Update 24.03.2020: Temporary Suspension of Building Control Site Inspections

Our Building Control department is withdrawing its site inspection service in line with our Building Control Northern Ireland partner Councils until further notice.

Following the recent escalation of the Coronavirus response, this decision is also in line with the latest guidance from the Public Health Agency in respect of public safety and welfare.

Building Control shall continue to respond to any Dangerous Structure requests.

Anyone wishing to book an inspection is advised to do so by email at buildingcontrol@nmandd.org so that Building Control can keep a record of requests for future reference. These requests shall demonstrate the measures taken in difficult circumstances to attempt to gain compliance.

Builders/applicants are advised to take date stamped photos or videos for future reference before covering up the works.

Please telephone 0300 0137 4003 to report any Dangerous Structure.
