**Coronavirus Job Retention Scheme**

HMRC will pay a grant to cover 80% of furloughed workers’ wage costs (those forced/allowed of work), up to a cap of £2,500 per employee per month. The retention grant is to help employers meet the wage costs of employees who are not working without having to make redundancies. This means workers can retain their job, even if their employer cannot afford to pay them, and be paid at least 80% of their salary

The employer is not required to top this grant up. The scheme will be back dated to 1 March 2020 and open for at least 3 months but will be extended if required, with the overall fund for
making the payments being unlimited. The scheme will be available for all employees currently paid via PAYE and we understand it will include a mechanism to address the position of zero hours workers and other employees who may not be entitled to receive standard rates of pay.

**For whom?** All UK employers, irrespective of business size or sector.

**How to access:** By application to HMRC, who will also administer payment. Employers are required to designate affected employees as ‘furloughed workers’ and notify the employees of this change. Businesses will then submit information to HMRC about the employees that have been furloughed and their earnings through a new online portal.

**Next steps:** Detailed guidance is due shortly. HMRC are working to get scheme up and running as soon as possible but recognise their existing systems are not set up to facilitate payments to employers. The aim is that the first grants will be paid within weeks and before the end of April, however, businesses should recognise there may be a funding gap between the payment of wages and the eventual receipt of the grant which they could be required to finance, particularly during the initial roll out of the scheme.

**Deferred VAT and TAX Payments**

VAT Payments for all UK VAT Registered and self-employed businesses will be deferred for three months for payment that would be due from 20 March 2020 until 30 June 2020. Additionally, taxpayers will be given until the end of the tax year 2020/21 to pay any VAT liabilities that have accumulated during this deferral period.

Effectively, this relieves the requirement to pay VAT for VAT periods ending February, March and April 2020 until 2021. Importantly, the Government will continue to pay VAT refunds and VAT reclaims as normal for eligible claims. This will assist cash flow support and help businesses retain staff.
