AGP pitches for soccer and gaelic sports and rugby, • Utilise the tennis courts from Our Lady's Grammar School. • Walking trail and outdoor gym combined. 	Newry, Mourne and Down District Council, GAA Clubs, Local Soccer League, Our Lady's Grammar School Newry Rugby Club, Tennis Clubs.

Organisation or Site	Location and Category	DEA	Priority	Facilities Required	Partnerships
DOWN HIGH SCHOOL	Downpatrick – Sports Hub	Downpatrick	2	New school in the future with community use providing sports hall and outdoor facilities.	Local Council Education Authority Down Netball
EAST DOWN ATHLETICS CLUB	Downpatrick – Athletics	Downpatrick	1	The development of an all-weather running track is vital, not only for the development of the EDAC but also the health of the community. The broad membership of EDAC in ability and age is a great benefit to all the community in the Downpatrick area. A running track would allow further expansion of the Club and also allow development of athletics for talented youngsters who have to travel to other clubs in Belfast/Lisburn to reach their potential.	
KILLEAVY GAC	AGP	Newry	3	Full planning permission was agreed November 2015 to replace the existing all weather pitch with a 3G rubber crumb pitch with an outdoor gym space and jogging space around the 3G pitch.	

Organisation or Site	Location and Category	DEA	Priority	Facilities Required	Partnerships
DOWNPATRICK YOUTH FOOTBALL LEAGUE	Downpatrick – AGP	Downpatrick	<p>1 Subject to a viable sports development and business plan.</p> <p>Consider if any other facilities will be impacted upon by providing this facility.</p>	Downpatrick FC (DFC), with over 200 playing members (including about 30 females), is currently progressing a project to develop a new state-of-the-art 3 to 4G facility to meet their needs, the needs of the Ballymote and Cathedral wards and the broader needs of the local community's young people.	<p>Downpatrick FC consulted with over 40 local sporting clubs, schools and community groups and 22 have written to confirm their intention to use the facility. This research for the project has identified that 22 local groups, with 1,410 members, plan to use the new facility for in excess of 2,000 hours per year. This will involve an average of almost 50 bookings per week throughout the year.</p> <p>These clubs clearly share DFC's (and Sport NI's) view that new facilities are essential; they see this as an important opportunity for their own development and their planned usage reflects their commitment to helping to ensure the long term sustainability of the facility.</p>

Organisation or Site	Location and Category	DEA	Priority	Facilities Required	Partnerships
MEADOWLANDS	Downpatrick – AGP	Downpatrick	2	<ul style="list-style-type: none"> • 3G Pitch full size fenced and floodlit • MUGA 70m x 40m fenced and floodlit • Children's play park • Trim Trail • Spectator seating • Indoor Area – community rooms and kitchen • Car parking 	Full feasibility and consultation undertaken with local residents.
RUSSELL GAELIC UNION	Downpatrick	Downpatrick			
	Changing Pavilion		2	Clubhouse upgrade - facilities including kitchen, toilets, changing/shower facilities and function room and an extension to clubhouse to include meeting room, permanent gym, additional toilets, storage facilities.	
	Grass Pitches		2	New playing surface on main pitch and provision of floodlights.	
	Walking Trail		1	Project: Walking track around perimeter of facility with outdoor exercise equipment, temporary members gym facility.	
	AGP		3	<p>Spectator stand and facilities underneath.</p> <p>3G training area.</p>	
ARDGLASS GOLF COURSE	Ardglass –Golf	Downpatrick	2	Linked course of the year but require club house refurbishments and car park extension.	
ARDGLASS FC	AGP	Downpatrick	3	Provision of an AGP 3G pitch. It should be noted that there is funding being made available through neighbourhood renewal to upgrade the existing grass pitch.	

Organisation or Site	Location and Category	DEA	Priority	Facilities Required	Partnerships
ARDGLASS MEADOWLANDS	Grass Pitch	Downpatrick	1	Upgrade and level the grass pitch playing surface (Council-owned facility)	
	Changing Rooms/Pavilion	Downpatrick	1	Upgrade and refurbish the existing Council-owned changing facility.	
BALLYNAGROSS FC	Downpatrick – Changing Pavilion	Downpatrick	2	New football pitch facilities but no changing rooms yet nearby GAC has changing facilities.	
BISHOPS COURT RACING CIRCUIT	Bishops Court – Changing Pavilion	Downpatrick	3	Need improved toilet facilities.	
COUNCIL CHANGING AND PAVILIONS	Changing Pavilion	Downpatrick	1	Need to refurbish/replace/Dunleath Park, Ballykinlar, and Rossconor.	
COUNCIL PLAYING PITCHES	Grass Pitch	Downpatrick	1	Need to raise the standard of playing pitches at Dunleath Park, Killough and Strangford.	
DOWNPATRICK ESTATE	Walking Trail	Downpatrick	1	Outdoor gym and 1km track to support and promote staff health and wellbeing.	All stakeholders on the Downshire Estate
DOWNPATRICK RACE COURSE	3G AGP	Downpatrick	1	Pitch planned and received funding.	

Organisation or Site	Location and Category	DEA	Priority	Facilities Required	Partnerships
DOWNPATRICK TENNIS CLUB	Downpatrick Tennis	Downpatrick	2 Project to be considered as part of new Sports Hub. Initial discussions to be held with the school to identify if any immediate action can be taken.	The tennis club requires a minimum of four courts and the current courts need resurfacing and floodlights provided. There is a need to consider resurfacing Downpatrick Tennis Club courts and provide floodlights.	
TECONNAUGHT GFC	Pavilion and Changing Rooms	Downpatrick	3	Club rooms and upgraded changing facilities to reflect the approved planning application and cater for all abilities, all ages and all sexes. An electronic scoreboard to be erected to facilitate Championship football.	
	Grass Pitch		2	New floodlighting for training pitch to be installed to facilitate all year round training. Improvement/Works programme for the training pitch to be developed to include improved playing surface and boundary fence.	
	Walking Trail		1	Ball stops to be replaced at the training pitch. Creation of fitness trail around boundary to promote health and wellbeing.	

Organisation or Site	Location and Category	DEA	Priority	Facilities Required	Partnerships
KILCLIEF COMMUNITY/ KILCLIEF BEN DEARG GAC	Grass Pitch	Downpatrick	2	Upgrade of existing second playing field, training area and existing floodlights, acting as a strategic centre for the development of hurling and camogie in East Down.	<p>The development of facilities is the latest step in a process previously evidenced and supported by the Kilclief Village Plan, Strangford Village Plan and Kilclief Ben Dearg GAC dedicated consultation and development plan process.</p> <p>The club is currently working in partnership with Kilclief Residents Association towards developing a community playpark within club grounds.</p> <p>The development of existing facilities respond directly to local need and are central to each of the village plans and our own plan as shaped by club members and the local community. Partners include Kilclief Residents Association, Strangford Community Association, St Josephs Primary School Strangford and St Malachy's Primary School Kilclief.</p>
	Sports Hall		2	Lower floor development of existing clubrooms as community gym, IT/lifelong learning suite, community meeting space and store (all with dedicated entrance and exit).	
	Hurling Wall		3	Construction of hurling ball wall.	
	Walking Trail		1	Construction of floodlit lough shore perimeter walking trail and environmental amenity/viewing area which would provide safe and accessible walking along a unique lough shore setting and integrate with the proposed development of an iconic coastal path and a dedicated entrance and exit.	

Organisation or Site	Location and Category	DEA	Priority	Facilities Required	Partnerships
KILCLIEF COMMUNITY/ KILCLIEF BEN DEARG GAC (cont'd)					<p>Environmental and feasibility reports have been completed for some of the development planned and the Club has progressed a pre-planning process that will enable the Club to be best placed to satisfy all statutory requirements.</p> <p>A number of funders have already been engaged with a view to assembling the wider funding package.</p>

Organisation or Site	Location and Category	DEA	Priority	Facilities Required	Partnerships
STRANGFORD FC	Grass Pitch	Downpatrick	1	Project - desire to explore the possibility of taking out a long term lease on the playing fields in Strangford.	
	Changing Pavilion		2	<p>We feel that by leasing the pitch and pavilion, we could work in partnership with the Council to re-develop the area. There can be no doubt that by leasing the grounds, we would have greater access to external funding and grants. It would be our aim and ambition to secure funding, both public and private (both from within the Council and from sources other than) to develop a small grass training pitch with floodlighting, improve drainage and construct block structured club rooms. By leasing the area, we would be happy to explore the possibility of taking over responsibility for maintenance etc.</p> <p>The pitch could be used by other sporting codes and we are willing to work collaboratively with other groups in the area to see the playing fields developed for the greater good of the community, thereby increasing people's appetite for sport and contributing towards enhanced health and well-being targets.</p>	
DOWNPATRICK FISHING GROUPS	Other	Downpatrick	2	Quoile River requires appropriate upgrading of fishing stands, a re-stock of various species of fish and requires to be dredged due to silt build up.	

Organisation or Site	Location and Category	DEA	Priority	Facilities Required	Partnerships
MAYOBRIDGE AND WARRENPOINT HANDBALL	Sports Hall	Crotlieve	3	<p>Unfortunately last year the court was closed regularly due to a leak in the roof, which in turn led to warped and loose floorboards.</p> <p>The back wall (glass) is not solid anymore and the door will not close properly leading to irregular bounces.</p> <p>The court is still very usable but is not favoured to play on, for any league and important games.</p> <p>Both Mayobridge and Warrenpoint do have limited access to one wall courts but depend on the Sports Centre for four wall handball.</p> <p>With St Colman's, Newry and St Mark's, Warrenpoint both having recently installed one wall courts, and with St Josephs and the Abbey to follow suit, it is imperative that we can provide access to as many courts as possible.</p> <p>Any future ventures across the sporting spectrum could include handball in their plans as a one wall court just needs a flat wall and surrounding ground.</p> <p>Ideally we would like to increase the number of four wall courts within the county too, as we currently only have five (Downpatrick Sports Centre x 1, Hilltown x 1, Newry Sports Centre x 1 and Saval x 2).</p>	

Organisation or Site	Location and Category	DEA	Priority	Facilities Required	Partnerships
KILBRONEY PARK MASTER PLAN	AGP	Crotlieve	N/A 1	<p>As part of the consultation on the draft Kilbroney Park Master Plan, the Council has received a significant number of comments on the need for adequate GAA and soccer provision in Rostrevor. It is not proposed in the Master Plan to further enhance the informal playing provision which exists in Kilbroney Park. I am conscious the Sports Facility Strategy is currently being developed and soccer and GAA provision in Rostrevor is something which should be considered.</p> <p>Kilbroney Park existing soccer and gaelic sports grass pitches.</p> <p>Need upgraded with a potential site to be developed as a AGP for multi-use within the park for local schools, soccer, GAA clubs, South Down development and other sporting clubs for hire.</p>	
ROSTREVOR ROVERS FC KILBRONEY PARK	Changing Room/Pavilion	Crotlieve	2	<p>Facilities required:</p> <ul style="list-style-type: none"> • Changing facilities • Toilets and washing facilities <p>Can the planned activity hub in the Master Plan encompass facilities for those that participate in team games on site as well?</p>	

Organisation or Site	Location and Category	DEA	Priority	Facilities Required	Partnerships
BURREN/ ST MARY'S GFC	AGP	Crotlieve	3	Development of Facilities: <ul style="list-style-type: none"> • Need to acquire additional grounds for development. • Develop training pitch/3G with associated floodlighting, ball stops and site works. 	
	Walking Trail		1	<ul style="list-style-type: none"> • Provide athletics track/ trail on perimeter of acquired grounds to accommodate needs of Burren AC. 	
	Changing Pavilion		2	<ul style="list-style-type: none"> • Changing facilities to meet needs of female sportspersons in club. • Modernisation of existing changing and shower facilities to meet expanding needs of club. 	
	Grass Pitch		2	<ul style="list-style-type: none"> • Modernisation of spectator toilets. • Modernisation of perimeter fencing of main playing pitch to reflect Health & Safety requirements. 	

Organisation or Site	Location and Category	DEA	Priority	Facilities Required	Partnerships
BURREN VISION	Sports Hall	Crotlieve	3	<p>Our vision is 'To provide a community hub that provides for improved health and wellbeing for the entire locality regardless of ability, belief or age through enhanced facilities and services.</p> <p>Our existing youth club site and surrounding area is not suited for its current use, it is unsafe and extremely limiting in what is offered to the local community. The building has asbestos containing material in both the roof covering and interior ceilings. The building has very poor thermal insulation qualities and a high energy consumption of oil and electricity. A modern facility will allow us to reduce our energy consumption, remove the risk from the asbestos containing material and incorporate into the design renewable energy systems thereby reducing running costs. A new facility will also give us the opportunity to improve the architecture of our community which lies within an Area of Outstanding Natural Beauty.</p>	
BURREN ATHLETIC CLUB		Crotlieve		<p>Juniors train at Burren GAA Club grounds one day per week. We use a rough stone and dust track around the two pitches, through the car park.</p> <p>Issues with this current facility: Safety – Children from 7 years running through the car park, unsuitable, rough surface. Child protection – Toilet facilities not always available (for example when teams are on site for training or matches).</p> <p>We have to cancel regularly giving priority to St Mary's Club football events or due to traditional/parish holidays.</p>	

Organisation or Site	Location and Category	DEA	Priority	Facilities Required	Partnerships
BURREN ATHLETIC CLUB (cont'd)	Athletics	Athletics track – within district – most likely centrally located – partners all athletics clubs and the Council, preferably on a school site.		<p>Senior Club: Would like to develop the senior club but we do not have facilities locally. St Colman's track is oversubscribed on week evenings. Our runners meet and run on local roads wearing head torches and hi-vis gear. This is clearly not safe.</p> <p>Many of the children's mothers like to exercise while their children are training. Over the years a few have run or walked around the track at Burren GAA Club. This has not worked well due to the congestion. We like to encourage the mothers in this activity. An improved facility would encourage participation by these ladies.</p> <p>We would like to propose dust tracks around the Council facilities at Milltown, Warrenpoint and Derryleckagh playing fields.</p> <p>A lit track in Kilbroney would be very welcome for all runners.</p> <p>Strongly agree with proposal to engage with schools. The use of the grass around the playing fields at St Mark's High School, Warrenpoint would be wonderful for the running community – especially if lighting could be installed.</p> <p>Athletic clubs and individual runners across the community would have more access to facilities located in public/Council grounds rather than in private clubs. We would like the Council and Sport NI to consider this when allocating funds.</p>	

Organisation or Site	Location and Category	DEA	Priority	Facilities Required	Partnerships
DERRYLECKAGH PLAYING FIELDS	Sports Hub	<p>Crotlieve</p> <p>Not feasible due to Planning issues</p>		<p>Two full size 3G soccer pitches (in existing pitches location)</p> <p>One 3G full size gaelic sports pitch (in existing pitch location)</p> <p>New facilities required:</p> <ul style="list-style-type: none"> • 3G rugby pitch - located in new area of land beside existing pitches. • Small 3G multi use pitch - located in new area of land beside existing pitches. • Sports hall and changing as required. 	
NEWRY RUGBY CLUB	<p>Changing</p> <p>Grass Pitch</p>	Crotlieve	<p>2</p> <p>2</p>	<p>In summary, the Club has the following requirements:</p> <ul style="list-style-type: none"> • Provision of additional changing facilities and upgrade of the current club facilities such as the car park, external lighting and the provision of a conditioning room. • Enhanced floodlighting to accommodate training . • Upgrading of grass pitches. • Access to additional adjacent playing facilities on Saturday mornings in particular to meet the needs of the burgeoning youth section. 	

Organisation or Site	Location and Category	DEA	Priority	Facilities Required	Partnerships
ST MARK'S HIGH SCHOOL AND ST PETER'S GAA (STRATEGIC ALLIANCE)	Sports Hub	Crotlieve	1	<p>Facilities: Strategic Alliance Agreement from 7 October 2011. After review in November 2012, Facilities Strategic Alliance Agreement extended for five further years to 30 November 2017. Evolving from this Strategic Alliance, initial discussions held on 26 March 2013 re exploring possibility of community sports hub at St. Mark's, involving two lead partners, St Mark's and St Peter's GAA Club, Warrenpoint. Outline Joint Proposal adopted by Board of Governors and St Peter's GAA Club, Warrenpoint in February 2014.</p> <p>Full planning permission sought in April 2014 and approved July 2014. Formal meeting with Sport NI on 12 August 2014.</p> <p>The facility requirements are:</p> <ul style="list-style-type: none"> • Two Lead Partners: St Mark's and St Peter's GAA Club, Warrenpoint with associate partners Warrenpoint Town Football Club, and at least two further associate partners from tennis, gymnastics, judo, netball etc. • All Weather 3G floodlit full size GAA pitch, incorporating markings for full size soccer pitch and stand-alone dressing rooms, toilets, store and office. • Refurbished floodlit tennis/netball outdoor courts. • Opening up use of specialist indoor sports hall for community use. • Opening of outdoor GAA grass pitch for community use. <p>Facilities would be open to the community outside school hours (after 5pm on school days) and from 9am to 10pm on non-school days.</p>	

Organisation or Site	Location and Category	DEA	Priority	Facilities Required	Partnerships
ST PETER'S GAA CLUB WARRENPOINT	Changing Pavilion	Crotlieve	3	Further development of Pairc Liam Ui Ir, Moygannon, owned by St Peter's GAA Club in Warrenpoint to facilitate upgrading of dressing rooms and public toilet facilities to accommodate demand growth in ladies gaelic football and camogie.	
	Walking Trail			Provision of walking track to address needs of Club's Healthy Club Strategy and hurling wall to meet hurling needs at same location.	
SAVAL GAC	Changing Pavilion	Crotlieve	3	<p>Development of Facilities:</p> <p>Purchase additional land including car park from Newry, Mourne and Down District Council, increase parking space with associated lighting, bring car park surface up to standard and upgrade entrance to club.</p> <p>Clubrooms – In need of refurbishment, including heating system which requires major overhaul, energy efficient lighting to be installed and kitchen area upgraded.</p>	
	Walking Trail		1	Running /Walking Track – Develop track with lights around the perimeter of both playing fields to accommodate our teams, athletics club and our local walkers, the latter have to travel to Newry to walk over the winter months.	
	Outdoor Gym		2	<p>Playground – Children's activity equipment, soft impact surface with fencing.</p> <p>Outdoor gym for use by the local community.</p>	

Organisation or Site	Location and Category	DEA	Priority	Facilities Required	Partnerships
BALLYHOLLAND GAC	AGP	Crotlieve	3	The Club has plans for: <ul style="list-style-type: none"> • One new full-size, floodlit playing field to complement Fr Lynch Park. • One 4G floodlit training field. • One 4G warm-up area on the old Kieran Sands Park. • Extended parking. • Improved access from the Innisfree Park to the club's facilities and to the community. 	
TENNIS COURTS	Tennis	Crotlieve	There is a perceived need to protect Warrenpoint Tennis Courts and replace the pavilion which is shared use. St Mark's School is planning to resurface their tennis courts	The Council must keep tennis courts at Warrenpoint.	
GLEN GAC	Grass Pitch Changing Room/Pavilion	Crotlieve	2 2	Upgrade existing grass pitch and changing rooms.	

Organisation or Site	Location and Category	DEA	Priority	Facilities Required	Partnerships
WARRENPOINT TOWN FC	AGP	Crotlieve This project has the potential of funding through Sports Stadia Strand 3	1	To replace the current grass pitch at Milltown and construction of a 3G 'all-weather' pitch involving the removal of existing sand based surface and installation of a dynamic drainage base with tarmac topping and installation of synthetic carpet thereon with silicate sand based anchor material topped up with a rubber crumb to create the appropriate shock pad for the playing of sports. The pitch will have new surround fencing installed and importantly the floodlights will be upgraded to an approximately 500 lux level.	Local community and local schools as well as local soccer leagues.
	Pavilion and Changing Rooms		2	Significant club house extension with changing facilities, showers, toilets, meeting rooms, coaching tuition room, social area, office and storage rooms.	
WARRENPOINT BOWLS CLUB	Pavilion	Crotlieve	1	The existing portacabin at Warrenpoint bowling green is no longer fit for purpose and needs to be replaced. The replacement building should contain sufficient changing facilities for both female and male players, together with adequate toilet facilities for female, male and disabled players. Catering facilities should be provided to allow simple catering for hospitality to be provided to visitors and for the various charity fundraising events organised by the club. Sufficient storage space for scoreboards, mats and other equipment would be required. The replacement premises should be large enough to accommodate indoor bowling mats; this would allow the three existing indoor bowling clubs from Warrenpoint to use the premises for practice and competitive matches.	

Organisation or Site	Location and Category	DEA	Priority	Facilities Required	Partnerships
WARRENPOINT BOWLS CLUB (cont'd)	AGP	Crotlieve	1	<p>The proposal to provide artificial surfaces for Council owned greens would be an unpopular move for Warrenpoint Bowling Club. The club competes in the NIBA bowling league which contains 60 clubs playing over six divisions. Within the NIBA league only two teams have artificial surfaces. These are very unpopular with those clubs who have to travel to play at both these venues as the significant differences between artificial and traditional grass greens is such as to place the away team at a severe disadvantage. The same issue occurs when the teams who have the artificial greens have to play all their away matches on grass. Unless all councils throughout NI were to convert to artificial surfaces the provision of such surfaces would do nothing to promote bowling as a sport for all.</p> <p>The proposal that greens be leased to clubs for a 25 year period would be to the disadvantage of Warrenpoint Bowling Club. The club has a limited membership and the difficulty of obtaining sponsorship for a minority sport would leave the leasing of premises beyond our financial means. This would result in the disbandment of the club which would not help the Council promote sport for all.</p>

BRYANSFORD GAC		The Mournes		The Club is based in St Patrick's Park, Newcastle which is owned by Down County GAA Board. One full sized playing pitch with seated stand and floodlighting, currently up for sale by County Board. One undersized pitch, suitable for juvenile games up to age 14 on adjacent land owned by parish. The Club has no formal lease on this pitch which is also used by St Mary's Primary School. Clubrooms comprising social club, sports hall and four male dressing rooms. These Clubrooms are owned by Bryansford GAC.	Bryansford GAC

Organisation or Site	Location and Category	DEA	Priority	Facilities Required	Partnerships
BRYANSFORD GAC (cont'd)	Pavilion & Changing Rooms	The Mournes	3	<p>The club urgently requires additional playing pitches to meet the sporting needs of its 16 teams. These need to be centred in Newcastle, preferably as close to St Patrick's Park as possible.</p> <p>The club needs to upgrade/increase dressing rooms to the level of being gender specific. Bryansford GAC is the largest sporting group in Newcastle yet has no Council provided facilities/pitches to assist its teams. Bowls, tennis, soccer, hockey are all facilitated on Council property in Newcastle. Bryansford campaigned with Down District Council to provide playing fields in the Castlewellan Road area as far back as the early 1980's. It was claimed that such provision would not be possible until the Burren River flood alleviation scheme was concluded. When this scheme was eventually finished the identified land was sold for housing - no pitches were ever provided. At this stage Bryansford re-opened discussions with Down District Council for provision of gaelic pitches in Donard Park, no such pitches have as yet been provided. Bryansford GAC has the only sports hall in Newcastle. In addition to its own membership use the Club has made the hall available to a wide range of sporting, social and cultural groups within the Newcastle area. In doing so Bryansford is fulfilling a need which should, perhaps, be the responsibility of the Council. The club strongly feels that a rates bill of £12-£13k per annum is punitive and urges the Council to become pro-active in the campaign for sports clubs to be zero-rated.</p> <p>The feeling within the club is that it is being financially punished for its altruism. The Council might also acknowledge the club's input into the health and wellbeing of the local community by examining ways of working with the club. Assistance with supervision, care taking etc might be a starting point. Grass-cutting and maintenance is another area where the Council has the equipment and expertise to lend assistance.</p>	

Organisation or Site	Location and Category	DEA	Priority	Facilities Required	Partnerships
NMDDC, BRYANSFORD GAC, NEWCASTLE NOMAD, HOCKEY CLUB, NEWCASTLE AC, TOLLYMORE UNITED FC, SHIMNA COLLEGE	Sports Hub	The Mournes	1	<p>Newcastle Leisure Centre encompasses a four court sports hall, fitness suite, health and wellbeing offices, swimming pool (likely tourist friendly) outside floodlit synthetic pitch and bowling green – preferred site Girls' School Shan Slieve Drive.</p> <p>Sports Hub in Newcastle encompassing six changing rooms, referees rooms, medical room, training rooms, counselling rooms, and crèche and kitchen facilities – preferred site Donard Park Newcastle.</p> <p>Jogging facilities – lower demesne area at Donard Park, Newcastle – jogging trails with discrete lighting etc – partner's athletic club and Council - Priority 2 – this is a sport, health and wellbeing project.</p> <p>Existing changing facilities at Donard Park, Newcastle are totally inadequate. At present there are three pitches with six teams playing most Saturdays. The lack of adequate changing provision in Donard Park has stifled the development of a number of clubs including Tollymore United FC, Newcastle Nomads HC, Newcastle Athletics and Bryansford GAC. For example clubs cannot facilitate as many underage teams as they would like because of concerns around the existing facilities. Bryansford GAC rarely use the Donard Park because of inadequate changing facilities and likewise Newcastle Athletics Club is unable to hold various events because the current changing facilities are not able to cope with the large numbers of runners.</p>	NMDDC, Bryansford GAC, Newcastle Nomad Hockey Club, and Newcastle AC, Tollymore United FC and Shimna College

Organisation or Site	Location and Category	DEA	Priority	Facilities Required	Partnerships
DONARD PARK	Sports Hub	The Mournes	1	<ul style="list-style-type: none"> • One floodlit 3G Pitch 60m x 100m (68m x 108m including run off) to meet Premier Intermediate League and Irish FA Ground Criteria to ensure excellence pathway for club and football development in Newcastle. • Build changing pavilion to ensure facility satisfies Irish FA Ground Criteria and the pitch is fully operational. • Changing pavilion to include community/meeting facilities for other sports, community groups and charities. • Provision of adequate parking and toilet facilities. • Construct seating area for 200 people to enable facility to host regional finals and elite level matches. • Develop one grass pitch. Develop one grass pitch - 55m X 90m (61m X 97m including run off). • Provision of indoor areas designed and equipped for a gym, boxing, indoor sports (for example judo, karate, bowls) to promote exercise, physical education, strength and conditioning. CROSSGAR	Walking Trail	Rowallane	1	Kilmore Rec Playing Fields. There is plenty of land around and between the two pitches which could add to the amount of facilities being offered, and includes a small pavilion. Something like the Comber Greenway, a well-lit cycle path could make this site accessible, safe and multi-purpose, and could link to a walking/cycle trail around the site. The site could also accommodate a running track around the pitches.	Partners: <ul style="list-style-type: none"> • Crossgar Harriers • Crossgar Cycling • Crossgar Boxing Club • Crossgar Badminton Club • Kilmore Rec Football Club • Crossgar Youth League
	Community/ Wellbeing Centre		2 requires assessment of need	Lislea Drive. Phase 1 - A gym/fitness facility which could be used by any and all clubs, boxing club.	
	Sports Hall		3	<p>St Colmcille's School site - Accessible from anywhere in the village, this site would be the most practical in terms of equity of access for all residents and for future proofing, should we need to consider expansion. It provides the most options for a multi use facility and a community hub. The potential for the site to become a Village Wellbeing Hub, encompassing the High School, Primary School, Sure Start / crèche facilities for adults to return to daytime education, the Pharmacy and Doctor's Surgery, backing onto the woodland of the Monastery. It has been noted that the school has seen a decline in numbers over the last few years and the Community Association would be keen to work with the school, the Council and the Education Authority (EA) to try to address some of the issues, seeing if we can make the school more appealing by potentially linking it to excellent sports facilities - perhaps the school could aim to be a sports centre of excellence, as many of our local sporting heroes have come from Crossgar, Killyleagh and surrounding areas.</p> <p>This option would allow us to work with the mums and toddlers in the area, with the BB and the Youth Club, with other clubs and private ventures (eg weight watchers clubs) could all be facilitated under the one roof. There is potential for housing the community association, for creating social enterprises and even for creating a residential facility which could host TBUC Summer Camps for example.</p>	

Organisation or Site	Location and Category	DEA	Priority	Facilities Required	Partnerships
CROSSGAR (cont'd)	Cycle Path	Rowallane	1	<p>Additionally, Crossgar would love to be able to accommodate the cyclers, walkers and runners safely in the dark winter months. If they choose to train outside, we would love to be in a position to accommodate that. There are two paths and grass verges along the main road to Downpatrick. These are not well maintained and often overgrown. Crossgar Association would love to see at least one of these verges turned into a cycle path all the way to Downpatrick. Well-lit, with smooth surfaces, this could become a resource for all the local schools and fitness clubs, as well as accessible by anyone in the area.</p>	
KILLYLEAGH YC FOOTBALL CLUB	Killyleagh - AGP	Rowallane	2	<p>The Club's vision is for a full sized 3G floodlit pitch surrounded with a running track on a new site (field towards Killinchy) adjacent to the facilities we have but out of the flood plain our existing main pitch and small youth pitch sit in.</p> <p>During the winter we have to cancel matches due to our main pitch being flooded. Our youth pitch needs lifted out of the flood plain as matches also are called off but this would cost approximately £150,000 to do, but this would be an option if funding was available. (This is floodlit but lighting would need upgraded).</p> <p>We know this would be used by many clubs/schools in our neighbourhood as we have seen with our 3G training facility. At present our older youth teams have to use the Bridge Centre pitch and we cannot always get the time slots we need due to other clubs from other districts using it also.</p> <p>We would also have space for an outdoor gym/children's small play area.</p>	

Organisation or Site	Location and Category	DEA	Priority	Facilities Required	Partnerships
ST COLMAN'S HIGH AND SIXTH FORM COLLEGE	Ballynahinch – Sports Hall	Rowallane	3	<p>We have identified a very real need for a sports hall to complement the training and playing requirements in our area.</p> <p>St Colman's has undertaken, with CCMS and the Department of Education architectural plans and a preliminary feasibility study.</p> <p>The school does have a designated area adjacent to the existing 2G floodlit pitch that could accommodate such a facility.</p> <p>With the present hiatus in educational funding partnership once again with the Council could be a realistic option.</p>	
LANGLEY ROAD, BALLYNAHINCH	Grass Pitches	Rowallane	1	Needs additional drainage works.	
BALLYNAHINCH OLYMPIC FOOTBALL CLUB	AGP	Rowallane	3	<p>The Club and a local residents group had been successful in securing funding for the Lough Park area in Ballynahinch (behind the Ballynahinch Leisure Centre). The majority of the funding from Peace III and the Council. This was lost due to issues with Planning etc. The planning was eventually granted for a 3G facility but too late.</p> <p>In the interim the club is in talks with some local schools to investigate using their facilities and upgrading it to Intermediate standard. There will be a cost to this of approximately 50,000 to 100,000 depending on the site and the work required. The Lough Park project is though still a priority.</p>	

Organisation or Site	Location and Category	DEA	Priority	Facilities Required	Partnerships
STRANGFORD LOUGH AND LECALE PARTNERSHIP	Water Sports, Walking And Cycling	Rowallane	1	<ul style="list-style-type: none"> Outdoor recreation activities feature in the Sports Development plans. Water based recreation development. Co-ordinated training and support for paddling, canoeing, rowing and sailing - especially for young people. Development of the use of the Council's modular AquaDock pontoon system across the area and any related infrastructure/shore docking. Support for community coastal rowing. Community walks around settlements – public realm improvements, signage and activities coastal walks. Sustainable beach activities and related issues relevant to public realm, water quality etc. Areas for particular consideration: Tyrella, Kilclief, Ballyhornan, Killough. 	
STRANGFORD LOUGH COASTAL WORLD SKIFF ROWING CHAMPIONSHIPS	Stranford Lough – Water Sports Walking And Cycling	Rowallane	1	Insufficient access to the Lough and clubs require storage facilities along the Lough.	
MAGHERODROLL BOWLING CLUB	Changing Rooms/Pavilion	Rowallane	3	The clubhouse/pavilion is now 70 years old and is a prefabricated building originally from a site in Belfast. The exterior cladding and roof is asbestos. The interior walls are damp and the overall condition of the clubhouse is extremely poor and continues to deteriorate. There are no changing facilities for ladies and gents. The clubhouse/pavilion needs to be replaced.	
SPA GOLF CLUB BALLYNAHINCH	Golf	Slieve Croob	1	Disability golf is growing the course requires a practice facility. A new footpath to the club along the riverside is proposed to link with the rugby club.	

Organisation or Site	Location and Category	DEA	Priority	Facilities Required	Partnerships
DROMARA GAC	Dromara – Sports Hall	Slieve Croob	1	The proposed development is required over the next 2 – 3 years shall include [but not limited to]: <ul style="list-style-type: none"> • Indoors sports facility. • Increased size of committee room. • External play area for younger members. • Improved car parking and associated lighting. 	
	Changing Pavilion		2	Four additional changing rooms [two ladies and two gents]	
MURLOUGH ATHLETICS CLUB	Dundrum	Slieve Croob	1	<p>Essential to develop and improve runners but also very useful for fitness training (for example Interval and sprints) among other sports such as gaelic and soccer. There are no facilities in Downpatrick to encourage running/athletics among our many young people attending local schools.</p> <p>Running is perfect as a healthy sport option to people who either do not like or feel they are no hood at team sports or ball sports. No safe place to run at night, especially for women and children. Running training often involves frequent fast interval/sprint runs over short periods and runners are a safety hazard to all other pedestrians (and cars) during this type of training.</p> <p>A running track would solve this.</p>	
LIATRIM FONTENOYS GAC	Castlewellan - AGP	Slieve Croob	3	<p>The club's Five Year Development Plan states:</p> <p>"In five years our club will be able to say: <i>Our players and members continue to enjoy the very best possible facilities in the area both on and off the pitch.</i>"</p> <p>Whilst we know that land is never just created we must always ensure that we are utilising the optimum space we have.</p>	

Organisation or Site	Location and Category	DEA	Priority	Facilities Required	Partnerships
LIATRIOM FONTENOYS GAC (cont'd)	Castlewellan - AGP	Slieve Croob		<p>Liatriom Fontenoys GAC has made great progress over several decades with the building of the new clubrooms, new training pitch, the enlargement of the main pitch and the purchasing of adjacent lands.</p> <p>It is hoped that this land can be developed as a new larger training area complete with floodlighting, ball stops, fencing, car parking etc. It is also a key aim to provide an all-weather training surface to the rear training field complete with new flood lighting.</p>	

Organisation or Site	Location and Category	DEA	Priority	Facilities Required	Partnerships
AUGHLISNAFIN GAC'S	Annsborough - AGP	Slieve Croob	3	<p>At present we do not own any facilities and depend solely on the hiring of the Council Fields in Annsborough of which we have part-time use. The current facilities are outdated and do not cater for our club's needs at present in terms, coaching and games etc for all of our teams. Current facilities at present: one gaelic football field unfenced and small outdated portacabin for changing facilities approximately 40 years old.</p> <p>Areas identified in our club development plan for the next five years.</p> <p>In order for us to sustain and develop our club, an upgrading of the current Council grounds and facilities in Annsborough will be required.</p> <p>The entire Council grounds to be enclosed with secure perimeter fencing while maintaining a local walkway for the local community's needs in Annsborough (eg walking dogs).</p> <ul style="list-style-type: none"> • Ball catchers behind each set of goal posts. • The large river to the south of the field to be fenced off. • Dug outs to be provided. • Flood lights to facilitate training and games. • Provision of a 3G surface, together with adequate lighting to cater for outdoor activity on an all year round basis. • Changing facilities : male/female changing rooms also to cater for disabled needs. • Storage facilities for equipment. • Large gym area/fitness suite to cater for indoor training/coaching. • Car park enlargement and resurfacing. • Indoor facility to cater for meetings and functions. associated with youth tournaments and other competitions. • Small miscellaneous equipment, i.e. flags, line markers, nets. 	

Organisation or Site	Location and Category	DEA	Priority	Facilities Required	Partnerships
SHIMNA ANGLING CLUB	Other	Slieve Croob	1	<p>In relation to Altnadua Lough, Dublin Road, Castlewellan provide additional fishing stands for able bodied and disabled anglers (club members and visiting anglers), also walkways to and where necessary around the perimeter of the Lough to ensure the safety of anglers.</p> <p>Improvement of access bridge over Burren River.</p> <p>Possible provision of a limited amount of off-road car parking in the form of hard standing.</p>	
CASTLEWELLAN GAC	Pavilion and Changing Rooms AGP	Slieve Croob	1 2	<p>We have two locations in Castlewellan. Our home pitch is St Malachy's Park and also have our Dublin Road pitches next to the Council Bann Road playing fields.</p> <p>Bann Rd Our Dublin Road pitch is a full sized gaelic pitch alongside a smaller training pitch and are both floodlit.</p> <p>This was completed using club funds and Sport NI funding and a smaller donation from the Council.</p> <p>However as stated these were built without changing facilities which are now essential in order to provide games on this site.</p> <p>The changing facilities at the adjacent Council pitches are insufficient and the Council has already marked them as a priority.</p> <p>We would wish to work with local bodies to ensure facilities are provided that meets the needs of all the community.</p>	Castlewellan GAC, Castlewellan High School, East Down Development

Organisation or Site	Location and Category	DEA	Priority	Facilities Required	Partnerships
CASTLEWELLAN GAC (cont'd)		Slieve Croob		<p>Requirements</p> <ul style="list-style-type: none"> • Changing rooms – essential now, would need to incorporate storage and referees rooms. • Leasing of gaelic pitch to develop a floodlit 3G pitch with secondary support from Ladies and Camogie, County Development Squads, High School and possible School Boards. This has already been discussed with the Council. • Access and suitable parking for these facilities are also a priority. <p>St Malachy's Park</p> <p>We have been carrying out improvements to our facilities on a piecemeal basis. The greatest upgrade was in the 1970s when the pitch was resurfaced, changing rooms built and the social club was opened. We again improved the social club in late 1990s and resurfaced the pitch and had a stand built with changing rooms underneath at the start of the century.</p>	

Organisation or Site	Location and Category	DEA	Priority	Facilities Required	Partnerships
CASTLEWELLAN GAC (cont'd)	Changing Rooms and Pavilion	Slieve Croob	3	<p>St Malachy's Park Pitch and Playing Facilities:</p> <p>Requirements</p> <ul style="list-style-type: none"> • Roof on stand. • New changing rooms. • Ball wall. • Handball and coaches have stated they would be interested in starting a club but we do not have the facilities. It could also be used to develop hurling and football. <p>Additional Plans</p> <ul style="list-style-type: none"> • PA system – needs replacing soon. • Storage – this has never been adequately allowed for in any of our developments to date and more room is required. As the number of players and teams have grown and continue to do so, so has our need for storage space. • Developing parking facilities within club grounds from Newcastle Road entrance. <p>St Malachy's Park - Clubrooms:</p> <p>Short Term Requirements</p> <ul style="list-style-type: none"> • Running Costs and Energy – we have always managed our costs well but these have a major impact on what we can do and provide. We need initiatives for clubs and local bodies that provide for the community where they can avail or more modern equipment to light, heat and run their clubs. We cannot invest in new equipment due to the initial outlay. <p>We have longer term view for our facilities and see a need to develop.</p> <p>We have provided local stage productions in our Club, locally performed and written and see that as an area of focus as demand grows.</p>	

Organisation or Site	Location and Category	DEA	Priority	Facilities Required	Partnerships
CASTLEWELLAN GAC (cont'd)	Sports Hall	Slieve Croob	3	<p>Long Term Requirements:</p> <ul style="list-style-type: none"> • We need access to a large hall, we use the High School as much as we can in winter and would use in summer too but difficult to get time and expensive. We have more players and teams but also we want to provide more for our members and community. If possible the hall should also be able to host stage events and full productions. • Smaller sports room for group or classes. • Spinning room - for members and team. We want our teams to avail of this but this can also be made available to members and community. • Gym - for teams and members. This year we build a small temporary gym for our senior players and have been amazed at the demand for it. This is an area of growth and our members wish to use it. It is already much too small for our current needs and we also need something permanent and supported with better equipment. • Suitable changing rooms, internal and not just for teams, these would need to be male and female specific. 	

Organisation or Site	Location and Category	DEA	Priority	Facilities Required	Partnerships
CASTLEWELLAN GAC (cont'd)		Slieve Croob		<p>Our plans are indeed ambitious but we have the demand and also we have the volunteers. In addition to what has been listed further support facilities are needed:</p> <ul style="list-style-type: none"> • Reception/office. • A drop in area, room for people to meet or wait on others. • Communication LED Boards at the front of the building. • Upgraded kitchen facilities. • Meeting room for club/GAA. • Storage – As previously stated properly thought and planned storage space, usually an after thought. <p>Running costs cannot be ignored and we are working on a plan that would allow us to achieve this by including elements in the redevelopment of our clubrooms.</p> <ul style="list-style-type: none"> • Office rooms for local bodies or agencies to rent. • A commercial space at front or side. 	
CASTLEWELLAN FC	AGP Changing Pavilion	Slieve Croob	1 2	<p>The Council pitch needs upgraded to possibly a 4G facility which could be shared between other sports/clubs, this could become a hub for the area.</p> <ul style="list-style-type: none"> • The car Park needs upgraded to a tarmac area. • Storage facilities urgently required. • The changing facilities need to be freshly built to an intermediate standard and could be moved to facilitate the club and immediate Council pitch. The movement though will be restricted due to intermediate status requirements. Our ongoing participation in the amateur league hinges on the development of these within the next year. • Car park lighting needs to be provided with health and safety in mind.

CAMLROUGH LAKE	Water Sports	Slieve Gullion	1	Camlough Lake Association/Partnership, require toilets, changing rooms and improved access to lake. Storage facility.	NMDDC
FORK HILL AND DISTRICT DEVELOPMENT ASSOCIATION (FADDA)	Sports Hub	Slieve Gullion	4	Support FADDA in the development of sports facilities as part of the phased development in particular a multi-use games area and other outdoor running and gym trails.	FORK HILL AND DISTRICT DEVELOPMENT ASSOCIATION
FORKHILL PAEDAR O'DOIRNIN GAA	Grass Pitch	Slieve Gullion	2	Murdock Park soccer field which is in the process of being sold to the GAA club requires extensive drainage and safety surrounding works.	
CLOVER HILL GOLF CLUB	Golf	Slieve Gullion	2	Need for a golf driving range and teaching facilities.	
KICK BOXING	Changing and Pavilion	Slieve Gullion	3 Consider sharing or hiring facility in Newry	Kick boxing is not a recognised sport but needs assistance from the Council to find facilities to use and requires storage facilities.	

Organisation or Site	Location and Category	DEA	Priority	Facilities Required	Partnerships
RING OF GULLION AONB	Walking and Cycling		1	Support the further development of outdoor activity – through walking, cycling, climbing and canoeing activities to encourage participation in physical activity using the natural features of the Ring of Gullion AONB.	RING OF GULLION AONB
	Sports Hub		1	<p>Camlough Lake should be suggested in the report as a multi-sport hub site for Slieve Gullion area. It has more than five groups using it, it is already seen as a sport hub, the Council is planning to invest more in the lake; there is a Camlough Lake Task and Finish Group where the groups have a say about what is going on, it is close to Newry, there is a Master Plan.</p> <p>Kiltybane Lake which is outside Crossmaglen and leased by the Council - there is a car park which is well kept but the toilets are a portacabin which needs work on. The group also hopes to put in disabled access jetties and a boardwalk around the whole lake to enable walkers, bikes, anglers, bird watchers to get around the lake.</p>	
	Walking and Cycling		1	Slieve Gullion Forest Park - The Council is taking over this forest and as part of this license - there are plans to develop three running trails in the park. The Slieve Gullion Running Club is based here and is doing very well but cannot run here during the winter. There is also the Mullaghbawn Ladies Running Group and the Crossmaglen Running Group which are also facing the same problem in this area. There is a need to develop more walking and cycling trails in the forest.	

Organisation or Site	Location and Category	DEA	Priority	Facilities Required	Partnerships
CARRICKCRUPPEN GAA	AGP	Slieve Gullion	3	<p>In the winter months January, February and March, the training pitch can be closed and or have restricted use due to ground conditions. The nearest facility is St Colman's in Newry but it is usually oversubscribed.</p> <p>We believe that Carrickcruppen has sufficient footfall in its immediate hinterland to justify the expansion of current grounds to have an all-weather facility with lights, possibly a walking track and the completion of the gym facility.</p> <p>Furthermore this facility could and would service the next 3-5 mile hinterland supporting outlying areas that could possibly not generate the critical mass of users required to justify the investment as a standalone proposal in their own right. The facility could possibly be used by St Paul's High school (subject to a more formal arrangement) as they currently have no further space to expand.</p>	
FORKHILL GAC	Grass Pitch		<p>Subject to lease and in progress</p> <p>2</p>	<p>Looking at acquiring a second playing field to accommodate demand. The club has leased an unused soccer field (Murdock Park) from Newry, Mourne and Down Council with a view to purchase.</p> <p>The club plans for the pitch to be upgraded.</p>	

Organisation or Site	Location and Category	DEA	Priority	Facilities Required	Partnerships
CAMLOUGH LAKE WATER FESTIVAL, FEILE CAMLOCH, NEWRY TRIATHLON CLUB AND CAMLOUGH CANOE CLUB	Sports Hub (Water Sports)	Slieve Gullion	1	<p>We feel the model of a single multi-sports facility on a single location may not present a good fit for a rural location such as Slieve Gullion/South Armagh. It is our contention that a number of smaller hubs to service the Slieve Gullion/South Armagh area may be a better option for this rural community.</p> <p>One such hub we suggest would be a water based sports/ outdoor pursuits facility based at Camlough Lake.</p> <p>Camlough Lake boasts a broad range of organisations and user groups providing a wide range of these activities for a diverse population.</p> <p>Good transport links from the main east coast corridor between Belfast and Dublin and is situated close to a number of main centres of population.</p> <p>Investment from NMDDC to the improvement of Camlough Lake in line with the Camlough Lake Master Plan.</p> <p>Recent confirmation of campsite facilities for the Slieve Gullion area enticing more tourism.</p> <p>User groups include:</p> <ul style="list-style-type: none"> • Camlough Lake Water Festival Events – open water swimming for all age groups. • Feile Camlocha - Annual Crooked Lake Triathlon 13th year 2017. • Camlough Canoe Club - water safety and coaching for youth and all age ranges. • Newry and Mourne Sea and Kayaking - water safety and coaching for youth and all age ranges. 	

Organisation or Site	Location and Category	DEA	Priority	Facilities Required	Partnerships
CAMLOUGH LAKE WATER FESTIVAL, FEILE CAMLOCH, NEWRY TRIATHLON CLUB AND CAMLOUGH CANOE CLUB (cont'd)		Slieve Gullion		<ul style="list-style-type: none"> • Newry Triathlon Club - duathlon, triathlon training and events in on and around the water. • Open water polo club – water polo. • Rowing – training and racing. • Angling clubs fishing at Camlough Lake and local areas. • Lake End Ski Club water skiing/slalom skiing. • Curragh Racing leisure boating and racing. • Camlough Conservation Society. • Camlough Historical Society. • International Ice Swimming Association Ireland Winter swimming. <p>Running and walking events</p> <p>Training base for high performance athletes</p> <p>Historical, nature and cultural tours</p> <p>Guinness world record for greatest distance relay swim in open water 2009</p> <p>Camlough lake water festival – annual weekend long event schedule now in its 9th year 2017</p> <p>Potential: Enticing more user groups to the area, development of a high performance training ground. Further development of an already diverse group who has had a track record of delivering a wide range of events in and around Camlough Lake and to other venues within the DEA.</p>	

Organisation or Site	Location and Category	DEA	Priority	Facilities Required	Partnerships
CROSSMAGLEN RANGERS GAA	Crossmaglen	Slieve Gullion	2	<p>This project is 'shovel ready'. Full Planning approval has already been obtained to replace our current changing rooms building with a modern, fit for purpose facility.</p> <p>The existing building is no longer fit-for-purpose and has very significant operational and health and safety deficiencies (ie, no fire escapes, no fire doors, PVC ceilings, single glazed windows, no heating system, changing rooms too small for county squads, two communal showers serving four changing rooms, no ladies facilities, toilet areas are now beyond their useful life, inadequate and limited referees changing in attic space, no control room).</p> <p>Capacity building to meet regional needs for the Club, county and province in all codes.</p> <p>Features will include :</p> <ul style="list-style-type: none"> • Six modern dressing rooms (including female changing facilities). • Medical centre/treatment rooms/control room/ stewards briefing facilities. • First floor kitchen and conference facilities for coaching courses etc. • Realignment of the existing turnstiles required to facilitate the new building. • The Club has secured possession of Lismore Playing Fields. • Intention is to develop a fully floodlit full size 3G pitch on the site. • Will contribute to provision of year round fixtures and provide an all weather training facility. • Reduces the likelihood of games being cancelled due to unplayable surfaces. • There is currently no other such facility in the locality or within County Armagh. 	
	Pavilion and Changing Rooms				
	AGP		2		

Organisation or Site	Location and Category	DEA	Priority	Facilities Required	Partnerships
CROSSMAGLEN RANGERS GAA (cont'd)	Crossmaglen Sports Hub	Slieve Gullion	4	<ul style="list-style-type: none"> Planned rebuild of St Joseph's High School on the Dundalk Road - possible joint venture School to use the 3G pitch during and after school hours for school team training and college fixtures Club to use it during evenings and weekends when GAA club activity is concentrated Crossmaglen is a designated county ground under the Safety of Sports Ground Regulations Floodlighting would help unlock the potential of the pitch providing a facility capable of hosting floodlit club, county, provincial and national fixtures Our excellent playing surface can accommodate winter football Could help reduce the likelihood of fixture cancellations during the autumn winter period. This will become increasingly important if the 'one calendar year' fixture plan goes ahead. Lack of alternative provision - there is currently only one other fully floodlit ground in Armagh County (Athletic Grounds, Armagh). Terracing the existing gravel bank on the Lismore side of the grounds will increase our ground capacity from its current limit of 5,150 to approx 9,000 – 10,000. Opens up the venue to further fixtures eg National Leagues, provincial club fixtures as well as ladies football and camogie on a provincial and national level. <p>Resurfacing the Main Car Park</p> <ul style="list-style-type: none"> To comply with the safety of Sports Grounds Regulations and comply with health and safety obligations we will need to resurface the car park area and gravel areas inside the turnstiles. Required to ensure safe access and egress from the venue. 	

Organisation or Site	Location and Category	DEA	Priority	Facilities Required	Partnerships
CROSSMAGLEN RANGERS GAA (cont'd)	Crossmaglen	Slieve Gullion		<ul style="list-style-type: none"> The car park is currently in a very poor state of repair and is a potential hazard. Loose gravel areas inside the ground are also in need of remedial work. <p>Future Potential:</p> <ul style="list-style-type: none"> There are two areas of adjacent land currently on offer to the Club for purchase. With the right investment strategy Crossmaglen could be developed in the longer term into a regional hub for the association, something that is currently lacking in this region. 	
CAMLLOUGH ROVERS FC	Camlough - AGP	Slieve Gullion	3	<p>New car park to support 3G pitch built in 2014.</p> <p>Additional 3G pitch – stand to hold 200 spectators, additional toilet facilities and two turnstiles.</p> <p>Require facilities to move into Irish League Championship 2.</p>	
MULLAGHGLASS PM SCHOOL	AGP	Slieve Gullion	2	New AGP for school and community usage.	
DERRYMORE HOUSE	Walking Trail	Slieve Gullion	1	As part of the rural development within the ERT Dept this site has been identified as a possible walking trail.	
KILTYBANE FISHING GROUP	Walking Trail and Boat Jetty	Slieve Gullion	1	The Kiltybane lake fishing clubs, wish to improve the walking trail around the lake in order to provide disabled access to the lake itself, and also develop a boat jetty in order to be able to get disabled people onto boats to fish out on the lake itself.	
CRAOBH RUA	AGP	Slieve Gullion	2	Require a 3G training pitch adjacent to club's main field (leased from the Council) along with a hurling wall.	

KEY CHALLENGES AND OPPORTUNITIES

4.96 Based on the analysis, consultation feedback and the key issues identified, there are a number of key challenges and opportunities to consider in planning for future provision of sports facilities in Newry, Mourne and Down District:

Table 4.11: Key Issues, Challenges and Opportunities in Planning for Future Sports Facility Provision

Facility Type/Issue	Key Challenge	Key Opportunity
PLAYING PITCHES	<p>Lack of grass pitches and poor quality of existing stock.</p> <p>Need for additional AGPs/3Gs/MUGAs, particularly at specific sites/in specific areas.</p> <p>Specific club needs and future support of the local authority.</p>	<p>There are a number of identified sites where AGPs/3G pitches could be developed, often in partnership with local clubs. Some of the larger clubs have significant needs for training and playing facilities to accommodate growing numbers of junior players; given the aim of increasing participation, these are important opportunities to engage young people in active lifestyles which they will continue into later life.</p>
HIGH PERFORMANCE/TRAINING FACILITIES	<p>Future revenue funding and operational sustainability.</p>	<p>Potential funding for multi-sport hubs.</p> <p>There are a number of potential sports hubs. The local authority would like to support a sports hub in each of the DEA areas.</p> <p>Provision of these sports hubs will include AGP pitches and will increase overall usage. Therefore, minimising the need for grass pitch upgrade to higher standards.</p>
NEED FOR ADDITIONAL FACILITIES - SWIMMING POOLS, FITNESS FACILITIES, GAPS/3Gs	<p>Population growth will increase demand for sports facilities at local level; the challenge is resourcing these needs (capital and revenue) and ensuring investment is evidence-based.</p>	<p>Population growth provides the opportunity of additional planning gain resources; priority investment projects will benefit from these monies, so sport needs to 'be at the table'.</p>
EXISTING LOCAL AUTHORITY SPORTS FACILITIES	<p>The Newry and Down Leisure Centres are being replaced with new facilities.</p>	<p>The Newcastle Centre is ageing and requires a new facility. This should be a number one priority going forward to look at indoor sports and swimming provision in Newcastle.</p>

Facility Type/Issue	Key Challenge	Key Opportunity
CROSS BOUNDARY USE/PROVISION	The scale and geography of NI means that communities access provision outside of the Council area in which they live.	The scale and geography of NI means there is a real opportunity to plan strategically for sports facilities and specifically those of a larger scale, across boundaries. Newry, Mourne and Down District Council has an opportunity to discuss facility provision with its neighbouring authorities.
COMMUNITY PLANNING AGENDA	Ensuring provision of sports facilities and participative opportunities is highlighted as a priority in this process, given the contribution they make to healthy lifestyles and reducing health inequalities.	The new planning process provides a real opportunity to further endorse the role and importance of sport, sports facilities and physical activity as part of active lifestyles and to secure resources to support their ongoing provision.
NEED FOR A RANGE OF OUTDOOR FACILITIES – WATER SPORTS, WALKING, CYCLING, BMX, ADVENTURE AND URBAN TRAILS	There is a need to provide informal sports facilities which facilitate physical activity as part of everyday life, the need for additional outdoor sports facilities has been identified.	There is an opportunity to develop additional trails and routes which could provide for both specific activities, for example, water sports and facilitate access between existing provisions, as well as eg transport hubs. This has potential as the means to link a number of sites in a multi-sport hub.

4.97 It should be noted that sporting clubs have the opportunity to lease or purchase Council facilities; however the following guidance must be used:

NEWRY, MOURNE AND DOWN DISTRICT COUNCIL - LEASING OF PLAYING PITCHES GUIDANCE

4.98 Leasing of playing pitch or court sites and related facilities to sports clubs or sports organisations will need to be underpinned by the following principles:

- Regularise sports and community facility management and leasing procedures.

- Empower and improve the capacity of our local communities.
- Improve sports and community development opportunities for all.
- Encourage sporting clubs and community organisations to play a greater role in the management of facilities.
- Support improved health and wellbeing outcomes.
- Any proposal must promote social, economic or environmental wellbeing and support the aims and priorities of the Council.

- Newry, Mourne and Down District Council will not guarantee exclusivity on a first come first served basis when considering any application from a sports group and will consider other expressions of interest, as appropriate from other groups and organisations.
- Any proposal must deliver agreed benefits for local people.
- The playing pitches and related facilities have in the past for a minimum of five years been used by one single club, for example, bowls club, tennis club, soccer club, rugby club, GAA club.
- The playing pitches are deemed to be under-utilised and alternative provision has been agreed with existing users.
- No multi sports pitch/facilities or individual sites, pitches that have a high and multi-club usage shall be considered for leasing.
- Exceptional circumstances will be, for example, Down County Board want to utilise a pitch for their centre of excellence etc.

5. SUMMARY CONCLUSIONS AND NEXT STEPS

5. Summary Conclusions and Next Steps

INTRODUCTION

- 5.1 Newry, Mourne and Down has a wide range of sports facilities across the area, the majority of which are of good quality. There are, however, existing facilities which do not benefit the local community because access to education sites cannot be secured outside of curriculum time. There is a need to provide formal community use agreements with schools for the use of their sporting facilities. At the same time the Council has to recognise that there may well be a cost to the Council to get schools to open facilities during the evenings and weekends.
- 5.2 The Council recognises that the existing Newcastle Centre and Tropicana Swimming Pools in Newcastle require significant investment to bring them up to modern standards. A feasibility study should be undertaken to consider the options which also include tourism options.
- 5.3 The local population is growing which will increase demand for provision. Existing Newry, Mourne and Down communities are generally healthy, although obesity is increasing, they are generally mobile and have the means to participate.
- 5.4 Current participation levels compare well with the NI average.

SUMMARY OVERVIEW AND ANALYSIS

- 5.5 The community consultation process for this Strategy has highlighted the need for additional provision of indoor sports facilities in Newcastle. Illustrative quantitative supply and demand assessments based on population levels, building on 'Bridging the Gap 2009 and 2014' identify current and future under supply of sport halls, pools and fitness stations. However, assessment of accessibility highlights that the majority of the Newry, Mourne and Down communities are within the catchment area of a community accessible sports facility. There are specific sports needs for sports hall facilities; for basketball and gymnastics and trampolining in Newry which will be addressed with the new Newry Leisure Centre. There is also a need to put in place formal community use agreements to ensure use of school sports halls. By implementing community use agreements with schools this will ensure the required supply of sports hall facilities across Newry, Mourne and Down meets demand now and in the future.
- 5.6 Some existing facilities are unavailable for community access because they are on education sites and there needs to be a drive to put in place formal community use agreements for school facility use.

5.7 One of the major issues resulting from the strategic assessment of need is the quality or perceived lack of playing pitches in the district, both grass and AGP. The larger football, rugby and GAA clubs have growing junior sections and insufficient facilities to train and play. In addition there is a need for improved outdoor playing pitch changing facilities. From the work undertaken in this Strategy regarding sports provision and the need for artificial grass pitches and grass pitches along with other sports provision provides the opportunity to consider the development locally of facilities which provide for four to five different sports on one site. These could facilitate increased participation at community level and potentially

be more efficient and effective to operate given that revenue costs could be spread across the facility operation and remove the need for duplication of infrastructure eg car parking, across a number of sites.

5.8 It is proposed to provide a sports hub in each of the DEAs over a period of time.

5.9 The provision of a sports hub would be required to meet certain criteria. This is to ensure sustainability and meet Sport NI key principles of providing sports hubs across NI.

The proposed sports hub criteria is as follows:

Criteria	Site Name
<p>1. The proposed development must have considered the following:</p> <ul style="list-style-type: none"> (i) The perceived needs of Newry, Mourne and Down sports clubs identified within the Sports Facility Strategy. (ii) Other Local Authorities Sports Facility developments and strategies. (iii) The Northern Ireland 10 year Sports Facility Plan 2016. <p>Meets Sport NI KP1, KP2, KP3 and KP5</p>	Yes/No
<p>2. Is the land currently in the ownership of Newry, Mourne and Down District Council or Education Ownership (reduced land holding costs).</p> <p>Use of Education sites meets Sport NI KP7.</p>	Yes/No
<p>3. Proposed sports hub is already known as a sport and leisure destination and has some existing sports and leisure facilities (previously known as a sports destination).</p>	Yes/No
<p>4. The proposed sports hub must have a high proportion of population within a 20 minute drive time in the individual DEA (major catchment) with accessible transport routes to and from.</p> <p>Meets Sport NI KP3.</p>	Yes/No

Criteria	Site Name
<p>5. Does the sports hub provide the opportunity to provide for high performance facilities?</p> <p>Meets Sport NI KP5</p>	Yes/No
<p>6. Partnership arrangements must be in place for the operation and use of the sports hub (This could be Local Authority, Education and Schools, Sports Clubs or Community Centres).</p> <p>Minimum of four different sports clubs and sports to be involved in the partnership. All sports club users must be members of SANDSA.</p> <p>Meets Sport NI KP2, KP3 and KP7 (if education site utilised).</p>	Yes/No
<p>7. A sustainable business case with a long term sports development plan must be in place with a sink fund for the provision of 3G pitches at any sports hub.</p> <p>Meets Sport NI KP4</p>	Yes/No

5.10 Other identified facility needs were highlighted as a need for athletic facilities and improved tennis and bowls facilities. The need for extended walking and cycling trails and routes and adventure provision.

PRIORITIES

5.11 The following priorities have been identified through the strategy analysis, needs assessment and consultation:

1. Development of new and improved playing pitches to a 'Good' Standard.
2. Consideration of providing additional water space to 2037. (Newcastle).

3. Consider the provision of a tennis bubble to provide all year round tennis facilities at Newry Tennis Club/ Newcastle Tennis Club.
4. Consider a shared partnership approach with a school to provide a 400m six lane athletics facility in the Downpatrick/Newcastle area.
5. Review previous work undertaken to identify the needs and requirements of indoor sports facilities in Newcastle.
6. Potentially some support for club-led projects (could be to assist with match funding for grant applications, or a one-off capital grant).

7. Development of cycling and walking trails – investment to create additional trails, open up riverside and canal trails, link into national cycling network, (this reflects a priority in the NI-wide Sports Facilities Strategy); development of an urban/adventure trail, potentially linking sports sites as part of a multi-sports hub.
8. Investment in areas of under provision particularly rural areas – MUGAS.
9. Review of existing community centres – how they can provide for sport and physical activity in the rural areas.
10. Development of further partnership working across the local sports sector to ensure NMDDC's resources are

targeted where most impact will result in terms of participation and that future investment is both strategic and sustainable.

11. Ensure that provision of sports facilities and participative opportunities are a priority in the Newry, Mourne and Down Community Plan, so that wherever possible planning gain resources can be secured for investment at local level.

5.12 Based on the above priorities, the following recommendations are made for future sports facility provision in Newry, Mourne and Down:

RECOMMENDATIONS

RECOMMENDATION 1

A feasibility study is undertaken to consider the options for the Newcastle Centre and sports facilities in Newcastle in the future.

RECOMMENDATION 2

Consider providing additional and improving 'Poor' and 'Standard' quality rated playing pitches for soccer and gaelic sports to meet a 'Good' standard of provision which allows for pitches to have the capacity to provide for three games a week.

RECOMMENDATION 3

The Council to provide refurbished or new pavilion changing rooms where the Strategy has identified the need at outdoor sports facilities.

RECOMMENDATION 4

The Council to provide capacity building, funding application and business and sports development planning advice to sports clubs and sports and community organisations.

RECOMMENDATION 5

The Council to consider the opportunity to designate a multi-sport hub within each of the DEAs. Designation of a multi-sports hub should also involve the provision of support services for high performance training, operating as a satellite from the Sports Institute NI.

(There are a number of management proposals to look at and a need to talk to clubs every hub would be different as each DEA is different)

DEA	Site Location	Priority Scoring	Current Status
Crotlieve	Kilbroney Sports Association	1	Business Plan and partnerships in place.
Crotlieve	St Mark's High School/St Peter's GAA	1	Planning permission has been approved and partnership agreed.
Downpatrick	Down High School (New School)	1	Initial discussions to be held with school and possible partner sports and clubs.
Mournes	Donard Park, Newcastle	1	Initial stage of identifying partnerships and funding. Restricted in number of sports.
Mournes	Kilkeel High School/Leisure Centre	1	Initial stage of identifying partnerships and stakeholders.
Mournes	Newcastle Football Club	1	Partnerships in place initial stages of identifying funding.
Mournes	St Louis Grammar School	1	Initial stage of identifying partnerships and stakeholders.
Newry	Newry High School	2	Initial stage of identifying partnerships and funding. Restricted in number of sports.
Newry	Newry Leisure Centre	1	Initial stage of identifying partnerships and stakeholders.
Newry	St Joseph's High School	2	Initial stage of identifying partnerships and funding. Restricted in number of sports.
Rowallane	Active Saintfield	1	Initial stage of identifying partnerships and funding.
Rowallane	Assumption Grammar School	1	Existing community use and all stakeholders to be established.
Slieve Croob	Ballynahinch Rugby Club	1	Initial stage of identifying partnerships and stakeholders.
Slieve Gullion	Camlough Lake	1	Water Sports Hub – initial stage of identifying partnerships.

RECOMMENDATION 6

The Council undertakes a review of its community centres to assess the options for the long-term of sports and physical activity provision at these facilities; as well as the locations for future provision given the population growth expected.

RECOMMENDATION 7

The Council works with external partners to develop outdoor provision comprising walking and cycling routes/trails linking sports facilities and transport.

RECOMMENDATION 8

Areas of population growth/areas without access to other formal sports facilities should have access to a MUGA or outdoor recreational grass sports area as minimum provision.

RECOMMENDATION 9

Partnership working should underpin all future investment in sports facility provision to ensure it 'fits' with and addresses identified needs of the district and can maximise access to and securing of, all available external and internal funding opportunities.

RECOMMENDATION 10

The Council should consult and work with neighboring authorities and other providers on an ongoing basis on future sports facility provision to ensure there is no duplication of provision.

RECOMMENDATION 11

Consider a partnership approach to the development of a bubble to cover two tennis courts at either Newry Tennis Club or Newcastle Tennis Club to provide a facility within the local authority that provides for all year round tennis.

RECOMMENDATION 12

Consider a shared approach with a school to deliver a 400m six lane track with ancillary facilities in the Downpatrick/Newcastle area.

RECOMMENDATION 13

Facility specifications should fully reflect inclusive design guidance (Access to Sports Facilities for People with a Disability - 2009), to ensure provision is appropriate for participants with a disability. Disability Sport NI, Governing Bodies and Councils should work together to ensure all sports facilities are fully inclusive and where appropriate, receive Inclusive Sports Facility (ISF) accreditation.

APPENDICES

Appendix 1

(Below is the list only of consultees who attended Roadshows during August/September 2015)
(It should be noted other organisations have given their input to the document)

Appendix 2

Demand Assessment Table - Health and Fitness Facilities (Newry, Mourne and Down)

Calculation used to calculate demand

1	Total population 16+	2016 139,131		
2	Number of potential members/users of health and fitness clubs		2016 13.7%	
3	2 above shown as % of total adult population 1. above		19,061	
4	Average user attends 1.5 times per week or six times per month number of visits per week			2016 28,591
5	Number of visits per week in peak times = 65% of total number of visits			18,584
6	Number of visits in one hour of peak time = total visits during peak time /34			547

A total number of 547 stations would be required to cater for the predicted demand by potential members/users of any health and fitness facility

2016 demand for Health and Fitness Facilities **547** Current Supply **838** Current Surplus / Deficit in supply **291** Surplus

The model is based on the premise that for the supply to be sufficient, it must be large enough to cater for the maximum demand at any one time. Maximum demand is described as the demand during a peak hour session

Penetration of fitness users is defined using the UK FIA 2015 Parameters

The average health and fitness session is one hour
65% of use is during peak times

35	Andy Ward Leisure	20	Lifebuilders Centre Kilkeel
	Ballynahinch	20	An Riocht
30	Burrendale Hotel	20	Newcastle Centre
25	Muscleworx Gym	90	Carrickdale Hotel Newry
30	Elite Fitness	80	Sculpt Newry
22	Ballymote	80	Rite Fitness Newry
25	De La Salle School	100	Canal Court Newry
32	Down Leisure Centre	60	Gym Tech Newry
90	Newry Sports Centre	47	Cross Fit Castlewellan
32	Kilkeel Leisure Centre		

Appendix 3

Demand Assessment Table - Health and Fitness Facilities (Newry, Mourne and Down)

2037

Calculation used to calculate demand

1	Total population 16+	2037		
2	Number of potential members/users of health and fitness clubs	164,160	2037	
3	2 above shown as % of total adult population 1. above		13.7%	
4	Average user attends 1.5 times per week or six times per month number of visits per week		22,490	
5	Number of visits per week in peak times = 65% of total number of visits			2016
6	Number of visits in one hour of peak time = total visits during peak time /34			33,735
				21,928
				645

A total number of 645 stations would be required to cater for the predicted demand by potential members/users of any health and fitness facility

2037 demand for Health and Fitness Facilities **645** Current Supply **838** Current Surplus / Deficit in supply **193** Surplus

The model is based on the premise that for the supply to be sufficient, it must be large enough to cater for the maximum demand at any one time. Maximum demand is described as the demand during a peak hour session

Penetration of fitness users is defined using the UK FIA 2015 Parameters

The average health and fitness session is one hour
65% of use is during peak times
